The Cargo Cult:

The Cargo Cult Kakesek Peniel, 1969 *The cargo cult* Kenelm Burridge, 1962 Cargo, Cult, and Culture Critique Holger Jebens, 2004-01-01 This collection of original essays is based on fieldwork in Melanesia Fiji Australia and Indonesia by scholars who are influential in the contemporary debate on cargo cults Cargo, Cult, and Culture Critique Holger Jebens, 2004-09-30 Cargo cults have long exerted a remarkable attraction on Westerners and the last decade has seen the publication of much new work on the subject This collection of original essays is based on fieldwork in Melanesia Fiji Australia and Indonesia by scholars who are influential in the contemporary debate on cargo Conceived as a reader for undergraduate and graduate courses the volume offers an up to date view of the subject and the debates it arouses among contemporary anthropologists Some contributors plead for the abolition of cargo because of its troublesome implications but also because in the authors view cargo cults do not exist as identifiable objects of study Others argue that it is precisely this troublesome nature that makes the term a useful analytical tool that should be welcomed rather than rejected By delineating and substantiating key issues and positions in this lively and ongoing debate this volume underscores and refines the contemporary reevaluation of cargo cults Scholars of the Pacific region and others interested in new religious movements should find this volume both enlightening and compelling Contributors Nils Bubandt Vincent Crapanzano Douglas M Dalton Elfriede Hermann Holger Jebens Martha Kaplan Karl Heinz Kohl Stephen C Leavitt Lamont Lindstrom Ton Otto Joel Robbins Jaap Timmer Robert Tonkinson **The Cargo Cult** John Thorpe, 1972 **Cargo Cult as Theater** Dorothy K. Billings, 2002-05-28 Why did half the people on New Hanover a small island north of New Guinea vote for Lyndon Baines Johnson to be their ruler in 1964 Dorothy K Billings believes that this sort of action seen in New Guinea and other parts of Melanesia is part of the cargo cult phenomenon or micronationalist movements which are principally regarded as responses to European colonialism Based on thirty five years of fieldwork and observation *Cargo Cult as Theater* demonstrates how the Johnson Cult originally mocked and ridiculed by the outside world should be seen as an ongoing political performance meant to consolidate local power and advance economic development This fascinating study follows the changes in this community ritual from the time of the white master to post colonial self determination and reveals the history of this people s attempt to gain intellectual moral economic and political control over their own lives **Cargo Cult** Ryan M. Schoelerman, 2005 **Cargo Cult** Lindstrom, 2018 *Occidentalism : Images of the West* James G. Carrier, 1995-04-13 This is an investigation of Western cultural identity It shows how people s images of themselves and others reflect the power that different groups in a society have to shape these images The contributors describe these images in Western academic writing popular Western culture and societies outside the West in this counterpart to Edward Said s *Orientalism* *Occidentalism* is an investigation of images of Western cultural identity Edward Said s *Orientalism* revolutionized Western understanding of non Western cultures by showing how Western projected images shaped the Occidental of the Orient but those who follow Said have not

until now reflected that understanding back onto Western societies Occidentalism shows how images of the West shape people's conceptions of themselves and others and how these images are in turn shaped by members of Western and non Western societies alike The contributors describe and explicate these images in a variety of areas from Western academic writing to popular Western culture from societies within and outside the West to show how power and conflict shape such conceptions

The Contextualization of Cargo Cult Beliefs and the Christian Message in Irian Jaya, Indonesia Michael L. McDowell, 1994

A comparison between two different approaches in Cargo cult analysis Lee Hooper, 2013-09-23

Studienarbeit aus dem Jahr 2011 im Fachbereich Ethnologie Volkskunde Note 1 Massey University New Zealand Sprache Deutsch Abstract Since their appearance and documentation in the South Pacific anthropologists have found it difficult to agree on how to define cargo cults This is due to the ambiguity of whether the practice constitutes a deviation from normal social relations and the implicit derogative nature of the word cult By first outlining a description of what cargo cults are and how they have been classically interpreted a comparison will be made between the theories of Leavitt 2000 and McDowell 2000 two theorists that have diverged from the classic writings on the topic Through explaining both theorists work and comparing them it will be concluded that a dualistic approach is necessary in gaining the most complete analysis of the cargo phenomenon and that substituting the term cargo cult with cargoism allows for a more objective approach in analysing this practice

Language Planning from Practice to Theory Robert B. Kaplan, Richard B. Baldauf, 1997-01-01 Language Planning from Practice to Theory examines and reviews the field of language policy and planning In the first section of the book language policy and planning definitions current practices goals and ways of thinking are discussed as a foundation for understanding current practice in the discipline The central elements of language policy and planning practice are then described from two perspectives In the second section the methodology for collecting language planning data is outlined and the key cross societal issues of language in education planning literacy and economics in language planning are discussed In the third section case studies related to language and power bilingualism and status and specific purpose issues in language planning are covered The final two chapters draw together the critical issues and problems which have arisen from current practice and which must be considered in building a theory of the discipline A reference appendix to language planning in national situations is included The book provides the only up to date overview and review of the field of language policy and planning and challenges language planners to think more critically about their discipline Since language will be planned there is a need to consider how it will be done

