biographical material on Bagehot compares his political philosophy with those of his contemporaries and contrasts Britain's parliamentary government today with that of the last century *Great Britain, the Dominions and the Transformation of the British Empire, 1907-1931* Jaroslav Valkoun, 2021-02-15 The relations of Great Britain and its Dominions significantly influenced the development of the British Empire in the late 19th and the first third of the 20th century The mutual attitude to the constitutional issues that Dominion and British leaders have continually discussed at Colonial and Imperial Conferences respectively was one of the main aspects forming the links between the mother country and the autonomous overseas territories This volume therefore focuses on the key period when the importance of the Dominions not only increased within the Empire itself but also in the sphere of the international relations and the Dominions gained the opportunity to influence the forming of the Imperial foreign policy During the first third of the 20th century the British Empire gradually transformed into the British Commonwealth of Nations in which the importance of Dominions excelled The work is based on the study of unreleased sources from British archives a large number of published documents and extensive relevant literature

**The British Aircraft Industry and American-led Globalisation** Takeshi Sakade, 2021-12-09 Sakade challenges the narrative that the focus of British manufacturing went from Empire to Europe and argues rather that following the Second World War the key relationship was in fact trans Atlantic There is a commonly accepted belief that during the twentieth century British manufacturing declined irreparably that Britain lost its industrial hegemony But this is too simplistic In fact in the decades after 1945 Britain staked out a new role for itself as a key participant in a US led process of globalisation Far from becoming merely a European player the UK actually managed to preserve a key share in a global market and the British defence industry was to a large extent successfully rehabilitated Sakade returns to the original scholarly parameters of the decline controversy and especially questions around post war decline in the fields of high technology and the national defence industrial base Using the case of the strategically critical military and civil aircraft industry he argues that British industry remained relatively robust A valuable read for historians of British aviation and more widely of 20th century British Industry

Modern Islamist Movements Jon Armajani, 2011-11-07 Modern Islamist Movements provides a clear and accessible examination of the history beliefs and rationale of Islamist Groups and their grievances with the West and governments within the majority Muslim world while examining some of these groups visions for a global Islamic empire A clear and accessible text that examines the history beliefs and rationale for violence emerging from Islamist movements while examining some of these groups visions for a global Islamic empire Examines Islamist grievances against the West and modern governments in the majority Muslim world while providing an overview of Islam's relations with the West from the period of the Crusades to the modern age Discusses the historic development of Islamism in Egypt the West Bank and Gaza Saudi Arabia Pakistan and Afghanistan Explains classic Islamic understandings of jihad and Bin Laden's al Qaida's and other Islamists interpretations of this concept Offers an historical account of the formative
