**Misplaced Objects** Silvia Spitta,2009-07-01 When things move things change Starting from this deceptively simple premise Silvia Spitta opens a fascinating window onto the profound displacements and transformations that have occurred over the six centuries since material objects and human subjects began circulating between Europe and the Americas This extended reflection on the dynamics of misplacement starts with the European practice of collecting objects from the Americas into Wunderkammern literally cabinets of wonders Stripped of all identifying contexts these exuberant collections including the famous Real Gabinete de Historia Natural de Madrid upset European certainties forcing a reorganization of knowledge that gave rise to scientific inquiry and to the epistemological shift we call modernity In contrast cults such as that of the Virgin of Guadalupe arose out of the reverse migration from Europe to the Americas The ultimate marker of mestizo identity in Mexico the Virgin of Guadalupe is now fast crossing the U S Mexico border and miracles are increasingly being reported **Misplaced Objects** then concludes with the more intimate and familial collections and recollections of Cuban and Mexican American artists and writers that are contributing to the Latinization of the United States Beautifully illustrated and radically interdisciplinary **Misplaced Objects** clearly demonstrates that it is not the awed viewer but rather the misplaced object itself that unsettles our certainties allowing new meanings to emerge

**Modern German Midwifery, 1885-1960** Lynne Fallwell,2015-10-06 Between the late 18th and the early 20th century the industrialized world experienced a transition in birth practices While in many countries this led to a separation of midwifery from modern medicine in Germany new standards of health care were embraced Fallwell s study explores this transition and sets it in its wider historical context

**The First Treatise on Museums** Samuel Quiccheberg,2014-04-01 Samuel Quiccheberg s *Inscriptiones* first published in Latin in 1565 is an ambitious effort to demonstrate the pragmatic value of curiosity cabinets or Wunderkammern to princely collectors in sixteenth century Europe and by so doing inspire them to develop their own such collections Quiccheberg shows how the assembly and display of physical objects offered nobles a powerful means to expand visual knowledge allowing them to incorporate empirical and artisanal expertise into the realm of the written word But in mapping out the collectability of the material world Quiccheberg did far more than create a taxonomy Rather he demonstrated how organizing objects made their knowledge more accessible how objects when juxtaposed or grouped could tell a story and how such strategies could enhance the value of any single object Quiccheberg s descriptions of early modern collections provide both a point of origin for today s museums and an implicit critique of their aims asserting the fundamental research and scholarly value of collections collections are to be used not merely viewed The

First Treatise on Museums makes Quiccheberg's now rare publication available in an English translation Complementing the translation are a critical introduction by Mark A Meadow and a preface by Bruce Robertson *The Artist's Daughter: Poems* Kimiko Hahn, 2004-05-17 Kimiko Hahn stands as a welcome voice of experimentation and passion Bloomsbury Review Kimiko Hahn's poetry explores the interplay and tensions among her various identities mother lover wife poet and daughter of both the Midwest and Asia However astonishing her subjects from sideshow freaks to sadomasochistic fantasy they ultimately emerge in this startling collection as moving images of the deepest levels of our shared humanity **Bending Genre** Margot Singer, Nicole Walker, 2013-03-14 Ever since the term creative nonfiction first came into widespread use memoirists and journalists essayists and fiction writers have faced off over where the border between fact and fiction lies This debate over ethics however has sidelined important questions of literary form Bending Genre does not ask where the boundaries between genres should be drawn but what happens when you push the line Written for writers and students of creative writing this collection brings together perspectives from today's leading writers of creative nonfiction including Michael Martone Brenda Miller Ander Monson and David Shields Each writer's innovative essay probes our notions of genre and investigates how creative nonfiction is shaped modeling the forms of writing being discussed Like creative nonfiction itself Bending Genre is an exciting hybrid that breaks new ground **Tokens of Exchange** Lydia H.