Indigenous Religions Stephen Hunt, 2017-03-02 This volume on Indigenous Religions in The Library of Essays on Sexuality and Religion series focuses on indigenous religions and their attitudes towards human sexuality Through previously published articles the volume gives full scope to attitudes towards sexuality found in a vast range of contrasting expressions of religiosity outside of the so called World Faiths Examples are taken from cultures as far afield as Africa Australasia South America and the Pacific islands Part 1 includes a number of

articles centring on the role of sexuality in rites of passage and initiation in relation to liminality maturity and reproduction Part 2 examines the relationship between sexuality spirit possession and witchcraft Part 3 includes such areas as religion gender patriarchy and both hetero sexualality and non heterosexuality The final part considers sexuality and indigenous religions in a changing and globalised world and entails the themes of sexuality as expressed through cargo cults pilgrimage and religiosity in the context of colonial dominance Thinking about Society: Theory and Practice Ian Jarvie, 2012-12-06 I C Jarvie was trained as a social anthropologist in the center of British social anthropology the London School of Economics where Bronislaw Malinowski was the object of ancestor worship Jarvie s doctorate was in philosophy however under the guidance of Karl Popper and John Watkins He changed his department not as a defector but as a rebel attempting to exorcize the ancestral spirit He criticized the method of participant obser vation not as useless but as not comprehensive it is neither necessary nor sufficient for the making of certain contributions to anthropology rather it all depends on the problem situation And so Jarvie remained an anthro pologist at heart who in addition to some studies in rather conventional anthropological or sociological molds also studied the tribe of social scien tists but also critically examining their problems especially their overall rather philosophical problems but not always so a few of the studies in cluded in this volume exemplify his work on specific issues whether of technology or architecture or nationalism in the academy or moviemaking or even movies exhibiting excessive sex and violence These studies attract his attention both on account of their own merit and on account of their need for new and powerful research tools such as those which he has forged in his own intellectual workshop over the last two decades **The Humaniverse Guide To Better Reasoning and Decision Making** Keith Seland, 2020-01-31 Do you know how thinking about the possibility of extraterrestrial life can help make better decisions in your everyday life The answer to this question will be the first of many that enlighten you and is found in the Introduction to The Humaniverse Guide to Better Reasoning and Decision Making Every person has to reconcile how to solve the many problems that arise daily in their lives These questions are structured like the hypotheses scientists use to enter into their investigations The Humaniverse Guide will immerse the reader by first demystifying the platform of science and show them the tools and methods scientists use to solve their problems answer their hypotheses Then The Humaniverse Guide engages the reader as the research scientist forensic investigator jury and judge in an actual investigation that of the extraterrestrial hypothesis Along its course The Humaniverse Guide will raise their level of knowledge inquiry and critical thinking to help them make sense of their environment in beneficial ways they never were aware of before The reader will own these new tools and larger skill set This can later help in applications to their own life situations and to make successful decisions With these themes The Humaniverse is situated for a global audience What sets The Humaniverse apart from other recent titles such as Ancient Alien Ancestors by Will Hart Timothy Good s Earth An Alien Enterprise Forbidden Science From Ancient Technologies to Free Energy as edited by J Douglas Kenyon and John B Alexander s UFOs Myths Conspiracies and Realities is

that the reader will acquire an acute awareness of the history of science learn its methods then use their new tool sets the same way scientists do That user will also analyze a more extensive and pragmatic set of raw data and evidence facts observed and collected from millions of witnesses from all walks of life throughout recorded human history This is offered to help bridge the gaps in understanding and comfort level that currently exist among the general public and both the science communities and the extraterrestrial hypothesis The abundant utilities the reader user can obtain from The Humaniverse Guide help make those everyday decisions easier to obtain and better

Handbook of Cultural Psychiatry Wen-Shing Tseng, 2001-06-06

Cultural psychiatry is primarily concerned with the transcultural aspects of mental health related to human behavior psychopathology and treatment At a clinical level cultural psychiatry aims to promote culturally relevant mental health care for patients of diverse ethnic or cultural backgrounds From the standpoint of research cultural psychiatry is interested in studying how ethnic or cultural factors may influence human behavior and psychopathology as well as the art of healing On a theoretical level cultural psychiatry aims to expand the knowledge and theories about mental health related

human behavior and mental problems by widening the sources of information and findings transculturally and providing cross cultural validation This work represents the first comprehensive attempt to pull together the clinical research and theoretical findings in a single volume Key Features Written by a nationally and internationally well known author and scholar The material focuses not only on the United States but also on various cultural settings around the world so that the subject matter can be examined broadly from universal as well as cross cultural perspectives Proper combination of clinical practicalities and conceptual discussion Serves as a major source for use in the training of psychiatric residents and mental health personnel as well as students of behavior science in the areas of culture and mental health A total of 50 chapters with detailed cross referencing Nearly 2000 references plus an appendix of almost 400 books 130 tables and figures

Religion and Anthropology Brian Morris, 2006 This important textbook provides a critical introduction to the social anthropology of religion focusing on more recent classical ethnographies Comprehensive free of scholastic jargon engaging and comparative in approach it covers all the major religious traditions that have been studied concretely by anthropologists Shamanism Buddhism Islam Hinduism Christianity and its relation to African and Melanesian religions and contemporary Neopaganism Eschewing a thematic approach and treating religion as a social institution and not simply as an ideology or symbolic system the book follows the dual heritage of social anthropology in combining an interpretative understanding and sociological analysis The book will appeal to all students of anthropology whether established scholars or initiates to the discipline as well as to students of the social sciences and religious studies and for all those interested in comparative religion
