The First Suburbs Residential Communities On The Boston Periphery 1815 1860:

The First Suburbs Henry C. Binford, **Boston's "changeable Times"** Michael Holleran, 2001 He describes subdivision design innovations and the use of deed restrictions limits on building heights and neighborhood zoning protection to control ever increasing urban growth **The Triumph of Ethnic Progressivism** James J. CONNOLLY, James J

Connolly, 2009-06-30 Progressivism James Connolly shows us was a language and style of political action available to a wide range of individuals and groups A diverse array of political and civic figures used it to present themselves as leaders of a communal response to the growing power of illicit interests and to the problems of urban industrial life As structural reforms weakened a ward based party system that helped mute ethnic conflict this new formula for political mobilization grew more powerful Its most effective variation in Boston was an ethnic progressivism that depicted the city's public life as a clash between its immigrant majority the people and a wealthy Brahmin elite the interests As this portrayal took hold Bostonians came to view their city as a community permanently beset by ethnic strife In showing that the several reform visions that arose in Boston included not only the progressivism of the city's business leaders but also a series of ethnic progressivisms Connolly offers a new approach to urban public life in the early twentieth century He rejects the assumption that ethnic politics was machine politics and employs both institutional and rhetorical analysis to reconstruct the inner workings of neighborhood public life and the social narratives that bound the city together The result is a deeply textured picture that differs sharply from the traditional view of machine reform conflict **The Richardson Light Guard of Wakefield,**

Massachusetts Barry M. Stentiford, 2013-05-03 This book traces the history of the Richardson Light Guard of Wakefield Massachusetts from its origins in 1851 until its end in 1975 What had been an institution of community members and local elites passed to town then state and finally federal government During the same period Wakefield evolved from an agrarian town to a manufacturing town and finally to a bedroom suburb ending the practice of a handful of local elites ruling the town unchallenged Though the rise of the National Guard was generally positive for some militia companies inclusion in the National Guard weakened vital bonds with their communities In the 19th century the Richardson Light Guard thrived under generous patrons a supportive town and a relatively wealthy state government After becoming part of the National Guard in 1916 the links with its home community steadily weakened finally breaking during World War II After the war the National Guard company had few links to Wakefield and was reorganized out of existence in 1975 **The New England Village**

Joseph S. Wood, 2002-09-24 New England colonists Wood argues brought with them a cultural predisposition toward dispersed settlements within agricultural spaces called towns and villages Rarely compact in form these communities did however encourage individual landholding By the early nineteenth century town centers where meetinghouses stood began to develop into the center villages we recognize today Just as rural New England began its economic decline Wood shows romantics associated these proto urban places with idealized colonial village communities as the source of both village form

and commercial success *Selling Culture* Richard Malin Ohmann,1996 Surveys the new practices of advertising mass distribution of goods and the birth of the inexpensive mass audience magazine at the end of the 19th century and their role in the creation of the American professional managerial class Focuses on magazine publishing careers of key personalities in the publishing world and the role of fiction in the magazines For students and general readers Annotation copyright by Book News Inc Portland OR *Nonprofit Neighborhoods* Claire Dunning,2022-06-23 An exploration of how and why American city governments delegated the responsibility for solving urban inequality to the nonprofit sector Nonprofits serving a range of municipal and cultural needs are now so ubiquitous in US cities it can be difficult to envision a time when they were more limited in number size and influence Turning back the clock however uncovers both an illuminating story of how the nonprofit sector became such a dominant force in American society as well as a troubling one of why this growth occurred alongside persistent poverty and widening inequality Claire Dunning s book connects these two stories in histories of race democracy and capitalism revealing how the federal government funded and deputized nonprofits to help individuals in need and in so doing avoided addressing the structural inequities that necessitated such action in the first place Nonprofit Neighborhoods begins after World War II when suburbanization segregation and deindustrialization inaugurated an era of urban policymaking that applied private solutions to public problems Dunning introduces readers to the activists corporate executives and politicians who advocated addressing poverty and racial exclusion through local organizations while also raising provocative questions about the politics and possibilities of social change The lessons of Nonprofit Neighborhoods exceed the bounds of Boston where the story unfolds providing a timely history of the shift from urban crisis to urban renaissance for anyone concerned about American inequality past present or future **Historic Real Estate** Whitney Martinko,2020-05-15 A detailed study of early historical preservation efforts between the 1780s and the 1850s In Historic Real Estate Whitney Martinko shows how Americans in the fledgling United States pointed to evidence of the past in the world around them and debated whether and how to preserve historic structures as permanent features of the new nation s landscape From Indigenous mounds in the Ohio Valley to Independence Hall in Philadelphia from Benjamin Franklin s childhood home in Boston to St Philip s Episcopal Church in Charleston South Carolina from Dutch colonial manors of the Hudson Valley to Henry Clay s Kentucky estate early advocates of preservation strove not only to place boundaries on competitive real estate markets but also to determine what should not be for sale how consumers should behave and how certain types of labor should be valued Before historic preservation existed as we know it today many Americans articulated eclectic and sometimes contradictory definitions of architectural preservation to work out practical strategies for defining the relationship between public good and private profit In arguing for the preservation of houses of worship and Indigenous earthworks for example some invoked the public interest of their stewards to strengthen corporate control of these collective spaces Meanwhile businessmen and political partisans adopted preservation of commercial sites to create opportunities for

and limits on individual profit in a growing marketplace of goods And owners of old houses and ancestral estates developed methods of preservation to reconcile competing demands for the seclusion of and access to American homes to shape the ways that capitalism affected family economies In these ways individuals harnessed preservation to garner political economic and social profit from the performance of public service Ultimately Martinko argues by portraying the problems of the real estate market as social rather than economic advocates of preservation affirmed a capitalist system of land development by promising to make it moral
