Organizing Library Collections Gretchen L. Hoffman, 2019-08-05

Libraries organize their collections to help library users find what they need Organizing library collections may seem like a straightforward and streamlined process but it can be quite complex and there is a large body of theory and practice that shape and support this work Learning about the organization of library collections can be challenging Libraries have a long history of organizing their collections there are many principles models standards and tools used to organize collections and theory and practice are changing constantly Written for beginning library science students *Organizing Library Collections Theory and Practice* introduces the theory and practice of organizing library collections in a clear straightforward and understandable way It explains why and how libraries organize their collections and how theory and practice work together to help library users It introduces basic cataloging and metadata theory describes and evaluates the major cataloging and metadata standards and tools used to organize library collections and explains in general how all libraries organize their collections in practice Yet this book not only introduces theory and practice in general it introduces students to a wide range of topics involved in organizing library collections This book explores how academic public school and special libraries typically organize their collections and why It also discusses standardization and explains how cataloging and metadata standards and policies are developed Ethical issues also are explored and ethical decision making is addressed In addition several discussion questions and class activities reinforce concepts introduced in each chapter Students should walk away from this book understanding why and how libraries organize their collections

Education for Cataloging and the Organization of Information Janet Swan Hill, 2014-04-23 What does the future hold for cataloging education Written by some of the best known authors and most innovative thinkers in the field including Michael Gorman Sheila S Intner and Jerry D Saye this comprehensive collection examines education for students and working librarians in cataloging and bibliographic control emphasizing history context the state of the art at present and suggested future directions A liberal dose of visual

aids charts tables etc makes accessing the information quick and easy From the editor The education of catalogers has swung pendulum like from on the job training to graduate education and back again The place of cataloging in the library school curriculum has swung from one of near pre eminence to one of near extinction and has begun to swing back again The durability of education for cataloging has swung from In getting your degree you will learn everything you need to know in your career to You will have to engage in continuing education throughout your career beginning virtually as soon as you have your degree Making informed decisions about how and how much cataloging education is to be provided is full of pitfalls some of which the profession has fallen into already What is needed now is a reconsideration of how education for cataloging and bibliographic control is provided Education for Cataloging and the Organization of Information Pitfalls and the Pendulum addresses four main areas the ways professionals perceive the place nature and necessity of cataloging education the professional demographic and academic context within which cataloging education is provided education regarding special types of materials and special aspects of cataloging and alternatives to traditional modes of education for cataloging including distance education online mentoring Web based instruction continuing education training for and via cooperative projects the role of the community of catalogers in the continuing education of those who provide intellectual access to the world of information and much more *The Twenty-First Century Art Librarian* Terrie Wilson, 2018-10-24 Meet the challenge of operating a successful art library The Twenty First Century Art Librarian examines the unique challenges and vital administrative issues that are at the forefront of current art librarianship Librarians working in a variety of settings art academics architecture visual resources and museums address professional change and technological challenges including inadequate staffing and the need to wear multiple hats to cope with day to day responsibilities The book focuses on common practices in the field as well as the individuals who work in art libraries and the collections they maintain Instead of the standard primer on art librarianship this book is an insightful look at how art librarians are unique in terms of the clientele they serve their subject knowledge and the variety of environments in which they work The Twenty First Century Art Librarian examines pressing everyday issues including operational management staff recruitment and training managing collections public service and patrons and developing a personal care plan The Twenty First Century Art Librarian also addresses setting specific topics such as developing staffing standards at all levels working solo in small art museum libraries integrating digitization into visual resource libraries handling special collections in architecture libraries how culture and mission distinguish academic art libraries from their museum counterparts and much more The Twenty First Century Art Librarian provides library professionals and academics with a unique look at current trends in art architecture and visual resources librarianship Cataloging and Classification for Library Technicians, Second Edition Ruth C Carter, Mary L Kao, 2020-07-24 Structure your workload with this comprehensive guide to the role and responsibilities of library technicians More than basic instructions on how to do library classification this classic work is a how to handbook covering all aspects of
