The Spectre of Defeat in Post-War British and US Literature David Owen, Cristina Pividori, 2021-01-22 It is a commonplace belief that history is written by the victorious However less recognised but equally common is the idea that the defeated also write history even if their particular account is rather different This collection looks at these matters from a novel and distinct perspective It essentially presents the idea that victors often perceive themselves as defeated by examining the ways in which the idea of defeat comes to dominate the victors own sense of superiority and achievement thereby undermining the certainties that victory is conventionally thought to create The contributions here discuss fiction mostly UK and US published since the First World War Through the frameworks of experience memory and post memory they examine this subliminal defeat basically as seen in conflict itself in the societies that it affects and in the individual lives of those who it destroys The result is an innovative literary account of the victorious yet somehow defeated *The Dublin University Magazine* , 1844 *Dublin University Magazine* , 1844 *University Magazine* , 1844 *Eric Hartmann: Ace of Aces - The True Story of Germany's Deadliest Fighter Pilot* John Levesley, 2025-06-02 Eric Hartmann the most successful fighter pilot in history achieved an incredible 352 confirmed aerial victories during World War II Known as the Blond Knight of Germany Hartmann became a legend in the Luftwaffe earning the title Ace of Aces for his unmatched skill and fearlessness in the skies This book tells the true story of Hartmann's life from his early days as a young pilot on the Eastern Front to the intense dogfights against Soviet aircraft and the psychological toll of his record breaking combat career It also explores the challenges he faced after the war including his time as a Soviet prisoner and his role in postwar German aviation Packed with detailed accounts of Hartmann's most daring missions and the human cost of his extraordinary success this book is a fascinating portrait of a man who became both a symbol of Germany's wartime air power and a controversial figure in history
