Masculinity in Contemporary Science Fiction by Men Sara Martín, 2025-05-30 Masculinity in Contemporary Science Fiction by Men No Plans for the Future is the first comprehensive study of the self representation of men in SF novels published in the twenty first century by male authors Exploring a broad selection of writers and works the fourteen chapters present a panoramic overview of men s contributions to current SF and explore their slow but noticeable progress in the representation of gender The impact of feminism and gender studies and the demands of readers have profoundly transformed men s SF which now presents far more caring and vulnerable male characters The old stereotypes are being replaced by a collective reflection on how men and masculinity are changing though the lack of a common agenda results in novels that while exciting and often challenging sometimes miss the chance to imagine a better anti patriarchal pro feminist future for men and for all human beings The authors analysed include Robert Charles Wilson Geoff Ryman Samuel R Delany Richard K Morgan John Scalzi Iain M Banks Ernest Cline James S A Corey Colson Whitehead Andy Weir Daniel H Wilson Ian McDonald Yoon Ha Lee Tade Thompson Neal Stephenson and Kim Stanley Robinson **Narrating the Mesh** Marco

Caracciolo, 2021-02-26 A hierarchical model of human societies relations with the natural world is at the root of today s climate crisis Narrating the Mesh contends that narrative form is instrumental in countering this ideology Drawing inspiration from Timothy Morton s concept of the mesh as a metaphor for the human nonhuman relationship in the face of climate change Marco Caracciolo investigates how narratives in genres such as the novel and the short story employ formal devices to effectively channel the entanglement of human communities and nonhuman phenomena How can narrative undermine linearity in order to reject notions of unlimited technological progress and economic growth What does it mean to say that nonhuman materials and processes from contaminated landscapes to natural evolution can become characters in stories And conversely how can narrative trace the rising awareness of climate change in the thick of human characters mental activities These are some of the questions Narrating the Mesh addresses by engaging with contemporary works by Ted Chiang Emily St John Mandel Richard Powers Jeff VanderMeer Jeanette Winterson and many others Entering interdisciplinary debates on narrative and the Anthropocene this book explores how stories can bridge the gap between scientific models of the climate and the human scale world of everyday experience powerfully illustrating the complexity of the ecological crisis at multiple levels *The American Police Novel* Leroy Lad Panek, 2015-09-17 The American police novel
