The Burma-Siam Railway Robert Hardie,1984 *Surviving the Death Railway* Hilary Custance Green,2016-08-31 The ordeals of the POWs put to slave labour by their Japanese masters on the Burma Railway have been well documented yet never cease to shock It is impossible not to be horrified and moved by their stoic courage in the face of inhuman brutality appalling hardship and ever present death While Barry Custance Baker was enduring his 1000 days of captivity his young wife Phyllis was attempting to correspond with him and the families of Barrys unit Fortunately these moving letters have been preserved and appear edited by their daughter Hilary in this book along with Barrys graphic memoir written after the War Surviving the Death Railways combination of first hand account correspondence and comment provide a unique insight into the long nightmare experienced by those in the Far East and at home The result is a powerful and inspiring account of one of the most shameful chapters in the history of mankind which makes for compelling reading *Asian Labor in the*

Wartime Japanese Empire Paul H. Kratoska, 2014-12-18 During the Pacific War the Japanese government used a wide range of methods to recruit workers for construction projects throughout the occupied territories. Mistreatment of workers was a major grievance both in widely publicized cases such as the use of prisoners of war and forced Asian labor to construct the Thailand-Burma Death Railway and in a very large number of smaller projects. In this book an international group of specialists on the Occupation period examine the labor needs and the recruitment and use of workers whether forced military or otherwise throughout the Japanese empire. This is the first study to look at Japanese labor policies comparatively across all the occupied territories of Asia during the war years. It also provides a graphic context for examining Japanese colonialism and relations between the Japanese and the people living in the various occupied territories. **Building the**

Death Railway Robert Sherman La Forte, Ronald E. Marcello, 1993 Generosity amid the greatest cruelty. Building the Death Railway gives the American perspective on events that shocked the world. **Cultural Heritage and Prisoners of War**

Gillian Carr, Harold Mytum, 2012 This book focuses on the numerous examples of creativity produced by POWs and civilian internees during their captivity, including paintings, cartoons, craftwork, needlework, acting, musical compositions, magazine and newspaper articles, wood carving, and recycled Red Cross tins turned into plates, mugs, and makeshift stoves, all of which have previously received little attention. The authors of this volume show the wide potential of such items to inform us about the daily life and struggle for survival behind barbed wire. Previously dismissed as items which could only serve to illustrate POW memoirs and diaries, this book argues for a central role of all items of creativity in helping us to understand the true experience of life in captivity. The international authors draw upon a rich seam of material from their own case studies of POW and civilian internment camps across the world to offer a range of interpretations of this diverse and extraordinary material. **British Politics, Society and Empire, 1852-1945**

David W. Gutzke, 2017-04-21 This book draws together essays on modern British history, empire, liberalism, and conservatism in honour of Trevor O. Lloyd, Emeritus Professor of Modern British history at the University of Toronto for some thirty years, beginning in the 1960s. With Lloyd best known for his two histories of the Empire and of domestic Britain, published in the Short Oxford History of the Modern World series, as well as his pioneering psephological study of the 1880 General Election, the essays include analyses of Anglo-Irish relations, Florence Nightingale, Canada, muckrakers, the Primrose League, and prisoners of war during World War II. **'Boredom is**

the Enemy' Amanda Laugesen, 2016-04-15 War is often characterised as one per cent terror, 99 per cent boredom. Whilst much ink has been spilt on the one per cent, relatively little work has been directed toward the other 99 per cent of a soldier's time. As such, this book will be welcomed by those seeking a fuller understanding of what makes soldiers endure war and how they cope with prolonged periods of inaction. It explores the issue of military boredom and investigates how soldiers spent their time when not engaged in battle, work, or training through a study of their creative, imaginative, and intellectual lives. It examines the efforts of military authorities to provide solutions to military boredom and the problem of discipline and morale.

through the provisioning of entertainment and education but more importantly explores the ways in which soldiers responded to such efforts arguing that soldiers used entertainment and education in ways that suited them The focus in the book is on Australians and their experiences primarily during the First World War but with subsequent chapters taking the story through the Second World War to the Vietnam War This focus on a single national group allows questions to be raised about what might or might not be exceptional about the experiences of a particular national group and the ways national identity can shape an individual's relationship and engagement with education and entertainment It can also suggest the continuities and changes in these experiences through the course of three wars The story of Australians at war illuminates a much broader story of the experience of war and people's responses to war in the twentieth century

