J. Robert Hunter

The Burning Season The Chico Mendes Story:

The Burning Season Andrew Revkin, 2004-09-30 In the rain forests of the western Amazon writes author Andrew Revkin the threat of violent death hangs in the air like mist after a tropical rain It is simply a part of the ecosystem just like the scorpions and snakes cached in the leafy canopy that floats over the forest floor like a seamless green circus tent Violent death came to Chico Mendes in the Amazon rain forest on December 22 1988 A labor and environmental activist Mendes was gunned down by powerful ranchers for organizing resistance to the wholesale burning of the forest He was a target because he had convinced the government to take back land ranchers had stolen at gunpoint or through graft and then to transform it into extractive reserves set aside for the sustainable production of rubber nuts and other goods harvested from the living forest This was not just a local land battle on a remote frontier Mendes had invented a kind of reverse globalization creating alliances between his grassroots campaign and the global environmental movement Some 500 similar killings had gone unprosecuted but this case would be different Under international pressure for the first time Brazilian officials were forced to seek capture and try not only an Amazon gunman but the person who ordered the killing In this reissue of the environmental classic *The Burning Season* with a new introduction by the author Andrew Revkin artfully interweaves the moving story of Mendes's struggle with the broader natural and human history of the world's largest tropical rain forest It became clear writes Revkin acclaimed science reporter for *The New York Times* that the murder was a microcosm of the larger crime the unbridled destruction of the last great reservoir of biological diversity on Earth In his life and untimely death Mendes forever altered the course of development in the Amazon and he has since become a model for environmental campaigners everywhere

New York Magazine, 1994-09-19 *New York Magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea

Walking the Forest with Chico Mendes Gomercindo Rodrigues, 2009-03-06 A close associate of Chico Mendes Gomercindo Rodrigues witnessed the struggle between Brazil's rubber tappers and local ranchers a struggle that led to the murder of Mendes Rodrigues's memoir of his years with Mendes has never before been translated into English from the Portuguese Now *Walking the Forest with Chico Mendes* makes this important work available to new audiences capturing the events and trends that shaped the lives of both men and the fragile system of public security and justice within which they lived and worked In a rare primary account of the celebrated labor organizer Rodrigues chronicles Mendes's innovative proposals as the Amazon faced wholesale deforestation As a labor unionist and an environmentalist Mendes believed that rain forests could be preserved without ruining the lives of workers and that destroying forests to make way for cattle pastures threatened humanity in the long run *Walking the Forest with Chico Mendes* also brings to light the

unexplained and uninvestigated events surrounding Mendes's murder. Although many historians have written about the plantation systems of nineteenth century Brazil, few eyewitnesses have captured the rich rural history of the twentieth century with such an intricate knowledge of history and folklore as Rodrigues.

Social Studies for Secondary Schools
Alan J. Singer, 2014-10-08

Now in its 4th edition, this popular text for secondary social studies methods courses integrates discussions of educational goals and the nature of history and social studies with ideas for organizing social studies curricula, units, lessons, projects, and activities. A major theme throughout is that what teachers choose to teach and the way they teach reflect their broader understanding of society, history, and the purpose of social studies education. Advocating an inquiry and activity-based view of social studies teaching that respects the points of view of students and teachers and is based in practice and experience, it offers systematic support and open, honest advice for new teachers. Each chapter addresses a broad question about social studies education; sub-chapters begin with narrower questions that direct attention to specific educational issues. Lesson ideas and materials in the book and online are especially designed to help new teachers to address common core learning standards, to work in inclusive settings, and to promote literacy and the use of technology in social studies classrooms. Chapters include highlighted Learning Activities, Teaching Activities, and Classroom Activities designed to provoke discussion and illustrate different approaches to teaching social studies, and conclude with recommendations for further reading and links to online essays about related social studies topics. Activities are followed by four categories: Think it over, Add your voice to the discussion, Try it yourself, and It's your classroom. All of these are supported with online teaching material. Designed for undergraduate and graduate pre-service social studies methods courses, this text is also useful for in-service training programs as a reference for new social studies teachers and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice.

