Dan-Cohen, 2009-01-10 In these writings by one of our most creative legal philosophers Meir Dan Cohen explores the nature of the self and its response to legal commands and mounts a challenge to some prevailing tenets of legal theory and the neighboring moral political and economic thought The result is an insider's critique of liberalism that extends contemporary liberalism's Kantian strand combining it with postmodernist ideas about the contingent and socially constructed self to build a thoroughly original perspective on some of the most vital concerns of legal and moral theory Dan Cohen looks first at the ubiquity of legal coercion and considers its decisive impact on the nature of legal discourse and communication on law's normative aspirations and claim to obedience and on the ideal of the rule of law He moves on to discuss basic values stressing the preeminence of individual identity and human dignity over the more traditional liberal preoccupations with preference based choice and experiential harm Dan Cohen then focuses more directly on the normative ramifications of the socially constructed self Fundamental concepts such as responsibility and ownership are reinterpreted to take account of the constitutive role that social practices particularly law and morality play in the formation of the self Throughout Dan Cohen draws on a uniquely productive mix of philosophical traditions and subjects blending the methods of analytic philosophy with the concerns of Continental philosophers to reconceive the self and its relation to ethics and the law     **The Juvenile Sex**
