Carroll, 2005-12 Alex Voorman a cerebral thirty year old archaeologist is married to the woman of his dreams a beautiful ambitious botanist named Isabel When Isabel is killed by a reckless driver Alex reluctantly consents to donate her heart Janet Corcoran a young headstrong mother of two and an art teacher at an inner city school in Chicago is sick with heart disease She is on the waiting list for a transplant but her chances are slim She watches the Weather Channel secretly praying for foul weather and car accidents The day Isabel dies Janet gets her wish Flash forward a year Janet sends Alex a letter She d like to learn something about the woman who saved her life But Alex isn t interested in talking to the recipient of his dead wife s heart Since Isabel s accident

he is still grief stricken Meanwhile a local blues musician named Jasper the man responsible for Isabel's death attempts to atone for his misdeed Irreplaceable is the story of what happens after the transplant not only to Alex but within the concentric circles of family that spiral outward from him and from Janet Stephen Lovely takes us vividly inside the lives of these characters to reveal their true intentions however misguided and gives us a stunning debut novel of loss and love [A Companion to American Environmental History](#) Douglas Cazaux Sackman, 2010-02-12 A Companion to American Environmental History gathers together a comprehensive collection of over 30 essays that examine the evolving and diverse field of American environmental history Provides a complete historiography of American environmental history Brings the field up to date to reflect the latest trends and encourages new directions for the field Includes the work of path breaking environmental historians from the founders of the field to contributions from innovative young scholars Takes stock of the discipline through five topically themed parts with essays ranging from American Indian Environmental Relations to Cities and Suburbs *When Mortals Play God* John Erickson, 2022-09-15 American history is full of examples of discrimination in all forms but never before has the wreckage from America's infatuation with eugenics and its state sanctioned policy of hate toward the mentally ill been put in such personal terms In this extraordinary debut book Pulitzer Prize winning journalist John Erickson answers the questions that have long haunted an immigrant family Why was a mother in her early twenties imprisoned and then sterilized What caused her three children to be taken from her and placed in an orphanage that later preyed on children What led her oldest son to commit an unspeakable act of violence And finally whatever happened to her youngest son who disappeared from her life and was never seen by the family again This is a tragic story yet strangely an uplifting one Because just as officials believed immorality and mental illness were as genetically linked as eye and hair color various family members would prove them wrong In a story that will make you seethe with anger and well with tears *When Mortals Play God* shows how valuable life is and how grit and determination can sometimes relegate evil and injustice to a back seat *Finns in Minnesota* Arnold Robert Alanen, 2012 This succinct yet comprehensive volume outlines the contributions and culture of Minnesota's Finnish Americans perhaps best known for their cooperative ventures their political involvement and of course their saunas *Under a Flaming Sky* Daniel Brown, 2016-02-01 On September 1 1894 two forest fires converged on the town of Hinckley Minnesota trapping over 2 000 people Daniel J Brown recounts the events surrounding the fire in the first and only book on to chronicle the dramatic story that unfolded Whereas Oregon's famous Biscuit fire in 2002 burned 350 000 acres in one week the Hinckley fire did the same damage in five hours The fire created its own weather including hurricane strength winds bubbles of plasma like glowing gas and 200 foot tall flames In some instances fire whirls or tornadoes of fire danced out from the main body of the fire to knock down buildings and carry flaming debris into the sky Temperatures reached 1 600 degrees Fahrenheit the melting point of steel As the fire surrounded the town two railroads became the only means of escape Two trains ran the gauntlet of fire One train caught on fire from one

end to the other The heroic young African American porter ran up and down the length of the train reassuring the passengers even as the flames tore at their clothes On the other train the engineer refused to back his locomotive out of town until the last possible minute of escape In all more than 400 people died leading to a revolution in forestry management practices and federal agencies that monitor and fight wildfires today Author Daniel Brown has woven together numerous survivors stories historical sources and interviews with forest fire experts in a gripping narrative that tells the fascinating story of one of North America s most devastating fires and how it changed the nation [A Paul Meehl Reader](#) Niels G.
