mildly addictive But don't worry if the thought of standing before even a small group makes your knees start shaking there are techniques you can master to help you become comfortable and skilled But don't worry because this is one addiction that is healthy After all as a public speaker you'll be helping people through sharing the information that you as an expert have accumulated Because of this many people feel called to the profession of public speaker To these speakers sharing their special knowledge is as important if not more important than the healthy salaries they command for their speaking skills So if you've decided that developing a lucrative public speaking profession is for you let's get started in learning more about it First we'll look at some of the pros and cons of a public speaking career Anthony Ekanem is a Management scholar researcher writer and author He is also a Chartered Insurer with many years of experience **Better Your**
