

THE
*Skeptical
Sublime*

A sepia-toned landscape painting of a river valley. In the center, a large, light-colored house with a chimney sits on a grassy bank. To the left, a large, dark, leafy tree stands prominently. The river flows through the valley, with several small boats or structures visible in the distance. The sky is filled with soft, white clouds. The overall mood is serene and picturesque, typical of 18th or 19th-century landscape art.

Skeptical Sublime Aesthetics Ideology In Pope And The Tory Satirists:

The Skeptical Sublime James Noggle, 2001 This title examines the role of scepticism in initiating the idea of the sublime in early modern British literature James Noggle draws on philosophy intellectual history and critical theory to illuminate the aesthetic ideology of Pope Swift Dryden and Rochester among other important writers of the period *The Skeptical Sublime* compares the view of sublimity presented by these authors with that of the dominant liberal tradition of 18th century criticism to offer a new understanding of how these writers helped construct proto aesthetic categories that stabilized British culture after years of civil war and revolution while at the same time their scepticism allowed them to express ambivalence about the emerging social order

The Skeptical Sublime James Noggle, 2001-11-01 This book argues that philosophical skepticism helps define the aesthetic experience of the sublime in late seventeenth and eighteenth century British literature especially the poetry of Alexander Pope Skeptical doubt appears in the period as an astonishing force in discourse that cannot be controlled doubt's boundless Sea in Rochester's words and as such is consistently seen as affiliated with the sublime itself emerging as an important way to conceive of excessive power in rhetoric nature psychology religion and politics This view of skepticism as a force affecting discourse beyond its practitioners' control links Noggle's discussion to other theoretical accounts of sublimity especially psychoanalytic and ideological ones that emphasize the sublime's activation of unconscious personal and cultural anxieties and contradictions But because *The Skeptical Sublime* demonstrates the sublime's roots in the epistemological obsessions of Pope and his age it also grounds such theories in what is historically evident in the period's writing The skeptical sublime is a concrete primary instance of the transformation of modernity's main epistemological liability its loss of certainty into an aesthetic asset retaining however much of the unsettling irony of its origins in radical doubt By examining the cultural function of such persistent instability this book seeks to clarify the aesthetic ideology of major writers like Pope Swift Dryden and Rochester among others who have been seen sometimes confusingly as both reactionary and supportive of the liberal Whig model of taste and civil society increasingly dominant in the period While they participate in the construction of proto aesthetic categories like the sublime to stabilize British culture after decades of civil war and revolution their appreciation of the skepticism maintained by these means of stabilization helps them express ambivalence about the emerging social order and distinguishes their views from the more providentially assured appeals to the sublime of their ideological opponents

Animality in British Romanticism Peter Heymans,2012 The scientific political and industrial revolutions of the Romantic period transformed the status of humans and redefined the concept of species This book examines literary representations of human and non human animality in British Romanticism The book s novel approach focuses on the role of aesthetic taste in the Romantic understanding of the animal Concentrating on the discourses of the sublime the beautiful and the ugly Heymans argues that the Romantics aesthetic views of animality influenced and were influenced by their moral scientific political and theological judgment The study reveals how feelings of environmental alienation and disgust played a positive moral role in animal rights poetry why ugliness presented such a major problem for Romantic period scientists and theologians and how in political writings the violent yet awe inspiring power of exotic species came to symbolize the beauty and terror of the French Revolution Linking the works of Wordsworth Blake Coleridge Byron the Shelleys Erasmus Darwin and William Paley to the theories of Immanuel Kant and Edmund Burke this book brings an original perspective to the fields of ecocriticism animal studies and literature and science studies

Celestial Aspirations Philip Hardie,2022-03 A unique look at how classical notions of ascent and flight preoccupied early modern British writers and artists Between the late sixteenth century

and early nineteenth century the British imagination poetic political intellectual spiritual and religious displayed a pronounced fascination with images of ascent and flight to the heavens *Celestial Aspirations* explores how British literature and art during that period exploited classical representations of these soaring themes through philosophical scientific and poetic flights of the mind the ascension of the disembodied soul and the celestial glorification of the ruler From textual reachings for the heavens in Spenser Marlowe Shakespeare Donne and Cowley to the ceiling paintings of Rubens Verrio and Thornhill Philip Hardie focuses on the ways that the history ideologies and aesthetics of the postclassical world received and transformed the ideas of antiquity In England narratives of ascent appear on the grandest scale in Milton's *Paradise Lost* an epic built around a Christian plot of falling and rising and one of the most intensely classicizing works of English poetry Examining the reception of flight up to the Romanticism of Wordsworth and Tennyson Hardie considers the Whig sublime as well as the works of Alexander Pope and Edward Young Throughout he looks at motivations both public and private for aspiring to the heavens as a reward for political and military achievement on the one hand and as a goal of individual intellectual and spiritual exertion on the other *Celestial Aspirations* offers an intriguing look at how creative minds reworked ancient visions of time and space in the early modern era

Sublimity and Skepticism in Montaigne and Milton David Louis Sedley, 2005 Boldly investigates the relationship between the sublime as an aesthetic category and the emergence of skepticism as a philosophical problem
