National Grassland is a thought that occurs to even the most single minded birder in pursuit of that next bird After seeing a lot of birds the idea finally dawned that it would be worthwhile and interesting to memorialize new ones by typing up an account of the adventure of getting to see them something which by its very nature involves learning something about the bird itself and the place or places where the observation was accomplished The more of these accounts I completed the more I realized how much these latter two learnings add to the adventure Everything about and inspired by these birds is thought provoking and enjoyable The details can be delightfully shocking parasitism for example or blinding mammal infants or extra pair activity The place can be just as absorbing as the bird To investigation of the differences in ecosystems can be added differences in history not geological history though that of course can compel but social and political history the CCC the internment camps conquistadors the San Francisco Earthquake even computer code The ground you trod upon in pursuit of that winged creature in the bush or on the plain has tales to tell In one case that of the Red faced Warbler I have gone back to a time before I made the memorialize decision but for all others the accounts are of birds seen after the concept struck I wish I could go back not just as I did with the warbler but with all the other predecessors and reconstruct what happened But that s the problem If you don t memorialize details disappear The original accounts were centered on the pursuit in a few cases that was all that there was In preparing all of these for publication I have added accounts of life history and range where that was absent or have enlarged substantially on it when some was originally included I have added details to descriptions of places and incorporated research about history All of which I enjoyed greatly But a signal joy was rereading these accounts it comes close to having these experiences all over again My hope is that readers of 30 Birds will be able to share in this joy and that it will inspire their own pursuits all types of pursuits Some may find accounts here eccentric Supreme Court cases ENIAC programmer Florida dentist in Attu war against Aguinaldo English poets Carl Linn Marineland murder Hotspur sibilicide nominalism Great White Fleet Monophysitism Theosophy but I hope this is a virtue
