from questions of belonging and identity there is a danger that it can be nudged into the domain of the unethical since ethical virtues can become properties to be possessed with which the recognition of others is solicited Ethics thus fosters the very egoism it hopes to transcend and risks excluding the unfamiliar and the stranger The author argues inspirationally that the unethical underbelly of ethics must be recognized in order to ensure that it remains vibrant *Frontiers of South Asian Culture* Parichay Patra,Amitendu Bhattacharya,2023-09-22 This book is the first of its kind to significantly concentrate on trans nation transnationalism and its dialogue with various nationalisms in South Asia Taking the absence of discussion on transnationalism in South Asia as a conspicuous lacuna as well as a point of intervention this book pushes the boundaries of scholarship further by organizing a dialogue between the nation state and many nationalisms and the emergent method of transnationalism It opens itself up for many cross border movements formulating the trans South Asian discursive exchange necessitated by contemporary theoretical upheavals It looks at such exchanges through the prisms of literature and cinema and traces the many modes of engagement that exist between some of the globally dominant literary and cinematic forms trying to locate these engagements and negotiations across three geopolitical formations and locations of culture namely region nation and trans nation Building True Community Eve Berry,2022-05-30 Building True Community explores how to build a sense of community as an antidote to divisiveness and distrust Based on more than thirty years of working with the community building model developed by M Scott Peck M D bestselling author of The Road Less Traveled and co founder of the Foundation for Community Encouragement this book provides a detailed description of the community building experience how to facilitate the experience and how to integrate its principles and practices into daily life Learn how to deepen and restore relationships resolve conflicts and experience the freedom to be your authentic best self dissolve fixed mental perceptions that reinforce the optical delusion of our separateness confront what keeps divisions in place that separate people and lead to conflict Other topics include the underlying principles and conditions that make a sense of community possible how to create conditions for communities to take root and flourish how the stages of community play out in daily life and how to integrate community building practices into daily life The book also looks back at the origins of community and considers the community building experience as a fusion of spiritual practice with a scientific foundation
