Sister Circle Black Women And Work:

Sister Circle Sharon Harley, 2002 *Sister Circle Black Women and Work* is the end product of almost a decade's commitment made to each other by a small group of interdisciplinary Black and one white Sister Scholars at the University of Maryland in 1993. Still Working While Black Antione D. Tomlin, 2023-06-01 Just as the first edited volume of this book *Working While Black The Untold Stories of Student Affairs Practitioners* examined student affairs professionals' narratives and how they navigate their professional experiences, this one has a similar aim. This new volume birthed from the overwhelmingly positive feedback and massive interest from other Black professionals needing to share and tell their stories. So with that in mind, a goal of this book is to share more of the untold stories of Black student affairs practitioners by Black student affairs practitioners. Tomlin 2022 p X This book crafted from an asset-based approach, chapter authors share the challenges and opportunities they have experienced due to being a Black while working as a student affairs practitioner. Additionally, chapter authors provide poignant advice on how current and potential student affairs professionals can successfully navigate the field. Authors within the book are from various student affairs areas and have a wide range of knowledge, expertise, and lived experiences. Such areas include Greek Life, Residence Life, Athletics, International Student Support, Diversity, Access, Career Services, Financial aid, Enrollment, and more. Given the depth and breadth of experiences and expertise, each chapter will provide poignant suggestions for student affairs practitioners across the nation and institutions looking to understand these experiences to support their employees better. College campuses and spaces operate as models of the greater society. Therefore, all of the challenges and issues of racism, discrimination, and anti-Blackness are present. Rankin et al 2017 While students experience these challenges and issues first hand, so do the folks hired to support students. The student affairs practitioners Kanagala and Oliver 2019 claimed that for institutions of higher education to be equitable and inclusive, college administrators, faculty, and staff, including student affairs professionals, must attend to the needs of students, especially students with multiple marginalized identities. p 410 I argue the same is accurate in creating more equitable and inclusive spaces for student affairs employees. Student affairs practitioners' Blackness must be accepted to move toward equity and inclusivity. So this book roars, student affairs and white colleagues, please respect our Blackness. Our Blackness is a part of our story, not yours. Tomlin 2022 p 176 Higher education institutions can learn much from the stories shared in this book that can inform the recruitment and retention of Black professionals. Thus *Still Working While Black The Untold Stories of Student Affairs Practitioners* is a must-read for all higher education professionals and institutions looking for strategies to support Black student affairs practitioners. Upbuilding Black Durham Leslie Brown, 2009-11-17 In the 1910s, both W. E. B. Du Bois and Booker T. Washington praised the Black community in Durham, North Carolina, for its exceptional race progress. Migration, urbanization, and industrialization had turned Black Durham from a post-Civil War liberation community into the capital of the Black middle class. African Americans owned and operated mills, factories,

churches schools and an array of retail services shops community organizations and race institutions Using interviews narratives and family stories Leslie Brown animates the history of this remarkable city from emancipation to the civil rights era as freedpeople and their descendants struggled among themselves and with whites to give meaning to black freedom Brown paints Durham in the Jim Crow era as a place of dynamic change where despite common aspirations gender and class conflicts emerged Placing African American women at the center of the story Brown describes how black Durham s multiple constituencies experienced a range of social conditions Shifting the historical perspective away from seeing solidarity as essential to effective struggle or viewing dissent as a measure of weakness Brown demonstrates that friction among African Americans generated rather than depleted energy sparking many activist initiatives on behalf of the black community

Unorganized Women Jane Greer,2023-02-14 Across a range of industrial domestic and agricultural sites Greer shows how repetitive discursive performances served as rhetorical tools as women workers sought to rescript power relations in their workplaces and to resist narratives about their laboring lives The case studies reveal noteworthy patterns in how these women s words helped to construct the complex web of class relations in which they were enmeshed Rather than a teleological narrative of economic empowerment over the course of a century Unorganized Women speaks to the enduring obstacles low and no wage women face their creativity and resilience in the face of adversity and the challenges that impede the creation of meaningful coalitions By focusing on repetitive rhetorical labor this book affords a point of entry for analyzing the discursive productions of a range of women workers and for constructing a richer history of women s rhetoric in the United States

Women and Work Christine Leiren Mower,Susanne Weil,2010-08-11 While issues surrounding women and work may be more subtle today than in the past problems of workplace equity child rearing and domestic labor pose problems of balance that continue to evade solution as women today face substantial shifts in the meanings and practices of marriage work and reproduction amid a globalized economy The essays in Women and Work The Labors of Self Fashioning explore how nineteenth and twentieth century US and British writers represent the work of being women where work is defined broadly to encompass not only paid labor inside and outside the home but also the work of performing femininity and

domesticity How did nineteenth and twentieth century US and British writers revise then contemporary social assumptions about who should be performing work and for what purpose How fully did these writers perceive the class implications of their arguments for taking jobs outside the home How does work both inside and outside the home contribute to female identity and conversely how does it promote what legal theorist Kenji Yoshino terms the demands of covering women s strategic use of stereotypes of femininity and masculinity to succeed in the marketplace In articles appropriate for both upper level undergraduate and graduate students in literature and literary history women s studies feminist and gender studies contributors engage these questions covering both canonical and popular middlebrow nineteenth and twentieth century writers such as Gilman Cather Alcott Schreiner Wharton Le Sueur Gissing Wood Lewis and Mitchell Women and Work will also interest scholars concerned with this developing discourse

Black Women in the Ivory Tower, 1850-1954 Stephanie Y. Evans, 2016-12-01 Evans chronicles the stories of African American women who struggled for and won access to formal education beginning in 1850 when Lucy Stanton a student at Oberlin College earned the first college diploma conferred on an African American woman In the century between the Civil War and the civil rights movement a critical increase in black women s educational attainment mirrored unprecedented national growth in American education Evans reveals how black women demanded space as students and asserted their voices as educators despite such barriers as violence discrimination and oppressive campus policies contributing in significant ways to higher education in the United States She argues that their experiences ideas and practices can inspire contemporary educators to create an intellectual democracy in which all people have a voice Among those Evans profiles are Anna Julia Cooper who was born enslaved yet ultimately earned a doctoral degree from the Sorbonne and Mary McLeod Bethune founder of Bethune Cookman College Exposing the hypocrisy in American assertions of democracy and discrediting European notions of intellectual superiority Cooper argued that all human beings had a right to grow Bethune believed that education is the right of all citizens in a democracy Both women s philosophies raised questions of how human and civil rights are intertwined with educational access scholarly research pedagogy and community service This first complete educational and intellectual history of black women carefully traces quantitative research explores black women s collegiate memories and identifies significant geographic patterns in America s institutional development Evans reveals historic perspectives patterns and philosophies in academia that will be an important reference for scholars of gender race and education

Ethnopornography Pete Sigal, Zeb Tortorici, Neil L. Whitehead, 2019-12-13 With topics that span the sixteenth century to the present in Latin America the United States Australia the Middle East and West Africa the contributors show how ethnopornography the eroticized observation of the Other for supposedly scientific or academic purposes is fundamental to the creation of race colonialism and archival and ethnographic knowledge
