meticulously documented this book describes how very early on a small group of ordinary citizens began extraordinary efforts to demonstrate that the JFK assassination could not have happened the way the government said it did In time their efforts had an enormous impact on public opinion but this account concentrates on the months before the controversy caught fire when people with skeptical viewpoints still saw themselves as lone voices Material seldom seen by the public includes a suppressed photograph of the grassy knoll an unpublished 1964 interview with an eyewitness the earliest mention of the magic bullet and an analysis of the commotion surrounding New Orleans district attorney Jim Garrison s charge that anti Castro CIA operatives were involved **Lunar Meteoroid Impacts and How to Observe Them** Brian Cudnik,2010-03-10

The genesis of modern searches for observable meteoritic phenomena on the Moon is the paper by Lincoln La Paz in Popular Astronomy magazine in 1938 In it he argued that the absence of observed fashes of meteoritic impacts on the Moon might be interpreted to mean that these bodies are destroyed as luminous meteors in an extremely rarefied lunar atmosphere The paper suggested the possibility of systematic searches for such possible lunar meteors With these concepts in mind I was surprised to note a transient moving bright speck on the Moon on July 10 1941 It appeared to behave very much as a lunar meteor would except that the poorly estimated duration would lead to a strongly hyperbolic heliocentric velocity Thus the idea of systematic searches for both possible lunar meteors and meteoritic impact fashes was born It was appreciated that much time might need to be expended to achieve any positive results Systematic searches were carried out by others and myself chiefly in the years 1945 1965 and became a regular program at the newly founded Association of Lunar and Planetary Observers or ALPO

Covering the Body Barbie Zelizer, 1992 Covering the Body the title refers to the charge given journalists to follow a president is a powerful reassessment of the media s role in shaping our collective memory of the assassination at the same time as it used the assassination coverage to legitimize its own role as official interpreter of American reality Of the more than fifty reporters covering Kennedy in Dallas no one actually saw the assassination And faced with a monumentally important story that was continuously breaking most journalists had no time to verify leads or substantiate reports Rather they took discrete moments of their stories and turned them into one coherent narrative blurring what was and was not professional about their coverage
