Class Eric S. Brown, 2013-11-07 Through an in depth case study of the black professional middle class in Oakland this book provides an analysis of the experiences of black professionals in the workplace community and local politics Brown shows how overlapping dynamics of class formation and racial formation have produced historically powerful processes of what he terms racialized class formation resulting in a distinct and internally differentiated entity not merely a subset of a larger professional middle class Handbook of Parenting Marc H. Johnson, 2013-02-01 First published in 2000 This study explores the lives educational philosophies and social activism of Anna Julia Cooper and Nannie Helen Burroughs They were among the most outstanding late 19th and early 20th century Black women educators The study identifies and analyzes themes that illuminate Cooper and Burroughs unique angle of vision of self community and society as it relates to their distinctive educational philosophies and contributions to American education

Black Greek-letter Organizations in the Twenty-First Century Gregory S. Parks, 2008-06-13 During the twentieth century black Greek Letter organizations BGLOs united college students dedicated to excellence fostered kinship and uplifted African Americans Members of these organizations include remarkable and influential individuals such as Martin Luther King Jr Congresswoman Barbara Jordan novelist Toni Morrison and Wall Street pioneer Reginald F Lewis Despite the profound influence of these groups many now question the continuing relevance of BGLOs arguing that their golden age has passed Partly because of their perceived link to hip hop culture black fraternities and sororities have been unfairly reduced to a media stereotype a world of hazing without any real substance The general public knows very little about BGLOs and surprisingly the members themselves often do not have a thorough understanding of their history and culture or of the issues

currently facing their organizations To foster a greater engagement with the history and contributions of BGLOs Black Greek Letter Organizations in the Twenty first Century Our Fight Has Just Begun brings together an impressive group of authors to explore the contributions and continuing possibilities of BGLOs and their members Editor Gregory S Parks and the contributing authors provide historical context for the development of BGLOs exploring their service activities as well as their relationships with other prominent African American institutions The book examines BGLOs responses to a number of contemporary issues including non black membership homosexuality within BGLOs and the perception of BGLOs as educated gangs As illustrated by the organized response of BGLO members to the racial injustice they observed in Jena Louisiana these organizations still have a vital mission Both internally and externally BGLOs struggle to forge a relevant identity for the new century Internally these groups wrestle with many issues including hazing homophobia petty intergroup competition and the difficulty of bridging the divide between college and alumni members Externally BGLOs face the challenge of rededicating themselves to their communities and leading an aggressive campaign against modern forms of racism sexism and other types of fear driven behavior By embracing the history of these organizations and exploring their continuing viability and relevance Black Greek Letter Organizations in the Twenty first Century demonstrates that BGLOs can create a positive and enduring future and that their most important work lies ahead **Telling Histories (Volume 1 of 2)**

championed civil liberties and fought for civil rights in the two decades after World War II John Coe of Pensacola Florida Clifford Durr of Montgomery Alabama and Benjamin Smith of New Orleans became southern dissenters resisting both the excessive zeal of the anti Communist right and southern segregation laws Coe Durr and Smith all appeared with their clients in the much publicized 1954 investigation of the Southern Conference Educational Fund and defended persons subpoenaed by the House Un American Activities Committee HUAC Coe represented the ardent integrationist who was the last man indicted for contempt by the HUAC and Smith's offices were raided in 1963 as a result of his civil rights work in Mississippi Despite personal and political differences these men remained committed civil libertarians in this era of repression While formally rejecting Communism defending freedom of expression and association in almost every instance these advocates in practice disavowed individualism in favor of the common good and feared the oppression of unbridled government Consequently they faced professional scorn personal ostracism and official harassment Sarah Hart Brown's astute analysis reveals the wide range of southern political ideas and defines the positions of southern liberals and radicals in the broader stream of American liberalism during the postwar period

