Campaign Trail Richard F. Fenno, 1998-02-01 This is a book about the politics of representative democracy written from the perspective of the politicians who make it work Typically political scientists study campaigns from the perspective of the voter and for the purpose of explaining election outcomes But campaigns also need to be studied from the perspective of the candidate for the purpose of understanding representation Richard F Fenno Jr traveled with ten U S senators as they campaigned in their home states using what he calls the drop in drop out tag along hang around method of research to present a developmental picture of their activities His focus here is on three such activities pursuing a career campaigning for office and building constituency connections Taken together the three constitute the political underpinnings of representative democracy Fenno describes the achievement the testing and the maintenance of representational relationships He examines challengers and incumbents winners and losers and motivations strategies and behaviors and he reports on differences similarities and patterns among them In studying the candidates varied careers campaigns and connections in stages and sequences and in depth and in allowing us to hear them reflect on these experiences Fenno has been able to offer rare insights into campaigns and elections insights very different from conventional ones that concentrate on the behavior of voters In its focus on the process of representative democracy Senators on the Campaign Trail offers a rich rounded developmental view of some high level individuals who work at the business of representation For scholars the book suggests some qualitative confirmation and added stimulation in forging generalizations about politicians For citizens

the book argues for replacing the conventional blanket condemnation of our politicians so prevalent today with more discriminating judgments about what they do and why and to what purpose they do it **The History of the Campaign.**

Chesney,1868 *2020 the Campaign Chronicles* JD Foster,2021-02-17 The 2020 campaign began with the 2016 election of Donald J Trump and effectively rendered a verdict on his presidency The Democratic Party sifted through a small army of worthies to defeat Trump and in former Vice President Joe Biden they found their champion Biden claimed the nomination following a phoenix like rise propelled by a miraculous South Carolina primary victory Backed by the party establishment and the mainstream media Biden s weak campaign proved sufficient by a handful of votes in a handful of states and leaving Biden with little mandate other than to avoid being like Trump The story of the 2020 election is in part a story of America and the Trump presidency a stormy marriage of highs and lows shaped by contrived investigations into Russian government interference a failed impeachment a welcomed intolerance for sexual harassment the exposure of deep racial divisions highlighted by widespread and often violent rioting accompanied by a re examination of the role of the police a strong economy until crushed by the coronavirus pandemic and then the pandemic tragedy itself The Trump presidency s four years

astounded for better or for worse depending on point of view This book chronicles the 2020 election and thus the events that shaped the election over the course of four years written contemporaneously to capture the flavor of the moment praising and criticizing Trump and his many antagonists in equal measure Those enamored of the former president will find succor and outrage as will those who delighted in his defeat Those seeking to understand what happened will find the reading interesting infuriating and perhaps in places illuminating

Political Campaigns in the United States Richard K. Scher,2016-02-19 A Choice Highly Recommended Title January 2017 This book is an interpretive analysis of political campaigns in America instead of focusing on how campaigns are designed and run it investigates the role campaigns play in our American politics and the close symbiosis between campaigns and those politics The text examines how campaigns are an important manifestation of how we do politics in this country Hallmarks of this text include showing how campaigns can undermine our democracy and asking how democratic they and by extension our politics really are demonstrating that the ability of the media to accurately fairly and deeply report on campaigns has been severely compromised both because of the growing distance between campaigns and media outlets and because of the structure of Big Media corporate ownership and its tight relationship to Big Money It asks important questions about the media including How do the media reporters in particular cover campaigns What pressures and forces shape what and how they present campaigns What is the impact of the ever increasing chasm separating campaigns and the media How does the close tie between corporate mainstream media and Super PAC money affect campaign coverage How does the ability of campaigns and media to segment voters into ever smaller slices influence how campaigns are covered tracking the continuing growth of unregulated private unaccountable dark money in campaigns as a threat to our democratic elections and politics Democracy rests fundamentally on transparency and accountability sunlight and our campaign laws and norms now allow and encourage

exactly the opposite largely because of decisions by the United States Supreme Court
