The Canada-US Border in the 21st Century John B. Sutcliffe, William P. Anderson, 2018-11-02 Borders are critical to the development and survival of modern states offer security against external threats and mark public policy and identity difference At the same time borders and borderlands are places where people ideas and economic goods meet and intermingle The United States Canada border demonstrates all of the characteristics of modern borders and epitomises the debates that surround them This book examines the development of the US Canada border provides a detailed analysis of its current operation and concludes with an evaluation of the border's future The central objective is to examine how the border functions in practice presenting a series of case studies on its operation This book will be of interest to scholars of North American integration and border studies and to policy practitioners who will be particularly interested in the case studies and what they say about the impact of border reform

The Right and Radical Right in the Americas Tamir Bar-On, Bàrbara Molas, 2021-11-22 Studies of the right and radical right have proliferated since the rise of European nationalist and populist parties in the 1980s Yet the literature on the right and the radical right has a largely Euro American bias and has been limited by partisan academics that focus on the left The Right and Radical Right in the Americas hopes to be a pioneering work that examines the history and contemporary manifestations of the right and radical right throughout the Americas From interwar Canada to contemporary Chile the right and radical right have come in diverse ideological currents Those ideological currents have undergone historical changes and the strategies of the right and radical right need to be contextualized in respect of country and region The right and radical right also have distinctive meanings throughout the Americas and in different epochs

The Fence and the Bridge Heather N. Nicol, 2015-10-19 The Fence and the Bridge is about the development of the Canada US border security relationship as an outgrowth of the much lengthier Canada US relationship It suggests that this relationship has been both highly reflexive and hegemonic over time and that such realities are embodied in the metaphorical images and texts that describe the Canada US border over its history Nicol argues that

prominent security motifs such as themes of free trade illegal immigration cross border crime terrorism and territorial sovereignty are not new nor are they limited to the post 9 11 era They have developed and evolved at different times and become part of a larger quilt whose patches are stitched together to create a new fabric and design Each of the security motifs that now characterize Canada US border perceptions and relations has a precedent in border management strategies and border relations in earlier periods In some cases these have deep historical roots that date back not just years or decades but centuries They are part of an evolving North American geopolitical logic that inscribes how borders are perceived how they function and what they mean

Bomb Canada Chantal Allan, 2009 Informative thought provoking and at times hilarious this book examines how the American media have portrayed Canada from Confederation to the Obama inauguration

Degrees of Freedom Keith G. Banting, George Hoberg, 1997-02-19 The book's primary aim is to determine whether Canada and the United States have become more similar as their economies have become more integrated and their societies more diverse The authors conclude that although powerful economic and social pressures clearly constrain national governments and lead to convergence in some areas distinctive cultural and political processes preserve room for distinctive national responses to important problems of the late twentieth century Authors include Keith Banting Paul Boothe University of Alberta Marsha Chandler University of Toronto George Hoberg Robert Howse University of Toronto Christopher Manfredi McGill University George Perlin Queen's University Douglas Purvis Queen's University Richard Simeon and Elaine Willis consultant Toronto