Telling Histories (Volume 1 of 3) (EasyRead Super Large 24pt Edition) , Restoring the Balance Ellen S. More, 2001-03-16 From about 1850 American women physicians won gradual acceptance from male colleagues and the general public primarily as caregivers to women and children By 1920 they represented approximately five percent of the profession But within a decade their niche in American medicine women's medical schools and medical societies dispensaries for women and children women's hospitals and settlement house clinics had declined The steady increase of women entering medical schools also halted a trend not reversed until the 1960s Yet as women's traditional niche in the profession disappeared a vanguard of women doctors slowly opened new paths to professional advancement and public health advocacy Drawing on rich archival sources and her own extensive interviews with women physicians Ellen More shows how the Victorian ideal of balance influenced the practice of healing for women doctors in America over the past 150 years She argues that the history of women practitioners throughout the twentieth century fulfills the expectations constructed within the Victorian culture of professionalism Restoring the Balance demonstrates that women doctors collectively and individually sought to balance the distinctive interests and culture of women against the claims of disinterestedness scientific objectivity and specialization of modern medical professionalism That goal More writes reaffirmed by each generation lies at the heart of her central question what does it mean to be a woman physician

Telling Histories Deborah Gray White, 2008 The field of black women's history gained recognition as a legitimate field of study late in the twentieth century Collecting stories that are both deeply personal and powerfully political *Telling Histories* compiles seventeen personal narratives by leading black women historians at various stages in their careers illuminating how they entered and navigated higher education a world concerned with and dominated by whites and men In distinct voices and from different vantage points the personal histories revealed here also tell the story of the struggle to

establish the fields of African American and African American women's history **Beauty Shop Politics** Tiffany M. Gill, 2010-03-03 Looking through the lens of black business history *Beauty Shop Politics* shows how black beauticians in the Jim Crow era parlayed their economic independence and access to a public community space into platforms for activism Tiffany M Gill argues that the beauty industry played a crucial role in the creation of the modern black female identity and that the seemingly frivolous space of a beauty salon actually has stimulated social political and economic change With a broad scope that encompasses the role of gossip in salons ethnic beauty products and the social meanings of African American hair textures Gill shows how African American beauty entrepreneurs built and sustained a vibrant culture of activism in beauty salons and schools **Documentary Testimonies** Bhaskar Sarkar, Janet Walker, 2009-12-04 This volume examines documentary films that compel us to bear witness move us to anger or tears and possibly mobilize us to action The essays gathered here analyze questions regarding the usefulness and legitimacy of documentary testimony What is the value of the historical archive the televised public hearings or activist online videos constitute Is it made part of the official record or dismissed as renegade or ephemeral To what extent can documentary bring about social change How do the documentary testimonies compensate for or account for the frailty of memory **Idlewild** Ronald J. Black Chicago's First Century Christopher Robert Reed, 2005-07-25

In *Black Chicago's First Century* Christopher Robert Reed provides the first comprehensive study of an African American population in a nineteenth century northern city beyond the eastern seaboard. Reed's study covers the first one hundred years of African American settlement and achievements in the Windy City encompassing a range of activities and events that span the antebellum, Civil War, Reconstruction, and post Reconstruction periods. The author takes us from a time when black Chicago provided both workers and soldiers for the Union cause to the ensuing decades that saw the rise and development of a stratified class structure and growth in employment, politics, and culture. Just as the city was transformed in its first century of existence so were its black inhabitants. Methodologically relying on the federal pension records of Civil War soldiers at the National Archives as well as previously neglected photographic evidence, manuscripts, contemporary newspapers, and secondary sources, Reed captures the lives of Chicago's vast army of ordinary black men and women. He places black Chicagoans within the context of northern urban history, providing a better understanding of the similarities and differences among them. We learn of the conditions African Americans faced before and after Emancipation. We learn how the black community changed and developed over time; we learn how these people endured, how they educated their children, how they worked, organized, and played. *Black Chicago's First Century* is a balanced and coherent work. Anyone with an interest in urban history or African American studies will find much value in this book.
