How to Speak in Public Grenville Kleiser, 1906 **SPEAKING OUT** Linde Zingaro, 2009-06-15 Linde Zingaro a lifelong social service worker and activist interviewed many colleagues who chose to speak out and the consequences that befell them for doing so She relays their stories here as well as her own and uses these experience to create a blueprint to help other workers activists and community researchers to speak freely in the interests of a more just society Describing Ourselves Garry Hagberg, 2008-05-22 The voluminous writings of Ludwig Wittgenstein contain some of the most profound reflections of recent times on the nature of the human subject and self understanding the human condition philosophically speaking Describing Ourselves mines those extensive writings for a conception of the self that stands in striking contrast to its predecessors as well as its more recent alternatives More specifically the book offers a detailed discussion of Wittgenstein's later writings on language and mind as they hold special significance for the understanding and clarification of the distinctive character of self descriptive or autobiographical language Garry L Hagberg undertakes a ground breaking philosophical investigation of selected autobiographical writings among the best examples we have of human selves exploring themselves as they cast new and special light on the critique of mind body dualism and its undercurrents in particular and on the nature of autobiographical consciousness more generally The chapters take up in turn the topics of self consciousness what Wittgenstein calls the inner picture mental privacy and the picture of metaphysical seclusion the very idea of our observation of the contents of consciousness first person expressive speech reflexive or self directed thought and competing pictures of introspection the nuances of retrospective self understanding person perception and the corollary issues of self perception itself an interestingly dangerous phrase self defining memory and the therapeutic conception of philosophical progress as it applies to all of these issues The cast of characters interwoven throughout this rich discussion include in addition to Wittgenstein centrally Augustine Goethe Dostoevsky Kierkegaard Iris Murdoch Donald Davidson and Stanley Cavell among others Throughout conceptual clarifications concerning mind and language are put to work in the investigation of issues relating to self description and in novel philosophical readings of autobiographical texts

Self Sufficiency: Getting Back To Basics Terence A. Williams, 2013-08-25 As things become more and more expensive and various operations are seemingly becoming more interdependent many seek to be self sufficient in some way and not be plugged into the grid It is something that can be carried out quite easily and effectively once one has the necessary tools on hand to get the job done One great tool to have on hand is Self Sufficiency Getting Back To Basics It can teach the reader how they can become self sufficient with certain practices For instance instead of going to the market every week for fresh fruits and vegetables it can be grown at home If the space permits small animals like chickens can be reared as well Another thing that can be modified is finances Many persons make the mistake daily of things that they should and should not do and end up getting deeper into debt The author gives those viable solutions to self sufficiency It is up to the reader to use it
