

A vintage photograph of a man and a woman standing in front of a dark-colored truck. The truck's bed is filled with several large, white, rectangular sacks, likely containing grain or flour. The man, on the left, is wearing a light-colored jacket and dark trousers, and is pointing his right arm towards the sacks. The woman, on the right, is wearing a light-colored dress and a white headscarf. The background is slightly blurred, showing some foliage and a building. The overall tone of the image is historical and documentary.

The Best Possible Immigrants Rachel Rains Winslow, 2017-04-07 Prior to World War II international adoption was virtually unknown but in the twenty first century it has become a common practice touching almost every American How did the adoption of foreign children by U S families become an essential part of American culture in such a short period of time Rachel Rains Winslow investigates this question following the trail from Europe to South Korea and then to Vietnam Drawing on a wide range of political and cultural sources The Best Possible Immigrants shows how a combination of domestic trends foreign policies and international instabilities created an environment in which adoption flourished Winslow contends that international adoption succeeded as a long term solution to child welfare not because it was in the interest of one group but because it was in the interest of many Focusing on the three decades after World War II she argues that the system came about through the work of governments social welfare professionals volunteers national and local media adoptive parents and prospective adoptive parents In her chronicle Winslow not only reveals the diversity of interests at play but also shows the underlying character of the U S social welfare state and international humanitarianism In so doing she sheds light on the shifting ideologies of family in the postwar era underscoring the important cultural work at the center of policy efforts and state projects The Best Possible Immigrants is a fascinating story about the role private citizens and organizations played in adoption history as well as their impact on state formation lawmaking and U S foreign policy

Adopting for God Soojin Chung, 2021-12-14 Explores the role played by missionaries in the twentieth century transnational adoption movement Between 1953 and 2018 approximately 170 000 Korean children were adopted by families in dozens of different countries with Americans providing homes to more than two thirds of them In an iconic photo taken in 1955 Harry and Bertha Holt can

be seen descending from a Pan American World Airways airplane with twelve Asian babies eight for their family and four for other families As adoptive parents and evangelical Christians who identified themselves as missionaries the Holts unwittingly became both the metaphorical and literal parental figures in the growing movement to adopt transnationally Missionaries pioneered the transnational adoption movement in America Though their role is known there has not yet been a full historical look at their theological motivations which varied depending on whether they were evangelically or ecumenically focused and what the effects were for American society relations with Asia and thinking about race more broadly Adopting for God shows that somewhat surprisingly both evangelical and ecumenical Christians challenged Americans to redefine traditional familial values and rethink race matters By questioning the perspective that equates missionary humanitarianism with unmitigated cultural imperialism this book offers a more nuanced picture of the rise of an important twentieth century movement the evangelization of adoption and the awakening of a new type of Christian mission *Kinship by Design* Ellen

Herman, 2009-08-01 What constitutes a family Tracing the dramatic evolution of Americans answer to this question over the past century *Kinship by Design* provides the fullest account to date of modern adoption s history Beginning in the early 1900s when children were still transferred between households by a variety of unregulated private arrangements Ellen Herman details efforts by the U S Children s Bureau and the Child Welfare League of America to establish adoption standards in law and practice She goes on to trace Americans shifting ideas about matching children with physically or intellectually similar parents revealing how research in developmental science and technology shaped adoption as it navigated the nature nurture debate Concluding with an insightful analysis of the revolution that ushered in special needs transracial and international adoptions *Kinship by Design* ultimately situates the practice as both a different way to make a family and a universal story about love loss identity and belonging In doing so this volume provides a new vantage point from which to view twentieth century America revealing as much about social welfare statecraft and science as it does about childhood family and private life *The ABC Movie of the Week* Michael McKenna, 2013-08-22

On September 23 1969 five years after the first made for television movie premiered the ABC network broadcast *Seven in Darkness* This was the first television film for an anthology show called the Tuesday Night Movie of the Week Dedicating ninety minutes of weekly airtime to a still emerging genre was a financial risk for the third place network a risk that paid off The films were so successful that in 1972 the network debuted *The Wednesday Movie of the Week* Although most of the movies are no longer remembered a handful are still fondly recalled by viewers today including *Duel* *Brian s Song* and *The Night Stalker* The series also showcased pilot films for many eventual series such as *Alias Smith and Jones* *The Six Million Dollar Man* and *Starsky and Hutch* By the end of both shows regular runs in the spring of 1975 the network had broadcast more than 200 made for television films In *The ABC Movie of the Week* *Big Movies for the Small Screen* Michael McKenna examines this programming experiment that transformed the television landscape and became a staple of broadcast programming for several years The author looks at how the revolving films

showcased the right mixture of romantic comedy action horror and social relevance to keep viewers interested week after week McKenna also chronicles how the ratings success led to imitations from the other networks resulting in a saturation of television movies As a cultural touchstone for millions who experienced the first run and syndicated versions of these films The ABC Movie of the Week is a worthy subject of study Featuring a complete filmography of all 240 movies with credit information and plot summaries a chronology and a list of pilots both failed and successful this volume will be valuable to television historians and scholars as well as to anyone interested in one of the great triumphs of network programming
