

First Migration

- **Bering Land Bridge** was the method by which the first **Paleo-Indians** crossed into Alaska between 38,000-10,000 BC. The bridge was formed due to a warming pattern in the Earth's climate as Asian peoples walked across the bottom of the Bering Strait, a body of water between Russia and Alaska.
- First **migration** led the Paleo-Indians into Canada and then south into North/South America, as these **hunter-gatherers** followed the herds of animals.
- 8000 BC marks the end of the Ice Age creating new **environments** (climates and landscapes that surround living things).
- These environments developed new **cultures** (a group's set of common values and traditions).
- Societies changed over time as more people entered into North America/South America.

The First Migration:

Internal Migration as a Life-Course Trajectory Aude Bernard, 2022-06-20 This book responds to growing calls to conceptualise and analyse internal migration as a trajectory that unfolds over the life course of individuals rather than a series of discrete events It combines macro and micro modes of analysis into a cohort framework to explore how individuals transition from one migration to the next The book presents new methodological developments in longitudinal analysis and applies them to internal migration in 27 European countries It demonstrates that the traditional dichotomy between migrants and non migrants conceals a wide range of migration behaviour and heterogeneity among repeat migrants It also reveals a continuity of migration behaviour being exposed to the challenges and benefits of migration early in life predisposes individuals toward migration in adulthood By adopting a cohort approach to migration coupled with state of the art methods and novel concepts this book provides new insights into internal migration for graduate students academics and policymakers interested in understanding migration behaviour in Europe and beyond

The 2Nd Migration Richard E. Nzeadibe, 2009-03-24 This work contains 13 short chapters a table of contents and index in 92 double spaced pages Briefly I discussed the 1st Migration the Slave Trade Across the Atlantic and its impact on the migrants The Second Migration which started early in 19th C was and still different The nationalists came seeking high education which would enable them to dismantle European imperialism and Colonialism They were markedly different from those who trained in Europe They trailed the way for us After waiting for the benefits of independence and seeing nothing migration doubled and it has continued The Push is in Nigeria and Africa the Pull is in the U S Eventually the so called Brain Drain may become Brain Gain

Oceanic Migration Charles E.M. Pearce, F. M. Pearce, 2010-06-17 Oceanic Migration studies the prehistoric peopling of the Pacific It uses science and mathematics to expand the research base of Pacific prehistory and casts new light on this final human expansion It explores the fundamental roles of oceanography and of global climate change in determining the paths sequence timing and range of Spice Island based maritime migrations ranging across a quarter of the globe The book is of interest to Pacific prehistorians oceanographers and American anthropologists concerned with the diffusionist debate For oceanographers it presents the new idea of the role of the West Pacific Warm Pool and of three of its four major currents in determining the evolution of voyaging in two oceans For diffusionists it provides new chronological and technological contexts in which the issue of diffusionism needs to be reconsidered For prehistorians it creates a paradigmatic shift by establishing a new time depth and mechanism for Polynesian exploration offers a new view of voyaging and exploration strategies and of economic imperatives and adds a new dimension to the debate on Polynesian origins

Christianity and Migration Peter C. Phan, Oxford Editor, 2025-10-07 This book essays a not the Christian theology of migration The phenomenon of human migration that is the movement of people to and settlement temporary or permanent in a new area or country its causes and reasons and its historical anthropological social political legal and cultural dimensions have been

widely studied and reasonably well understood and the next chapter will discuss them in detail By contrast theology as an academic discipline seems least capable of illuminating this human phenomenon It appears to most people outside the church and its educational institutions to be at best an esoteric subject and at worst a convoluted and useless mumbo jumbo especially when liberally sprinkled with Greek and Latin phrases Why not leave the study of migration to scholars in history sociology anthropology economics politics and law who albeit no less infected with highfalutin language than theologians do at least try to offer practical policies and effective strategies either for or against immigration Provided by publisher

Ignored Jinna Sil Lo Jin, 2022-03-11 America gets more diverse than ever before and it is our responsibility to respect this diversity before us Although many people claim that diversity matters there are so many marginalized people who have not been heard yet Korean speaking young people are one of them They have been marginalized not only by the main culture but also by their own community This study illuminates this hidden population and their stories as emerging adults with socially emotionally and spiritually unstable status With a practical theology approach this study provides not only about who are the Korean

speaking young adults but also what is the current praxis and how the immigrant community can have different imaginations about their future with these young people Including data gathered survey and in depth interviews Ignored is the first comprehensive study that addresses Korean speaking young people By sharing unheard stories this book invites us to understand our diverse community Furthermore this book brings new imagination of listening others who have been ignored
