The Buddhist Vision A Path To Fullfillment:

Hooked! Stephanie Kaza, 2005-02-08 At one time or another most of us have experienced an all consuming desire for a material object a desire so strong that it seems like we couldn't possibly be happy without buying this thing Yet when we give in to this impulse we often find ourselves feeling frustrated and empty Advertisers of course aim to hook us in this way and from a global perspective our tendency to get hooked fuels the rampant over consumption that is having a devastating impact on the world's stability and on the environment According to the contributors to this unique anthology Buddhism can shed valuable light on our compulsions to consume Craving and attachment how they arise and how to free ourselves of them are central themes of Buddhist thought The writings in this volume most of which have never been previously published offer fresh perspectives and much needed correctives to our society's tendency to believe that having more will make us happier Hooked includes a range of writings on how to apply Buddhist thought and ethics to understand and combat the problem of over consumption as individuals and collectively Contributors include popular Western teachers Asian masters scholars and practitioners such as Pema Chodron on what is actually happening at the moment we're hooked and how to get beyond that Joseph Goldstein on how mindfulness training can help us stop wanting to want Bhikshuni Thubten Chodron on how consumer mentality influences spiritual practice Judith Simmer Brown on how cultivating spiritually based activism and compassionate action can help us address the negative effects of consumerism Rita Gross on how understanding moderation can curb overconsumption Santikaro Bhikkhu on practicing generosity in a consumer world *The Buddha and Religious Diversity* J. Abraham Vélaz de Cea, 2013 Providing a rigorous analysis of Buddhist ways of understanding religious diversity this book develops a new foundation for cross cultural understanding of religious diversity in our time Examining the complexity and uniqueness of Buddha's approach to religious pluralism using four main categories namely exclusivism inclusivism pluralistic inclusivism and pluralism the book proposes a cross cultural and interreligious interpretation of each category thus avoiding the accusation of intellectual colonialism The key argument is that unlike the Buddha most Buddhist traditions today including Theravada Buddhism and even the Dalai Lama consider liberation and the highest stages of spiritual development exclusive to Buddhism The book suggests that the Buddha rejects many doctrines and practices found in other traditions and that for him there are nonnegotiable ethical and doctrinal standards that correspond to the Dharma This argument is controversial and likely to ignite a debate among Buddhists from different traditions especially between conservative and progressive Buddhists The book fruitfully contributes to the literature on inter religious dialogue and is of use to students and scholars of Asian Studies World Religion and Eastern Philosophy **The Journey of One Buddhist Nun** Sid Brown, 2001-09-27 Recounts the struggles of a young Thai woman to become a Buddhist nun and the challenges and rewards of that life **The Buddhist Experience** Stephan V. Beyer, 1974 **Buddhist Environmental Humanism** Anthony Le Duc, 2025-03-11 Since the emergence of the field of religious environmentalism Buddhism has been a key resource in shaping

a religious environmental ethics This book contributes to the global dialogue on religion and ecology by introducing the concept of Buddhist environmental humanism as a framework for understanding Buddhism's response to the contemporary ecological crisis The author argues that through a humanistic lens Buddhist environmentalism offers a deeper understanding of how Buddhism addresses the pressing challenges facing humanity while also properly ascribing agency and responsibility to humans within the broader community of beings Central to this proposal is a recognition of the essential human role within the ecological crisis while carefully avoiding the pitfalls of anthropocentrism and human chauvinism

Zen Ecology Christopher Ives, 2025-03-11 Discover a way of living that can help you slow down and stay grounded and at the same time reduce your ecological impact and engage more fully with the climate crisis It may seem as though living ecologically and engaging in activism sacrifices our own enjoyment and happiness on the altar of doing the right thing In this book professor naturalist and Buddhist author Christopher Ives offers an alternative a way of living that can actually be more fulfilling than the modern consumerist lifestyle Rather than deprivation it can bring us richness In Zen Ecology Chris outlines his environmental ethic as a series of concentric circles beginning with ourselves and then moving outward into our communities all the while focusing on spaciousness mindfulness generosity and contentment At the individual level we deal with distraction clutter and ecological harm Here Chris offers ways to help us pay attention simplify our lives and lower our impact Then we explore how to envision our home as a place of the Way with Zen monastic life as a model for this without having to be a monk Next we realize our embeddedness in nature and emplace ourselves in community with others including other forms of life Finally we build on this basis to engage in activism to create a world that is more supportive of ecological health and spiritual fulfillment In this way we avoid the two extremes of apathy and burnout and uncover a way of living that is simple joyful embedded in nature connected to others in community and supportive of collective action
