Ticket Scalping Kerry Seagrave, 2006-11-15 Ticket scalping is as much an American staple as apple pie Beginning as early as the mid 1800s scalpers known as sidewalk men were charging all the traffic would bear for event tickets Although these speculators were generally viewed as pariahs and public opinion was against the practice legal attempts to limit their activities were far from successful Boston enacted laws as early as 1873 while Pennsylvania followed suit in 1884 Still such measures did little good since some laws were declared unconstitutional and for the ones that were upheld the fines were negligible with jail time rarely served Over the years as moral objections to scalping dimmed the public became more tolerant as the practice became increasingly prevalent By the 1990s the capitalist mantras of free market and economic principles of supply and demand were even being used to justify the practice This volume details the ways in which scalping has changed over the years from a one man business to an agency controlled enterprise from performances by Jenny Lind to Billy Joel The book examines the general situation public opinion and legal perception of scalping for four distinct periods 1850 1899 1900 1917 1918 1949 and 1950 2005 Emphasis is placed on the ways in which public and legal perception of the practice has evolved over this period Scalping slowly gaining a more positive status has become more accepted as part of the economic practice of free markets

Annual Meeting of the Oregon State Horticultural Society** Oregon State Horticultural Society,1909 **Speculators in Empire** William J Campbell,2015-04-29 At the 1768 Treaty of Fort Stanwix the British secured the largest land cession in colonial North America Crown representatives gained possession of an area claimed but not occupied by the Iroquois that encompassed parts of New York Pennsylvania Ohio Kentucky and West Virginia The Iroquois however were far from na ve and the outcome was not an instance of their simply being dispossessed by Europeans In *Speculators in Empire* William J Campbell examines the diplomacy land speculation and empire building that led up to the treaty His detailed study overturns common

assumptions about the roles of the Iroquois and British on the eve of the American Revolution Through the treaty the Iroquois directed the expansion of empire in order to serve their own needs while Crown negotiators obtained more territory than they were authorized to accept How did this questionable transfer happen who benefited and at what cost Campbell unravels complex intercultural negotiations in which colonial officials land speculators traders tribes and individual Indians pursued a variety of agendas each side possessing considerable understanding of the other's expectations and intentions Historians have credited British Indian superintendent Sir William Johnson with pulling off the land grab but Campbell shows that Johnson was only one of many players Johnson's deputy George Croghan used the treaty to capitalize on a lifetime of scheming and speculation Iroquois leaders and their peoples also benefited substantially With keen awareness of the workings of the English legal system they gained protection for their homelands by opening the Ohio country to settlement Campbell's navigation of the complexities of Native and British politics and land speculation illuminates a time when regional concerns and personal politicking would have lasting consequences for the continent As *Speculators in Empire* shows colonial and Native history are unavoidably entwined and even interdependent *The turf register, and sportsman & breeder's stud-book*, by W. Pick [and R. Johnson]. William Pick, 1805 *Daily Report*, 1995 *Properties of Empire* Ian Saxine, 2019-04-23 A fascinating history of a contested frontier where struggles over landownership brought Native Americans and English colonists together *Properties of Empire* shows the dynamic relationship between Native and English systems of property on the turbulent edge of Britain's empire and how so many colonists came to believe their prosperity depended on acknowledging Indigenous land rights As absentee land speculators and hardscrabble colonists squabbled over conflicting visions for the frontier Wabanaki Indians' unity allowed them to forcefully project their own interpretations of often poorly remembered old land deeds and treaties The result was the creation of a system of property in Maine that defied English law and preserved Native power and territory Eventually ordinary colonists dissident speculators and grasping officials succeeded in undermining and finally destroying this arrangement a process that took place in councils and courtrooms in taverns and treaties and on battlefields *Properties of Empire* challenges assumptions about the relationship between Indigenous and imperial property creation in early America as well as the fixed nature of Indian sales of land revealing the existence of a prolonged struggle to re-interpret seventeenth century land transactions and treaties well into the eighteenth century The ongoing struggle to construct a commonly agreed upon culture of landownership shaped diplomacy imperial administration and matters of colonial law in powerful ways and its legacy remains with us today
