The China Tangle:

China Tangle Herbert Feis, 2015-03-08 Contents Foreword Part One From Pearl Harbor to the Cairo Conference Part Two From the Cairo Conference to the Surrender of Japan Part Three From the Surrender of Japan to the Marshall Mission Originally published in 1953 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *The China Tangle* Herbert Feis, 1972 *The China Tangle* Herbert Feis, 1967 **The China Tangle** Herbert Feis, 1967 **The China Factor** Gerald Segal, 2018-09-18 The purpose of this book first published in 1982 is to analyse certain crucial aspects of the great power triangle in order to establish a more complete picture of the role of China in the superpower balance These essays examine the key political economic and military issues involved in the complex relations between the three great powers **The West and China Since 1500** J. Gregory, 2002-12-10 The West and China Since 1500 surveys Western relations with and attitudes towards China since sustained contact and desirable trading began with the great alternative culture in the sixteenth century The experiences of traders diplomats and missionaries are surveyed and illustrated by frequent quotations from contemporary sources In addition the book explores the flow of cultural influences in both directions and changes in Western opinion about China from admired model to disdained land of the eternal standstill to feared resurgent power Finally the author examines current issues in dispute such as Taiwan and human rights *The China Mission* Daniel Kurtz-Phelan, 2018-04-10 An Economist Best Book of 2018 New York Times Book Review Editor's Pick Gripping and splendid An enormous contribution to our understanding of Marshall Washington Post At the end of World War II General George Marshall took on what he thought was a final mission this time not to win a war but to stop one In China conflict between Communists and Nationalists threatened to suck in the United States and escalate into revolution Marshall's charge was to cross the Pacific broker a peace and prevent a Communist takeover all while staving off World War III At first the results seemed miraculous But as they started to come apart Marshall was faced with a wrenching choice one that would alter the course of the Cold War define the US China relationship and spark one of the darkest ever turns in American political life The China Mission offers a gripping close up view of the central figures of the time from Marshall Mao and Chiang Kai shek to Eisenhower Truman and MacArthur as they stood face to face and struggled to make history with consequences and lessons that echo today Perceptions of China and White House Decision-Making, 1941-1963 Adam S.R. Bartley, 2019-11-26 This book assesses and evaluates the decision making behavior of United States presidents and their chief advisers from Roosevelt to Kennedy pertaining to China Seeking to dispel with the notion that each administration sought policy outcomes on the basis of a

rational decision making model Bartley highlights the contradictions of adopted presidential decision making processes and the nature of domestic politics as playing prejudicial and debilitating roles The book demonstrates that elite decision making processes interacted with assumptions made about Chinese behavior interests and attitudes only superficially and in some cases not at all Misinformation and misperception were the natural outcomes Reinforced by the politics of McCarthyism at home intellectual debate on China policy was squashed parochialism and nuance were shunned and information was closed off Ultimately a divorce between the norm of behavior and the search for rational policy was registered in each administration The net result was a lasting and destructive cognitive dissonance to fit expectations of a China reality constructed information was ignored overlooked and distorted Offering new insights into the China policies of consecutive administrations from 1941 to 1963 this volume will be of great interest to scholars and students of American foreign policy security studies and international relations *Picturing China in the American Press* David D. Perlmutter, 2007-03-29

Picturing China in the American Press juxtaposes what the ordinary American news reader was shown visually in *Time* Magazine between 1949 and 1973 with contemporary perspectives on the behind the scenes history of the period *Time* Magazine is an especially fruitful source for such a visual historical contrast and comparison because it was China centric founded and run by Henry Luce a man who loved China and was commensurably obsessed with winning China to democracy and Western influence *Picturing China* examines in detail major events the Korean War and Nixon's trip to China less considerable occurrences shellings of Straits islands and diplomatic flaps great personages Chairman Mao and Henry Kissinger and the common people and common life of China as seen through the lenses and described by the pens of American reporters artists photographers and editors *Picturing China in the American Press* is of great interest to both scholars of communications Chinese history China Studies and journalists **The Generalissimo** Jay Taylor, 2011-04-30

One of the most momentous stories of the last century is China's rise from a self satisfied anti modern decaying society into a global power that promises to one day rival the United States Chiang Kai shek an autocratic larger than life figure dominates this story
