The Films Of The Seventies A Social History:

The Films of the Eighties William J. Palmer, 1995 In this remarkable sequel to his *Films of the Seventies A Social History* William J. Palmer examines more than three hundred films as texts that represent, revise, parody, comment upon and generate discussion about major events, issues and social trends of the eighties. Palmer defines the dialectic between film art and social history taking as his theoretical model the holograph of history that originated from the New Historicist theories of Hayden White and Dominick LaCapra. Combining the interests and methodologies of social history and film criticism, Palmer contends that film is a socially conscious interpreter and commentator upon the issues of contemporary social history. In the eighties such issues included the war in Vietnam, the preservation of the American farm, terrorism, nuclear holocaust, changes in Soviet-American relations, neoconservative feminism and yuppies. Among the films Palmer examines are *Platoon*, *The Killing Fields*, *The River Out of Africa*, *Little Drummer Girl*, *Kiss of the Spiderwoman*, *Silkwood*, *The Day After*, *Red Dawn*, *Moscow on the Hudson*, *Troop Beverly Hills* and *Fatal Attraction*. Utilizing the principles of New Historicism, Palmer demonstrates that film can analyze and critique history as well as present it.

Disco Days: a Social History of the 1970'S Richard T. Stanley, 2015-06-19 By 1972 President Richard Nixon had reached the heights of political power and popularity only to self-destruct due to his role in a third-rate burglary called Watergate. Nixon resigned in disgrace and for the first time in history Americans came to be led by an unelected President and Vice President Gerald Ford and Nelson Rockefeller. But Americans had much more on their minds than mere politics; movies, TV sports, earning a living, etc. Hollywood motion pictures including *The Godfather*, *Jaws* and *Star Wars* captured their imaginations while weekly TV shows such as *All in the Family* and *Happy Days* made them laugh and *Monday Night Football* kept their competitive juices flowing. To no one's surprise UCLA continued to win NCAA basketball championships and such schools as Alabama, Arkansas, Michigan, Nebraska, Notre Dame, Oklahoma, Penn State, Texas and USC remained dominant on the gridiron. And professional sports, thanks to such superstars as Billie Jean King, Kareem Abdul Jabbar, Henry Aaron, Jack Nicklaus, Muhammad Ali, Al Unser and Terry Bradshaw, became more popular than ever. But who could have predicted at the beginning of the decade that a young high school dropout named John Travolta and a band called the Bee Gees would become the kings of Disco Dancing? Or that a peanut farmer from Georgia would be elected President during our Bicentennial Year?

A History of the Seventies: The political, cultural, social and economic developments that shaped the modern world Bas Dianda, 2019-03-01 Relegated to the back bench, the Seventies are often considered as no more than a bridge between the more momentous decades of the Sixties and Eighties. However, delving into this historical period, this book asks how significant were the Seventies in terms of political, economic and cultural developments. And to what extent did this decade change the course of the second half of the twentieth century? Seeking to uncover the extraordinary transformative capacity of this era, this book reveals how important events from this

decade marked history for many years to come Grounded in a history of developments this book investigates connections of causality or concomitant causality with events that were yet to come The first part of this volume traces the economic political and cultural trends that prevailed during this decade before turning its attention to the legacies of the Seventies and the events that changed the course of history and that are still having repercussions to this day From the oil crisis to microwaves this book offers an in depth and complete look at the Seventies that will not only be of interest to historians and economists but also sociologists and those intrigued by the evolution of political economic and cultural developments

Social History of Women in Ireland, 1870-1970 Rosemary Cullen Owens, 2005-10-25 A Social History of Women in Ireland is an important and overdue book that explores the role and status of women in Ireland from 1870 until 1970 looking at politics sociology marriage patterns religion education and work among other topics It provides a vital missing piece in the jigsaw of modern Irish history Using a combination of primary research and published works A Social History of Women in Ireland explores the role and status of women in Ireland It examines lifestyle options available to women during this period as well as providing an overview of the forces working for change within Irish society In bringing together a wide ranging portfolio of material A Social History of Women in Ireland 1870 1970 fills an important gap in the literature of the period by focusing on the experiences of Irish women a group so often overlooked in histories of revolutionary men and prominent politicians Crucial to a determination of the status of women throughout this period is an examination of the choices available regarding work marriage and emigration Rosemary Cullen Owens stresses at all times the importance of class and land ownership as key determinants for women's lives A decrease in home industries allied to increasing mechanisation on the farm resulted in a contraction of labour opportunities for rural women With the establishment of an independent farming class the distinguishing criteria for status in rural Ireland became ownership of land in which single minded patriarchal figures dominated In this context the position of women declined and a society evolved with a high pattern of late age marriages large numbers of unwed sons and daughters and an accepted pattern of emigration In the cities and towns the condition of lower working class women was especially distressing for most of the period with particular problems regarding housing health and sanitation Through the work of campaigning activists equal educational and political rights were eventually attained From the early 1900s there was some expansion in female employment in shops offices and industry but domestic service remained a high source of employment For middle class women employment opportunities were limited and usually disappeared on marriage The civil service a major employer in an economy that was generally un dynamic and stagnant operated a bar on married women for much of the period Rosemary Cullen Owens not merely traces these injustices but also the campaigns fought to right them She locates these struggles in the wider social context in which they took place This important book restores balance to the narrative of modern Irish history changing the focus from key male political

figures to society at large by unveiling the often forgotten story of the country's women over a tumultuous century of change. In doing so Rosemary Cullen Owens enriches our understanding of Irish history from 1870 to 1970. *A Social History of Women in Ireland*. Palmer, 2009-03-02 By breaking down classic films from the nineteen nineties such as *Forest Gump* and *Titanic* this book offers a reel to reel cultural analysis chronicling the concept of spin as a major sociopolitical persuasion strategy Making History Richard Flacks, 1988 This book explores the puzzling phenomenon of new veiling practices among lower middle class women in Cairo Egypt. Although these women are part of a modernizing middle class they also voluntarily adopt a traditional symbol of female subordination. How can this paradox be explained? An explanation emerges which reconceptualizes what appears to be reactionary behavior as a new style of political struggle as accommodating protest. These women, most of them clerical workers in the large government bureaucracy, are ambivalent about working outside the home, considering it a change which brings new burdens as well as some important benefits. At the same time they realize that leaving home and family is creating an intolerable situation of the erosion of their social status and the loss of their traditional identity. The new veiling expresses women's protest against this. MacLeod argues that the symbolism of the new veiling emerges from this tense subcultural dilemma involving elements of both resistance and acquiescence.
