Andrew Bowie

The Captive Remembrance Of Things Past 9:

Remembrance of Things Past: The Guermentes way Marcel Proust, 1929 **Mendelssohn, Time and Memory** Benedict Taylor, 2011-10-27 Felix Mendelssohn has long been viewed as one of the most historically minded composers in western music This book explores the conceptions of time memory and history found in his instrumental compositions presenting an intriguing new perspective on his ever popular music Focusing on Mendelssohn s innovative development of cyclic form Taylor investigates how the composer was influenced by the aesthetic and philosophical movements of the period This is of key importance not only for reconsideration of Mendelssohn s work and its position in nineteenth century culture but also more generally concerning the relationship between music time and subjectivity One of very few detailed accounts of Mendelssohn s music the study presents a new and provocative reading of the meaning of the composer s work by connecting it to wider cultural and philosophical ideas **Remembrance of Things Past: The sweet cheat gone** Marcel Proust, 1929 *The Memory of the Offence* Judith Woolf, 2001 In this study of Primo Levi s *If This is a Man* Se questo un uomo the author tries to give some sense of the historical and cultural context not just of Levi s book but also of the events which gave rise to it since it is to those events that Levi is directing us For the same reason suggestions for further reading mainly concentrate on history While looking at some of the many literary influences on Levi s book particularly that of Dante s *Inferno* this book also places it in the literature of survivor accounts The author has drawn widely on Levi s other writings both because *If This is a Man* has to be seen as the beginning of a lifetime s endeavour and because in the absence of a definitive body of criticism Levi remains the best explicator of his own work This book is intended both for the student of Italian and for the general reader All quotations from *If This is a Man* and all verse quotations are given both in Italian and in English while all other quotations from Italian texts are given in English **Musical Time** Barbara R. Barry, 1990 In order for musical structure to be understood and appreciated as coherent design the raw material must be shaped and clarified by the listener s perceptual processes of selection and organization Going beyond the boundaries of traditional analytic observation Barbara Barry explores the concept of experiential time in a specifically musical and philosophic context delving into the aspects of perceptual process the interrelationship between subjective and objective perception of musical compositions and performance A wealth of published experimental findings and writings on music theory and the philosophy of time are cited accompanied by numerous musical examples here brought together in a supporting interpretation and theoretical exemplification **The Ideal Reader** Jacques Riviere, 2017-07-05 Jacques Riviere knew how to accept art emotionally No French critic was ever less a traditional pedagogue Riviere was an intelligent French writer who knew that the summit of the intellect is to admit affective knowledge instinct and intuition The heart or taste is always superior to raw intelligence Riviere s supple metaphors are not easily rendered into English The density of his thought the complexity of his views the moral and spiritual fervor that vibrates in these pages further enhances the difficulties the skilled translator must

overcome Literary criticism is often ephemeral it has served its purpose if it stimulates discussion about the work of art under scrutiny Not so with essays like these They demand an active reading as do the original works themselves They do not easily yield their significance Among the critics who came into the French literary scene in the years immediately preceding and following the First World War Jacques Riviere has been least affected by the attrition of time His studies of Proust and Rimbaud still rank among the two or three essential works to be read on these authors Few other critics have gone further in a sensuous perception of these authors work and the intellectual lucidity in analyzing it Riviere had few pretensions to profundity and a great purity of style In an age of slogans and judgments this volume reminds the reader of the extraordinary role of European critical thought in the twentieth century Love's Confusions C. D. C. Reeve, 2009-07-01 Ranging from Plato to writers as diverse as Shakespeare Proust Forster Beckett Huxley and Lawrence Reeve brings the vast resources of Western literature and philosophy to bear on the question of love He invites us to think more broadly about love and to find the confusions that inevitably result to be creative rather than disturbing The Business of Ballet Ira Nadel, 2024-01-04 The Business of Ballet Diaghilev's Ballets Russes between Profit and the Avant garde explores how a remarkable internationally recognized ballet company the Ballets Russes was able to survive for twenty years without stable funding Focusing on Ballets Russes's founder Serge Diaghilev and his talent for discovering monies through an uncanny ability to secure funds from aristocrats industrialists artists and swindlers Ira Nadel offers new insight into the financial life of modern ballet Throughout his analysis Nadel reveals that Diaghilev was able to attract not only financial support but also the most innovative artistic and musical talents and choreographers of the period who collectively changed the nature of ballet from the conventional to the contemporary Through it all Diaghilev never sacrificed the essential Russianness of his enterprise transforming Russian traditions by incorporating new and original musical and choreographic stagings In doing so Nadel argues Diaghilev's Ballet Russes revised the idea of ballet as an art form causing audiences throughout Europe and North America to riot and artists to create revolutionary compositions in art and music Aesthetics and Subjectivity Andrew Bowie, 1990 Contemporary philosophy and literary theory are based upon German philosophy from Kant onwards Drawing on recent German theory the author reconsiders the path of German philosophy from Kant to Nietzsche in relation to consciousness aesthetics and language He provides interpretations of Kant Fichte the early Romantics Schelling Hegel Schleiermacher and Nietzsche telling a different story of modernity to the one current in many areas of the humanities The book traces the beginnings of modern debates on aesthetics and politics as well as the origins of modern hermeneutics paying attention to the significance of music in modern philosophy Gene Wolfe's The Book of the New Sun Michael Andre-Driussi, 2019-11-11 A guide to Gene Wolfe's series The Book of the New Sun and the sequel The Urth of the New Sun as well as four shorter New Sun works Designed for use by first time readers as well as those returning to the text

Men and Mothers Hendrika C. Freud, 2018-03-08 Not all men vie with their fathers for the love of their mothers In some families the mother becomes the central figure for her son the father is excluded or excludes himself and does not come between mother and son The main thesis of this book using clinical vignettes and quotes from the work of Marcel Proust to illustrate the author's points is that in these cases fantasies of matricide replace patricide Men develop their male gender identity by being permitted to separate from their mother early on but when a man does not resolve his infantile tie to his mother he risks remaining in a passive and or dependent position towards her Over identification with the mother might ensue hampering masculine development Mothers who seek emotional support by binding their sons too closely can become seductive towards them The child is inclined to try to satisfy the emotional needs of his mother and he fears rejection if he asserts his independence instead of complying

MUSIC AND THE MIND Anthony Storr, 2015-05-19 Why does music have such a powerful effect on our minds and bodies It is the most mysterious and most tangible of all forms of art Yet Anthony Storr believes music today is a deeply significant experience for a greater number of people than ever before In this book he explores why this should be so Drawing on a wide variety of opinions Storr argues that the patterns of music make sense of our inner experience giving both structure and coherence to our feelings and emotions It is because music possesses this capacity to restore our sense of personal wholeness in a culture which requires us to separate rational thought from feelings that many people find it so life enhancing that it justifies existence
