The First Arc Of The Great Circle:

The First Arc of the Great Circle Peter B. Cannon, 2003-01-17 Early Reviews The Arc is full of golden nuggets One just has to mine them for themselves if they haven't already The First Arc is a three dimensional On the Road We travel on land air and sea from the desert to the Alps Las Vegas to Mallorca and from bliss to despair and back up again forever Peter has done what most of us only wish we had done The ocean like life has currents which go in great circles Life arcs around for most of us until we learn what we need to learn I found many of my answers here I have known Peter for decades and we now know what grace abounds for even us unlovelies Peters quest for fullness and total satisfaction has sent him on an incredible journey I have never known an unknown that has met so many well knowns What is this brush with fame for The answers are here for you and me Peter is too humble to mention this He is now working on his 63rd career *Two Geometrical Memoirs on the General Properties of Cones of the Second Degree, and on the Spherical Conics* Michel Chasles, 1837 *Tables to facilitate the practice of Great Circle Sailing, and the determination of Azimuths.* By J. T. Towson. ... Second edition Great Britain. Hydrographic Department, 1848 *The Elements of Plane and Solid Geometry* ... Edward Albert Bowser, 1890 *Two geometrical memoirs of the general properties of cones of the second degree, and on the spherical conics, tr. with notes and additions by C. Graves* Michel Chasles, 1841 *The Spherics of Theodosios* Nathan Sidoli, R.S.D. Thomas, 2023-07-31 This book provides the first English translation of the Greek text of the Spherics of Theodosios 2nd 1st century BCE a canonical mathematical and astronomical text used from as early as the 2nd century CE until the early modern period Accompanied by an introduction to the life and works of Theodosios and a contextualization of his Spherics among other works of Greek mathematics and astronomy the translation is followed by a detailed commentary and an accessible English paraphrase accompanied with mathematically generated diagrams The volume has a broad appeal to both general and specialist readers who do not read ancient Greek allowing readers to understand the mathematical and astronomical principles and methods used by ancient and medieval readers of this important text The paraphrase with its mathematical diagrams will be useful for readers with a scientific and mathematical background This study of one of the canonical mathematical and astronomical texts of the ancient Greco Roman classical Islamic and medieval Christian worlds provides an invaluable resource for historians of science astronomy and mathematics and scholars of the ancient and medieval periods *The Light of the World* Joseph ibn Nahmias, 2016-03-01 This book contains an edition with an extensive introduction translation and commentary of *The Light of the World* a text on theoretical astronomy by Joseph Ibn Nahmias composed in Judeo Arabic around 1400 C E in the Iberian Peninsula As the only text on theoretical astronomy written by a Jew in any variety of Arabic this work is evidence for a continuing relationship between Jewish and Islamic thought in the late fourteenth and early fifteenth centuries The text's most lasting effect may have been exerted via its passage to Renaissance Italy where it influenced scholars at the University of Padua in the early sixteenth century With its crucial role in the

development of European astronomy as well as the physical sciences under Islam and in Jewish culture The Light of the World is an important episode in Islamic intellectual history Jewish civilization and the history of astronomy Cometary Theory in Fifteenth-Century Europe Jane L. Jervis, 1985-10-31 Knowledge , 1887 **Library of Useful Knowledge** , 1834
