Film and Female Consciousness L.

Bolton, 2011-07-28. **Film and Female Consciousness** analyses three contemporary films that offer complex and original representations of women's thoughtfulness and individuality: *In the Cut* (2003), *Lost in Translation* (2003) and *Morvern Callar* (2002). Lucy Bolton compares these recent works with well-known and influential films that offer more familiar treatments of female subjectivity: *Kluge* (1971), *The Seven Year Itch* (1955) and *Marnie* (1964). Considering each of the older celebrated films alongside the recent unconventional works illustrates how contemporary filmmaking techniques and critical practices can work together to create provocative depictions of on-screen female consciousness. Bolton's approach demonstrates how the encounter between the philosophy of Luce Irigaray and cinema can yield a fuller understanding of the fundamental

relationship between film and philosophy Furthermore the book explores the implications of this approach for filmmakers and spectators and suggests Irigarayan models of authorship and spectatorship that reinvigorate the notion of women s cinema American Cinematographer ,1993 Making a Winning Short Edmond Levy,2014-09-09 Making a Winning Short is the first book to give hands on instruction on how to write direct edit and produce a fictional short in film or video Edmond Levy guides the beginning filmmaker step by step through the stages of making a short writing the script from developing the idea to fine tuning the final draft launching production casting and working with the actors working with the crew directing the camera editing and other aspects of post production He devotes a separate chapter to Hi 8 video and gives a list of short film festivals both domestic and international Lighting for Film and Digital Cinematography John David Viera,Maria Viera,2005 Successfully design and implement lighting setups with LIGHTING FOR FILM AND DIGITAL CINEMATOGRAPHY with InfoTrac Coverage includes lighting color control texture exposure technique and elements that create image look and mood With a balance of the aesthetic and technical aspects of lighting this communication text helps you apply what you have learned with over 150 photographs diagrams and images from real films Film History ,2003