New in the Fourth Edition: Provides a number of new lesson ideas paired with online lesson plans and activity sheets in every chapter. Takes a new focus on data-driven, standards-based instruction, especially in relation to the common core curriculum. Addresses the interactive nature of learning in updated technology sections. Reflects current trends in history education. Includes more of what the author has learned from working teachers. Offers a wealth of additional online material linked to the text.

Simple Things Won't Save the Earth
J. Robert Hunter, 2014-02-19

We drive cars with Save the Whales bumper stickers, buy aerosol sprays that advertise no chlorofluorocarbons, and wear T-shirts made from organically grown cotton. All of these earth-friendly choices and products convince us that we are thinking globally, acting locally, and saving the planet. But are we really? In this provocative book, J. Robert Hunter asserts that using catchy slogans and symbols to sell the public on environmental conservation is ineffective, misleading, and even dangerous. Debunking the Fifty Simple Things You Can Do to Save the Earth approach, Hunter shows that there are no simple solutions to major environmental problems such as species extinction, ozone depletion, global warming, pollution, and non-renewable resource consumption. The use of slogans and symbols, Hunter argues, simply gives the

public a false sense that someone is solving the environmental crisis while it remains as serious now as when the environmental movement began Writing in plain yet passionate prose for general readers he here opens a national debate on what is really required to preserve the earth as a habitat for the human species [Cases in Sustainable Tourism](#) Kaye Chong,2006-05-18 Make sure your students are prepared for the difficult decisions they ll face every day in the tourism industry Cases in Sustainable Tourism is a groundbreaking teaching tool that places students in real life situations where they re faced with complex decisions on the economic social and environmental sustainability of act [Latin American History Goes to the Movies](#) Stewart Brewer,2024-02-05 This new edition of Latin American History Goes to the Movies uses a variety of feature films as a method of studying key historical themes in Latin America from pre Columbian cultures to contemporary debates The book provides historical context as a way of interpreting Latin American filmography offering multiple classroom viewing options per chapter theme Each chapter is dedicated to a central concept or issue such as stereotypes conquest and colonialism revolution religion gender and politics The second edition includes four additional chapters on dictatorships LGBTQIA issues the environment and Indigenous peoples Twenty new films including La Fiesta del Chivo Fresa y Chocolate Embrace of the Serpent and Roma appear throughout this edition presenting additional perspectives and updates for today s readers The discussions of films and the history behind them offer a flexible and nuanced approach to understanding Latin American cultures differentiating between stereotypical depictions and the realities of history Concise and accessible Latin American History Goes to the Movies is a unique resource for students and instructors in Latin American history and film studies to analyse developments in Latin America throughout previous centuries [Teaching Global History](#) Alan J. Singer,2012-04-27 Teaching Global History challenges prospective and beginning social studies teachers to formulate their own views about what is important to know in global history and why It explains how to organize the curriculum around broad social studies concepts and themes and student questions about humanity history and the contemporary world All chapters include lesson ideas a sample lesson plan with activity sheets primary source documents and helpful charts graphs photographs and maps High school students responses are woven in throughout Additional material corresponding to each chapter is posted online at http://people.hofstra.edu/alan_j_singer The traditional curriculum tends to highlight the Western heritage and to race through epochs and regions leaving little time for an in depth exploration of concepts and historical themes for the evaluation of primary and secondary sources and for students to draw their own historical conclusions Offering an alternative to such pre packaged textbook outlines and materials this text is a powerful resource for promoting thoughtful reflection and debate about what the global history curriculum should be and how to teach it [Pictures About Extremes](#) Stephen B. Armstrong,2017-02-10 This traditional auteurist survey closely examines the films of director John Frankenheimer assessing the thematic and stylistic elements of such films as The Iceman Cometh The Manchurian Candidate and Bird Man of Alcatraz It begins with a complete overview of Frankenheimer s life and career A

chronology lists production history details for each of his films and a comprehensive biography draws attention to Frankenheimer's early artistic development. Subsequent chapters categorize his films by genre and theme, examining each film through analytical critiques and plot synopses. Multiple appendices include an analysis of Frankenheimer's short films *Maniac at Large* and *Ambush*, a complete filmography, and a suggested reading list.
