Sources of Vietnamese Tradition George Edson Dutton, Jayne Susan Werner, John K. Whitmore, 2012. *Sources of Vietnamese Tradition* provides an essential guide to two thousand years of Vietnamese history and a comprehensive overview of the society and state of Vietnam. Strategic selections illuminate key figures, issues, and events while building a thematic portrait of the country's developing territory, politics, culture, and relations with neighbors. The volume showcases Vietnam's remarkable independence in the face of Chinese and other external pressures and respects the complexity of the Vietnamese experience both past and present. The anthology begins with selections that cover more than a millennium of Chinese dominance over Vietnam (111 B.C.E. - 939 C.E.) and follows with texts that illuminate four centuries of independence ensured by the Ly Tran and Ho dynasties (1009-1407). The earlier cultivation of Buddhism and Southeast Asian political practices by the monarchy gave way to two centuries of Confucian influence and bureaucratic governance (1407-1600) based on Chinese models, and three centuries of political competition between the north and the south, resolving in the latter's favor (1600-1885). Concluding with the colonial era and the modern age, the volume recounts the ravages of war and the creation of a united independent Vietnam in 1975. Each chapter features readings that reveal the views, customs, outside influences, and religious and philosophical beliefs of a rapidly changing people and culture. Descriptions of land, society, economy, and governance underscore the role of the past in the formation of contemporary Vietnam and its relationships with neighboring countries and the West.

Does Buddhism require faith Can an atheist or agnostic follow the Buddha's teachings without believing in reincarnation or organized religion This is one man's confession In his classic *Buddhism Without Beliefs* Stephen Batchelor offered a profound secular approach to the teachings of the Buddha that struck an emotional chord with Western readers Now with the same brilliance and boldness of thought he paints a groundbreaking portrait of the historical Buddha told from the author's unique perspective as a former Buddhist monk and modern seeker Drawing from the original Pali Canon the seminal collection of Buddhist discourses compiled after the Buddha's death by his followers Batchelor shows us the Buddha as a flesh and blood man who looked at life in a radically new way Batchelor also reveals the everyday challenges and doubts of his own devotional journey from meeting the Dalai Lama in India to training as a Zen monk in Korea to finding his path as a lay teacher of Buddhism living in France Both controversial and deeply personal Stephen Batchelor's refreshingly doctrine free life informed account is essential reading for anyone interested in Buddhism *A Teacher's Tale* Joe Gilliland,2015-03-05 It was never in author Joe Gilliland's plan to become a teacher certainly not a college teacher and most certainly not an English teacher But that's what happened and he's never looked back In *A Teacher's Tale* he explains how by neither planning for nor

seeking a life of learning and teaching lacking a syllabus or lesson plan he discovered that a life in academe lay in his path. A path he has followed for more than fifty years. *A Teachers Tale* begins in 1932 with Gilliland's first experiences in schooling and concludes in the summer of 1955 just as he completes his apprenticeship and stands on the brink of becoming a qualified instructor in a small college in east Texas. This memoir presents a collection of stories about his experiences as a teacher and a college student. A story of schooling deeply immersed in the arts and humanities. *A Teachers Tale* shares Gilliland's love of the university and how it compelled him to seek a life devoted to teaching primarily in the community college arena. Through this narrative he brings together a philosophy of higher education based on the importance of arts and humanities in today's high tech world.

Diasporic Tastescapes Paula Torreiro Pazo, 2016. *Diasporic Tastescapes* seeks to explore the culinary metaphors present in a selection of Asian American narratives written by a variety of contemporary authors. The intricate web of culinary motifs featured in these texts offers a fertile ground for the study of the real and imaginary histories of the Asian American community, an ethnic minority that has been persistently racialized through its eating habits. Thus, this book examines those literary contexts in which the presence of food images becomes especially meaningful as an indicator of the nostalgia of the immigrant, the sense of community of the diasporic family, the clash between generations and the shocks of arrival and return. The reading of Asian American edible metaphors from these perspectives will prove particularly revealing in relation to the notions of home, identity and belonging, all of them mainstays of the diasporic consciousness. Series: Contributions to Asian American Literary Studies Vol. 8. Subject: Asian American Literature. Literary Criticism. **Tricycle**, 2004.
