Spectrum Of The Sacred:

The Spectrum of the Sacred Baidyanath Saraswati,1984 **The Spectrum of the Sacred** ,1984 **The True Vine, Or, The Analogies of Our Lord's Allegory** Hugh Macmillan,1871 Sophos Ontology Lee Irwin,2024-01-04 Sophos Ontology On Post Traditional Spirituality discusses religious plurality and post traditional perspectives on emergent forms of sacred sensibility particularly for those identifying as spiritual but not religious This book is divided into three parts The first part is a retrospective account of multiple religious traditions with emphasis on esoteric thought as influenced by mystical writings covering western eastern and Native American traditions The second part discusses the need for a new conceptualization of the sacred as expressed through multiple spiritual perspectives relevant to a pansentient post traditional process ontology Other topics in this section include the importance of an ethically shaped spirituality collective influences dreams imagination and the role of pluralism in shaping beliefs Part three explores the role of faith redefined as spiritual commitment mysticism as direct experiential knowledge and transpersonal theory influenced by comparative studies in altered states of consciousness paranormal research and the metaphysics of discovery all contributing to the development of present and future spirituality *The True Vine* Hugh Macmillan,1871 Beyond Idols Richard K. Fenn,2001-06-21 This book attempts to articulate the nature of a secular society describe its benefits and suggests the conditions under which such a society could emerge To become secular argues Fenn is to open oneself and one s society to a wide range of possibilities some interesting and exciting some burdensome and dreadful While some sociologists have argued that a Civil Religion is necessary to hold together our newly religionless society Fenn urges that there is nothing to fear and everything to gain from living in a society that is not bound together by sacred memories and beliefs or by sacred institutions and practices

Theology and the Blues Justin McLendon,2024-11-25 While all music genres incorporate religious imagery the blues has its origin in the soil of the church In its infancy the blues was often dismissed as undermining the church s gospel songbook The initial resistance however could not suppress the organic development of a genre of music born from suffering The great Mississippi Delta bluesman Muddy Waters once said The blues was born behind a mule Behind a beast of burden the working man found in the blues a way to console the everyday experiences of struggle sin loss despair love grief sin death and the fear and hope of crossing the River Jordan into eternal life The church s gospel songbook explores doctrinal foundations set to music but the blues dares to uncover insight into the lived experiences of spiritual journeys *Theology and the Blues* showcases theological themes inherent within the organic and expressive genre of the blues Tropical Ecology ,2006

Dynamics of Desacralization Paola Partenza,2015-01-28 The idea of desacralization has become almost commonplace attributing to the word the rejection of what is sacred One might think that it is strictly connected to theology and its system or suppose that it implies the relationship human beings have with anything that can express a denial of the spiritual part of life The concept of desacralization has numerous meanings either from a philosophical or a literary viewpoint The scholars

investigation of Dynamics of Desacralization has made this collection of essays rich and varied revealing new worlds the different authors have created What they do is to narrate various types of desacralization interrogating the nature of novels poems or works of art certain aspects of being are revealed through various expressions engaging the multiple levels and the meaning of desacralization providing an articulation and interpretation of it Media Perceptions of Religious Changes in Australia Enqi Weng,2019-12-05 This volume explores the contradiction between the news coverage given to issues of religion particularly since 2001 in relation to issues such as terrorism politics security and gender and the fact of its apparent decline according to Census data Based on media research in Australia and offering comparisons with the UK the author demonstrates that media discussions overlook the diversity that exists within religions particularly the country's main religion Christianity and presents religion according to specific interpretations shaped by race class and gender which in turn result in very limited understandings of religion itself Drawing on understandings of the sacred as a non negotiable value present in religious and secular form Media Perceptions of Religious Changes in Australia calls for a broader sociological perspective on religion and will appeal to scholars of sociology and media studies with interests in religion and public life **I Am a Strange Loop** Douglas R. Hofstadter,2007-03-27 Argues that the key to understanding ourselves and consciousness is the strange loop a special kind of abstract feedback loop that inhabits the brain **Spectrum** ,2006

The Silent Church Zdravko Plantak,2016-07-27 The relationship between the Adventist church and society at large has always been ambiguous One reason for this has been the church's inarticulate social ethics While the church upheld the concept of human dignity promoted religious liberty and sided with the poor nationalism and racism developed among its members Women in the church were also unfairly treated Zdravko Plantak confronts this problem head on He begins by looking at the church's history theology and ethics in order to discover reasons for the inconsistencies in its approach to human rights and then moves on to propose a more comprehensive approach to its social ethics **Master of the Moon:**
