the genre With the creation of Ripley one of literature's most seductive sociopaths Highsmith anticipated the likes of Norman Bates and Hannibal Lecter years before their appearance

**Real Phonies** Abigail Cheever, 2010-01-25 The epithet phony was omnipresent during the postwar period in the United States It was an easy appellation for individuals who appeared cynically to conform to codes of behavior for social approbation or advancement Yet Holly Golightly isn't a phony because she's a real phony says her agent in *Breakfast at Tiffany's* In exploring this remark Abigail Cheever examines the ways in which social influence was thought to deform individuals in midcentury American culture How could a person both be and not be herself at the same time The answer lies in the period's complicated attitude toward social influence If being real means that one's performative self is in line with one's authentic self to be a real phony is to lack an authentic self as a point of reference to lack a self that is independent of the social world According to Cheever Holly Golightly is like a phony in that her beliefs are perfectly in accordance with social norms but she is real insofar as those beliefs are all she has *Real Phonies* examines the twinned phenomena of phoniness and authenticity across the second half of the twentieth century beginning with adolescents in the 1950s like Holly Golightly and Holden Caulfield and ending with mid-career professionals in the 1990s like sports agent Jerry Maguire Countering the critical assumption that with the emergence of postmodernity the ideal of authentic self disappeared Cheever argues that concern with the authenticity of persons proliferated throughout the past half century despite a significant ambiguity over what that self might look like Cheever's analysis is structured around five key kinds of characters adolescents the insane serial killers and the figures of the assimilated Jew and the company man In particular she finds a preoccupation in these works not so much with faked conformity but with the frightening notion of real uniformity the notion that Holly and others like her could each genuinely be the same as everyone else

**America Noir** David Cochran, 2016-06-21 In *America Noir* David Cochran details how ten writers and filmmakers challenged the social pieties prevalent during the Cold War such as the superiority of the American democracy the benevolence of free enterprise and the sanctity of the suburban family Rod Serling's *The Twilight Zone* featured victims of vast faceless bureaucratic powers Jim Thompson's noir thrillers such as *The Grifters* portrayed the ravages of capitalism on those at the bottom of the social ladder Patricia Highsmith in *The Talented Mr. Ripley* placed an amoral con man in an international setting implicitly questioning America's fitness as leader of the free world Charles Willeford's pulp novels such as *Wild Wives* and *Woman Chaser* depicted the family as a hotbed of violence and chaos These artists pioneered a detached ironic sensibility that radically juxtaposed cultural references and blurred the distinctions between high and low art Their refusal to surrender to the pressures for political conformity and their unflinching portrayal of the underside of American life paved the way for the emergence of a 1960s counterculture that forever changed the way America views itself

Anxiety and Evil in the Writings of Patricia Highsmith Dr Fiona Peters, 2013-05-28 Drawing on an impressive range of secondary material including many elusive reviews interviews and articles from the under explored Highsmith Archive Fiona Peters suggests that the usual generic distinctions crime fiction mystery suspense have been largely unhelpful in elucidating Patricia Highsmith's novels Peters analyzes a significant selection of Highsmith's works chosen with a view towards demonstrating the range of her oeuvre while also identifying the main themes and preoccupations running throughout her career Adopting a psychoanalytic approach Peters proposes a reading of Highsmith that subordinates murder as the primary focus of the novels in favor of the gaps between periods of activity represented through anxiety waiting lack of desire and evil Her close readings of the Ripley series *This Sweet Sickness* *Deep Water* *The Tremor of Forgery* and *The Cry of the Owl* among others reveal and illuminate Highsmith's concern with minutiae and the particular Peters makes a strong case that the specific disturbances within her texts have resulted in Highsmith's writing remaining resistant to explication and to the more sophisticated interpretative strategies that would seek to position her within a specific genre
