Gay Fathers, Their Children, and the Making of Kinship Aaron Goodfellow,2015-06-01 While the topic of gay marriage and families continues to be popular in the media few scholarly works focus on gay men with children Based on ten years of fieldwork among gay families living in the rural suburban and urban area of the eastern United States *Gay Fathers Their Children and the Making of Kinship* presents a beautifully written and meticulously argued ethnography of gay men and the families they have formed In a culture that places a premium on biology as the founding event of paternity Aaron Goodfellow poses the question Can the signing of legal contracts and the public performances of care replace biological birth as the singular event marking the creation of fathers Beginning with a comprehensive review of the relevant literature in this field four chapters each presenting a particular picture of paternity explore a range of issues such as interracial adoption surrogacy the importance of physical resemblance in familial relationships single parenthood delinquency and the ways in which the state may come to define the norms of health The author deftly illustrates how fatherhood for gay men draws on

established biological theological and legal images of the family often thought oppressive to the emergence of queer forms of social life Chosen with care and described with great sensitivity each carefully researched case examines gay fatherhood through life narratives Painstakingly theorized *Gay Fathers Their Children and the Making of Kinship* contends that gay families are one of the most important areas to which social scientists might turn in order to understand how law popular culture and biology are simultaneously made manifest and interrogated in everyday life By focusing specifically on gay fathers *Goodfellow* produces an anthropological account of how paternity sexuality and masculinity are leveraged in relations of care between gay fathers and their children *Nancy Chodorow and The Reproduction of Mothering* Petra

Taylor,2009-07-30 This book explores the intersections between class and sexuality in lesbians and gay men s experiences of parenting and the everyday pathways navigated therein from initial routes into parenting to location preferences schooling choice and community supports **Lesbian Geographies** Kath

Browne,Eduarda Ferreira,2016-03-03 It has long been recognised that the spatialisation of sexual lives is always gendered Sexism and male dominance are a pervasive reality and lesbian issues are rarely afforded the same prominence as gay issues Thus lesbian geographies continue to be a salient axis of difference challenging the conflation of lesbians and gay men as well as the trope that homonormativity affects lesbians and gay men in the same ways This volume explores lesbian geographies in diverse geographical social and cultural contexts and presents new approaches using English as a working language but not as a cultural framework Going beyond the dominant trace of Anglo American perspectives of research in sexualities this book presents research in a wide range of countries including Australia Argentina Israel Canada USA Russia Poland Spain Hungary and Mexico *Cohabitation and the Evolving Nature of Intimate and Family Relationships* Sampson Lee Blair,Yongjun Zhang,2023-12-08 Given the tremendous diversity in cohabiting couples as well as the increasing prominence of this form of intimate relationships this volume provides a more thorough comprehension of the structures effects and intimate practice of cohabitation around the world **Lesbians & Child Custody** Dolores J.

Maggiore,2021-04-14 This work represents a collection of the most pertinent writing of the past fifteen years in the United States and Canada on the topic of lesbians and child custody Articles were selected on the basis of their relevance succinctness and representativeness of the various aspects of child custody involving lesbians Some of the original psychological studies comparing lesbian mothers to heterosexual mothers were sacrificed in favor of the piece by Patricia Falk a thorough review of the psychological literature For others the length of the manuscript was prohibitive as was the case with the thorough step by step Lesbian Mothers Litigation Manual by Donna Hitchens and Roberta Achtenberg of the National Center for Lesbian Rights **Handbook of Feminist Family Studies** Sally A. Lloyd, April L. Few, Katherine R. Allen,2009-04-14 The Handbook of Feminist Family Studies presents the important theories methodologies and practices in feminist family studies The editors showcase feminist family scholarship providing both a retrospective and a prospective overview of the field and creating a scholarly forum for interpretation and dissemination of feminist work
