The Fiscal Outlook For Cities Implications Of A National Urban Policy:

The Fiscal Outlook for Cities Bernard Jump, 1978 Economic Research Studies of the Economic Development Administration, 1980 **The Fiscal Outlook for Cities** Roy W. Bahl, 1978 *Cities, Politics, and Policy* John P. Pelissero, 2002-10-01 Just because Milwaukee isn't Manhattan doesn't mean that those urban centers face completely unique challenges Through effective comparative analysis of key issues in urban studies how city managers share power with mayors how spending policies affect economic development and how school politics impact education policy students can clearly see how scholars discern patterns and formulate conclusions to offer theoretical and practical insights from which all cities can benefit Pelissero brings together an impressive team of contributors to explore variation among cities through case studies and cross sectional analyses Each author synthesizes the field's seminal literature while explaining how urban leaders and their constituents grapple with everything from city council politics to conflict and cooperation among minority groups Authors identify both key trends and gaps in the scholarship and help set the research agenda for the years to come Lively case material will hook your students while the accessible presentation of empirical evidence make this reader the comprehensive and sophisticated text you demand *The Politics of Capital Investment* Carolyn Teich Adams, 1988-01-01 This book examines both the politics and products of the public investment process in one of America's largest cities It broadens the scope of contemporary debates on the political economy of urban development to include not only large scale redevelopment projects but also neighborhood facilities such as schools parks and libraries Showing the share of investments that went into Philadelphia's downtown versus its residential neighborhoods from 1950 to 1980 the author challenges the widely held view that public investment patterns simply reflect political pressures from pro development groups Instead she shows that a city's decision to build often hinges on the availability and the sources of investment capital Fiscal Crisis in American Cities--the Federal Response Loren Kenneth Hubbell, 1979 **Nonmetropolitan Fiscal Indicators** Richard J. Reeder, 1984 **Big-city Politics, Governance, and Fiscal Constraints** George E. Peterson, 1994 Big city mayors and other political leaders face the triple challenge of assembling a winning political coalition translating this into an effective governing coalition and coping with a tightening local budget constraint The challenge is still greater when elections have produced a change in ethnic control of local government bringing into power new groups that want to use government spending to serve their constituents demands but are resisted by those controlling the economic resources This volume explores the political transition now going on in big cities One group of chapters examines recent electoral politics in Chicago Philadelphia Los Angeles Miami and San Antonio where different types of ethnic and class lines have been drawn and where different strategies have been employed to adjust political machines to the new realities A second group of chapters considers the business of governing under the conflicting pressures of community organizations the press the business community and higher levels of government A final group of chapters examines the fiscal and budgetary constraints

upon big city governments and the difficulty that these governments no matter how well motivated face in generating jobs and economic opportunity for their political constituents Hearings, Reports and Prints of the Joint Economic Committee
United States. Congress. Joint Economic Committee,1980 ERS Staff Report ,1983