The Economics of World War II in Southeast Asia Gregg Huff, 2020-10-22 The first comprehensive account of the impact of Japanese occupation on Southeast Asian economies and societies during World War II

Ian Watt Marina MacKay, 2018-11-15 Before his masterpiece *The Rise of the Novel* made him one of the most influential post war British literary critics Ian Watt was a soldier a prisoner of war of the Japanese and a forced labourer on the notorious Burma Thailand Railway Both an intellectual biography and an intellectual history of the mid century this book reconstructs Watt's wartime world these were harrowing years of mass death deprivation and terror but also ones in which communities and institutions were improvised under the starkest of emergency conditions Ian Watt *The Novel and the Wartime Critic* argues that many of our foundational stories about the novel about the novel's origins and development and about the social moral and psychological work that the novel accomplishes can be traced to the crises of the Second World War and its aftermath

Ballybunion to the River Kwai Fergus Kennedy, 2025-05-15 *Ballybunion to the River Kwai* is the remarkable account of Don Kennedy's harrowing experience as an Irish prisoner of war in Singapore and Thailand from 1942-45 Vividly narrated by Don's son Fergus this is the first account of an Irish citizen as a POW along the infamous River Kwai offering fresh insights into a chapter of history that the world presumes it knows More than a biography this is a journey through the darkest times to find light and love It's a story that promises to touch hearts provoke thought and perhaps most importantly remind us of the enduring strength and resilience of the human spirit

From the Greenwich Hulks to Old St Pancras G. C. Cook, 2015-11-19 Cook explores the development of clinical tropical medicine from the 19th century onwards by following the pioneering doctors in this discipline their personalities achievements and scientific breakthroughs

From Shanghai to the Burma Railway Rory Laird, 2020-04-30 A graphic record of one man's experience in an infamous POW camp during World War II and how he survived being forced to build the Death Railway Captured after fighting in the Malayan Campaign Richard Laird was incarcerated in Changi before being drafted as slave labor with F Force on the notorious Burma Railway He was one of only 400 out of 1600 to survive Songkurai No 2 Camp despite disease and terrible hardship His moving memoir begins with a rare description of expatriate life in 1930s Shanghai with the Sino Japanese war raging around the European cantonments An

additional dimension to his story is the developing relationship between the author and Bobbie Coupar Patrick to whom he became engaged shortly before the fall of Singapore Bobbie's letters graphically described her dramatic escape to Australia and work for Force 136 They were reunited in Colombo Ceylon and their son has been instrumental in compiling this exceptional record Three appendices round off this superb book including the official report on the hardships and losses suffered by F Force A compelling story that deserves to be widely read Firetrench Medicine and Victory Mark Harrison, 2004-07 Medicine and Victory is the first comprehensive account of British military medicine in the Second World War since the publication of the official history in the early 1950s Drawing on a wide range of official and non official sources the book examines medical work in all the main theatres of the war from the front line to the base hospital All aspects of medical work are covered including the prevention of disease and the disposal and treatment of casualties Harrison argues that the medical services played a major role in the Allied victory enabling the British Army to keep a higher proportion of troops in the field than its opponents Assuming no previous knowledge of either medical or military history Medicine and Victory provides an accessible introduction to a vitally important yet too often neglected aspect of the Second World War Journal of the Society for Army Historical Research, 1985 **The Burma - Siam Railway** Robert Hardie, 1983 *Scattered Under the Rising Sun* Stewart Mitchell, 2013-01-19 The harrowing true story of the Scottish battalion that spent over three years in Japanese captivity during World War II Posted to Singapore in 1937 with their families the members of the 2nd Battalion Gordon Highlanders found themselves fighting bravely when the Japanese invaded Malaya in December 1941 But by mid February came the surrender of Singapore and those who were not killed became POWs After initial incarceration in Singapore the Gordons were dispersed to work on the famous Thai Burma railway in the mines of Taiwan and Japan and on other slave labor projects The conditions they existed under defy modern comprehension Others died trapped in hell ships torpedoed by allied submarines Of the thousand men involved initially over four hundred had died before liberation in summer 1945 Despite their diverse backgrounds all the men had been bound by close regimental spirit and all suffered hard labor starvation brutality and tropical diseases Rank was no protection from death The author of this history has researched the plight of these extraordinary men so many of whom never saw their native Scotland again Despite the grim conditions he captures the strong collective regimental spirit and the humor and cooperation that saved so many who would otherwise have perished This is an inspiring tale of courage and survival against appalling odds
