**Kathleen Armour**

## **The First Croydon Airport 1915-1928:**

**A History of Croydon Airport: Croydon Airport and the battle for Britain, 1939-1940** Bob Learmonth, 1977

**The Evolution of Airport Design** Robert Stewart, 2024-05-13 This is the first book to comprehensively cover the evolution of airport design from the start of commercial aviation in 1919 to the present day. Many books have been written about airport design at a particular moment in history but none have rigorously considered why, where, when and how the ideas we now take for granted originated. This book traces the history of airport design considering the philosophies adopted by designers, the functional layouts they have developed and the resultant form of the airport through a series of 40 case studies divided into 7 eras of approximately 20 years each. The themes include: The philosophies underpinning airport design; The evolution of design responses; How airports have avoided obsolescence; Identification of the key turning points; The evolution of master plans and terminal concepts in response to increasing traffic volumes; The future of airports in terms of environmental sustainability and the Covid 19 hiatus. The case studies are international, covering the USA, Germany, the UK, France, the Netherlands, Singapore, Saudi Arabia, Japan, Hong Kong, Malaysia, South Korea, Thailand, Spain, United Arab Emirates, China, Turkey, Mexico, Australia and Poland. They are illustrated with full colour, many of which have not been published before and form part of an incredible graphic package. This book is essential reading for architects, engineers, planners and environmentalists alike.

**A - Airports** British Library, 2012-05-21 No detailed description available for A Airports.

**1938: Modern Britain** Michael John Law, 2017-12-14 In 1938, Modern Britain, Michael John Law demonstrates that our understanding of life in Britain just before the Second World War has been overshadowed by its dramatic political events. 1938 was the last year of normality and Law shows through a series of case studies that in many ways, life in that year was far more modern than might have been thought. By considering topics as diverse as the opening of a new type of pub, the launch of several new magazines, the emergence of push button radios and large screen television sets and the building of a huge office block, he reveals a Britain both modern and intrigued by its own modernity that was stopped in its tracks by war and the austerity that followed. For some, life in Britain was as consumerist, secular, Americanized and modern as it would become for many in the late 1950s and early 1960s. Presenting a fresh perspective on an important year in British social history, illuminated by six engaging case studies, this is a key study for students and scholars of 20th century Britain.

**Insights and Research on the Study of Gender and Intersectionality in International Airline Cultures** Albert J. Mills, 2017-07-24 This book brings together three decades of research by Albert J. Mills and his colleagues on the gendering of airline cultures over time. Inspired by feminist theory and drawing largely on archival research, it traces the way that gender discrimination develops, takes hold and changes in the formation of organizational cultures.

**Sex, Strategy and the Stratosphere** A. Mills, 2006-05-15 This book provides an historical account of how discriminatory practices develop and change. The author presents a historical account of the discriminatory practices of airline companies: British Airways, Air

Canada and Pan American Airways It covers the years 1919 to 1991 and is organized around key periods in the treatment of female employees West Over the Waves Jayne Baldwin, 2017 Glamorous heiress Elsie Mackay could have lived her life in the social whirl of high society partying with princes and dancing with dukes Instead this wilful young woman was determined to pursue her dreams eloping with a dashing soldier starring on the silver screen and designing the luxurious interiors of ocean liners But her greatest passion was for aviation still in its infancy in the 1920s and her burning ambition was to become the first woman to not only fly the Atlantic but to cross those unforgiving waves by the most challenging route east to west against the prevailing winds Not only were the odds stacked against her but she knew her father the shipping tycoon Lord Inchcape would do everything in his considerable power to stop her Journalist Jayne Baldwin uncovers the forgotten story of the bold and beautiful woman who blazed a trail across newspaper headlines high society and who loved the heady mix of speed and danger that marked the early days of aviation **The experience of suburban modernity**

Michael John Law, 2014-12-01 The experience of suburban modernity looks at the history of the London suburbs in the interwar years It shows that contrary to those accounts that portray suburbia as static and boring these suburbs were in fact at the heart of the adoption of private transport and new mobilities Wealthier middle class suburbanites enjoyed driving at speed on new arterial roads visiting roadhouses for a transgressive night out taking five shilling flights from the local airport and joining cycling and motorcycle clubs All this fun came at a price for some in the form of thousands of deaths in road accidents plane crashes on suburban housing and in the despoiling of the countryside through road development This book will be welcomed by academics and students working in suburban studies historical geography and interwar British history and can also be enjoyed by anyone interested in the history of London **Labour in the Suburbs** Michael

Tichelar, 2023-05-04 This book is the first comprehensive economic social and political study of the London suburb of Croydon from 1900 up to the present day One of the largest London boroughs Croydon has always been a mixed residential suburb mainly private but with some municipal housing which has strongly influenced the nature of its political representation It was never just an affluent middle class suburb or bourgeoisie utopia as suggested by traditional definitions of suburbia and in popular imagination In economic terms it was also an industrial suburb after 1918 It was then transformed into a vibrant post industrial service economy following rapid deindustrialisation and remarkable commercial and office redevelopment after 1960 In this respect Croydon is also an ex industrial suburb similar to many other outer London areas and other peripheral metropolitan areas Croydon's civic identity as a previously independent town on the outskirts of London remains unresolved to this day even as its political representatives seek to redefine the borough as a more independent Edge City Author Michael Tichelar examines this suburb by looking at the suburban development of London the changing politics of Croydon and policy issues during the twentieth century Labour in the Suburbs will be of interest to the general reader as well as students of modern British history with special interests in electoral sociology political representation and

suburbanisation It provides a template against which to measure the process of suburbanisation in the UK and internationally
