The Fingerprint Of God:

The Fingerprint of God Hugh Ross, 2000 Hugh Ross tells the story of how the question of God's existence has been answered by both science and theology. In easy to read language he pulls together a vast array of literature that presents powerful and convincing evidence of the existence of God. The latest research has sealed the case for divine creation and has revealed the identity of the Creator Himself. ***The Fingerprint of God*** Will Dickerson, 2021-07-20 In a material dog eat dog world where pain and suffering exist and where only the fittest survive how and why did selfless love appear? How did love become one of the most basic necessities of human life? What exactly is love anyway? Is the existence and necessity of selfless love evidence that we really were created in the image of a loving God? What if love was God's fingerprint on our world and in our lives? What if love was the proof that he was here and that he made us to love and be loved? ***The Fingerprint of God*** Hugh Norman Ross, 2010 ***The Fingerprint of God*** Arthur Wray, 2001-05 Dr Steven Mallory a world renowned geneticist embarks on a spiritual and scientific quest to discover the true meaning of God's existence and the genetic code. In the process he discovers the truth about love, the universe and his spiritual destiny. *The Fingerprints of God* Robert Farrar Capon, 2000-06-26 This is a print on demand book and is therefore non returnable. ***The Fingerprint of God*** Hugh Norman Ross, 1991 *Prime Numbers Proof and Journey Finding the Fingerprint of God* Martin P. Miller NCARB, 2020-02-06 Most of nature is complex as prime numbers so complex that we cannot solve them. Martin P. Miller a nationally certified architect seeks to answer that question and others in this mathematical and philosophical work that reveals the fingerprints of God on multiple levels. He shares how as a young child he made a table that fifty years later solved prime numbers. After watching a CD on the history of mathematics he decided to solve what everyone said was the randomness of prime numbers. The number three which is everywhere proved very significant. Miller also shares a near death experience and seeks to answer questions such as: Why is there bright light in heaven? Can we travel backward in time and rewrite history? What are dreams and what do they mean? Can the seeming randomness of prime numbers be similar to life's experiences? Throughout the book the author seeks to find order in chaos, rhythm in randomness and the fingerprints of God finding proof of his existence in nature, in our DNA and in the universal language of mathematics. ***The Fingerprint of God*** Harold Ball, 2015-03-05 In this book I'm going to prove to you that God does exist and He is living and working today just as He did almost 2000 years ago. He is shouting at the world that He is coming on Rosh Hashanah. Are you ready to meet the King of kings? Let me ask you a question: Do you believe in life after death? Yes/No. Do you believe in Heaven or Hell? Yes/No. If you died today would you go to Heaven or Hell? Why? Because I'm a good person, I'm not a bad person. John 3:3 If you picked Heaven there is a test that you could take right now to see if you are good enough to go to Heaven. Let's take a quiz to see if you are good enough to go to Heaven. Have you ever heard of the 10 Commandments? Yes/No. Exodus 20:1-17 If God were to judge you right now by the 10 Commandments how would you do? Let's use only four of them. Number 1 Have you ever told a

lie before Yes No What do you call a person who lies A liar Number 2 Have you ever stolen anything before Yes No What do you call someone that steals A thief Number 3 Have you ever looked upon a man or a woman in a lustful way Yes No God says That anyone who looks at a woman or man lustfully has already committed adultery within their heart Matthew 5 28 Number 4 Have you ever used God s name in vain Yes No God s last name is not Dammit If so you re called a blasphemer By your own admission you are a Liar a Thief an Adulterer and a Blasphemer If God were to judge you right now based on four or three or two would you go to Heaven or Hell Would you be innocent or guilty Guilty So would you go to Heaven or Hell You would not be going to Heaven you will be going to Hell Romans 3 10 This is what Christ has done for you Say you went to court for owing 100 000 in back taxes and the judge asks you to pay it or go to jail Well you know you don t have a 100 000 so you tell the judge I cannot pay So the judge asks the bailiff to handcuff you and escort you to your jail cell Right before you leave the room a man stands up and offers to pay your fine The man takes out his checkbook and writes a check for a 100 000 dollars and gives it to the judge The judge says You are now free How would you feel about this man that paid the fine Would you be grateful happy thankful to this man That is what Jesus did for you when He died for you on the cross and paid for your sins And He takes out His hand and shakes your hand and says Will you follow Me Yes No Fingerprints of God Barbara Bradley Hagerty, 2009-05-14 From the award winning NPR religion correspondent and author of *Life Reimagined* The Science Art and Opportunity of Midlife comes a fascinating investigation of how science is seeking to answer the question that has puzzled humanity for generations Can science explain God Is spiritual experience real or a delusion Are there realities that we can experience but not easily measure Does your consciousness depend entirely on your brain or does it extend beyond In *Fingerprints of God* award winning journalist Barbara Bradley Hagerty delves into the discoveries science is making about how faith and spirituality affect us physically and emotionally as it attempts to understand whether the ineffable place beyond this world can be rationally even scientifically explained Hagerty interviews some of the world s top scientists to describe what their groundbreaking research reveals about our human spiritual experience From analyses of the brain functions of Buddhist monks and Carmelite nuns to the possibilities of healing the sick through directed prayer to what near death experiences illuminate about the afterlife Hagerty reaches beyond what we think we know to understand what happens to us when we believe in a higher power Paralleling the discoveries of science is Hagerty s own account of her spiritual evolution Raised a Christian Scientist she was a scrupulous adherent until a small moment as an adult triggered a reevaluation of her beliefs which in turn led her to a new way of thinking about God and faith An insightful examination of what science is learning about how and why we believe *Fingerprints of God* is also a moving story of one person s search for a communion with a higher power and what she discovered on that journey *The Fingerprint of God* Jerry Lindberg, A fictionalized account of the real life discoveries made around the world that appear to prove Biblical history
