

OBAMA CARE FACTS

dispelling the myths

To provide affordable, quality health care for all Americans and reduce the growth in health care spending

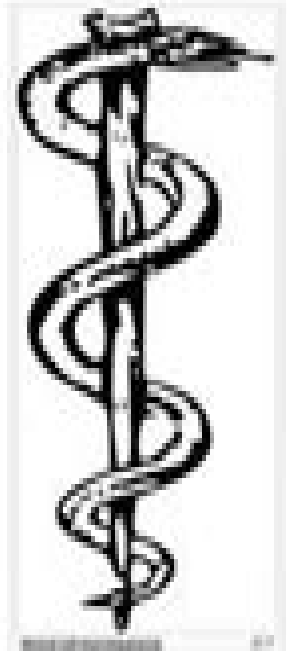

With all the debate about the mandated healthcare set upon us set aside I would like to point out something very interesting on this banner. The incorrect symbol for medicine is being used. The caduceus (winged rod with 2 serpents wrapped around it.) is being used instead of The Rod of Asclepius (non-winged rod with 1 serpent). What's the difference and who cares you ask?

Modern depiction of the caduceus as the symbol of commerce

The Caduceus (on the left) is the symbol of commerce and the dead, protector of merchants, liars, and thieves.

While the Rod of Asclepius (on the right) is associated with Healing, medicinal arts, renewal, rejuvenation, Life and health.

Soooo is this symbol being incorrectly used on accident or on purpose? Not just here is the symbol being misused but look around at "medical" facilities around you and wonder what their real business is. Lying, commerce and death or health, healing and Life?

The Cadceus Conspiracy:

The Conspiracy Rhetoric of Mankind Paul J. Linke, 2012-09-29 When we think we learned something new we are quite proud of it But it wears off quickly for an unknown reason So what is wrong with what we do When you start to think about the things you learn and what the reason or purpose actually is then you have to wonder sometimes is it really something new we just learned Because having in mind to learn something new can be quite exhausting at times Maybe we have to start to think about this in a different way and take a different approach in discovering new things It is like a treasure hunt imagine that we are all pirates looking for an adventure or treasures Obviously our life is about searching for something but most of the time we dont even know what we are looking for We do this quite instinctively maybe we are preprogrammed in a way and we are not aware of it But when you find out who we are then everything seems to make sense Our entire world Universe stands on myth and mythology including our history making us wonder if it is real Lets look at life in a different way Learn more about our history maybe we can learn from old things our ancestors already new and then set that aside and try to find your own way You most certainly will see things with different eyes This is what our life is all about it is a soul search where the experience we have along the way is the reward treasure In Australia the Aboriginal people are most likely a candidate for such an idea They go on a regular Walkabout which literately means looking for something They might find something which can be worth bringing home as an idea for which the whole community can benefit from This is what a walkabout is all about looking for something which is useful and has a value in the community After all we are constantly occupied by making a living or providing for our needs The westerners actually practice the same thing we call them the Backpackers People who go and see other parts of the world enjoy the diversity and beauty of nature as well as other cultures and traditions Yes we can learn something old have a lot of fun and it can be quite rewarding This book was taking shape based on an ironic thought How much knowledge there is and we know so little How come we know so little We know all the most complicated things there can be but we know very little of what life is about What is the cause for all things How does it all work What is the reason And last but not least How do we fit into everything Is it possible that we have taken valuable information from ancient Greek knowledge but ignored one of their most important practices the philosophy of all things Has everything to us become scientific or important because sciences can explain the real world Have we forgotten that this real world we live in comes from a mystical source something unseen Something we call a different dimension because we cant possibly explain it It is such an exotic source that it would take a lot of ancient knowledge to discover the truth Do you want to discover the truth This book might have some answers [Conspiracy in Death](#) J. D. Climate, Covid and Conspiracy Peter Taylor, 2025-04-21 In recent years growing national and international networks are challenging the two dominant emergency narratives that relate to the Covid pandemic and Climate Change It was the experience of Covid and the co ordinated global response that involved suppression of the virus s laboratory origins fast tracking of mRNA vaccines lockdowns and neglect of the most vulnerable all of which contradicted scientific evidence and proven effective responses that led to alarm over the consolidation of emergency powers within groups of unelected bureaucrats Whilst this kind of subterfuge has characterized the climate issue for decades the Covid led awakening brought many to question the origins and reality of the climate emergency Peter Taylor an independent advisor consultant and scientific expert on environmental issues has long been asked for updates on his ground breaking book Chill A Reassessment of Global Warming Theory 2009 Here he responds with a series of challenging and revealing essays His treatment is based on published and peer reviewed science as well as first hand research in the field visiting

research labs and asking direct questions His startling conclusions reveal that the science is far from settled Perhaps worse discussion is no longer possible the branding of critics as deniers has become commonplace But now the fight back has begun and this book provides scientific ammunition

Serpent Kings Orin Brightfield, AI, 2025-02-26 *Serpent Kings* explores the pervasive role of serpent figures across world history religion and diverse cultures It examines how these symbols embodying both wisdom and terror have been linked to power and knowledge since ancient times Serpents often represented fertility and the cyclical nature of life in early agricultural societies reflecting humanity's attempts to understand unpredictable natural forces The book uniquely analyzes recurring themes in serpent mythology revealing patterns in human thought The book progresses by first establishing a foundation with primary serpent myths The following sections then build upon this by analyzing the role of serpent monarchs in antiquity and the use of serpentine imagery as a representation of power Drawing from archaeological findings religious texts and anthropological studies *Serpent Kings* connects serpent symbolism to fundamental aspects of human psychology and societal development demonstrating how ancient perceptions inform contemporary attitudes toward power and the environment

The Universal Cyclopaedia, 1900 *Confessions of an Illuminati, VOLUME II* Leo Lyon Zagami, 2017-11-11 After his master thesis of the secret societies network as outlined in Volume I the *Confessions of an Illuminati* narrative of Leo Lyon Zagami is projected to the reality of today including the occult maneuvers behind the New World Order We need to wake up beyond our current belief systems because the controllers of the New World Order are moving fast using the Prophecies to their advantage to implement their evil plan by 2020 when World War III will finally break loose The author demonstrates that the hierarchy of power emanating from Rome and Jerusalem with the Jesuits and the Zionists united by a secret pact since the Second Vatican Council are in cahoots working towards the creation of a world government There is also China playing a new role in the NWO with the far reaching tentacles of Chinese Freemasonry manipulating economic Hit Men and disinformation artists while Russia is building their Christian orthodox alliance to apparently oppose the Western antichrist In this unprecedented scenario we also have the involvement of the big media moguls like Ted Turner and Silvio Berlusconi and their role in manipulating perceptions The author discusses further aspects of the Satanic infiltration of Freemasonry pointing out on the generational aspect the many ways of defending yourself psychically against black magicians but also against the many sects operating in the Illuminati Network
