Special Kids For Special Treatment:

Special Kids for Special Treatment? Helen Phtiaka, 2018-09-03 First published in 1997 This book compares and contrasts the experiences of deviant pupils in a mainstream school with that of those in a special unit for pupils with behavioural problems The author's aims are to i evaluate the differences between the behaviour of deviant boys and girls within the mainstream education system with those without and ii justify the criteria for transferring deviant pupils to special units Her research shows that there is no uniformity in the deviant behaviour of pupils in either situation In fact there are more similarities in the behaviour of pupils across the dividing line than pupils in the same institution Such findings raise questions about the apparent arbitrary nature of some transferral decisions and in the longer term the whole logic of separate schooling for pupils who are considered by some to be a problem At a time when market forces and competition have distracted the schools attention away from the needs of the individual pupil this book stresses the need for changes at all levels which will make school relevant to the lives of all pupils

THINGS I WANT MOST **Alienation From Schooling (1986)** Peter Fensham, 2018-01-17 Originally published in 1986 this book presents three full case studies of secondary school communities in Australia one city school in a working class area one community school serving a wide more rural area and a school with an academic tradition in the suburbs of a large city The material is drawn together to discuss and describe the issues revealed by the studies these include discipline boredom staff student relations and the relevance of school work to the outside world The book includes interviews with both students and teachers recording the reactions of students to the way they are being taught and their views on whether it is worth working hard at school when there is no certainty of a job at the end of it The philosophy of the teachers emerges in the interviews as do their views on the prospect of changing students attitudes from those acquired at home and on the need for vocational rather than academic courses What also comes out in the interviews is their realistic attitudes to their students future job prospects and their views on alternative courses which could prepare the pupils for life rather than for a specific job The book also includes an account of how the case studies were undertaken and reported The methodological chapters set out some of the dilemmas and the possibilities in the study of such complex human situations *Policy, Experience and Change: Cross-Cultural Reflections on Inclusive Education* Len Barton, Felicity Armstrong, 2007-02-08 One of the qualities of this book is the authors engagement with personal experience This is part of the contextualising of issues within particular cultural historical and social contexts I shall begin the Foreword in the same spirit by recounting an experience that is still a foundation for analysing and developing my own understanding This happened some twenty five years ago I was going with Vic Finkelstein a disabled academic and activist to a seminar on a hot summer s day making our way across the Open University campus in Milton Keynes The seminar was entitled The Problems of Integration Making conversation with Vic I suggested that the seminar sounded interesting His response was immediate and direct no it was not interesting the problems for disabled people were the problems of segregation not the problems of integration As he did often for me Vic turned understanding on its head and his seemingly simple observation carried ever increasing ripples of critical questioning Reading of international developments and of the specifics of education policy provision and practice across the widely differing circumstances found in different nation states from the majority as well as the minority world challenges deepens and confirms understanding There are not surprisingly considerable diversities and complexities and recurring themes that speak to both and fire critical questioning The complexities pretty quickly give food for thought and ring bells of caution The first for me is the lack of digestion the impossibility of comprehensive knowledge [Seven Keys to Unlock Autism](#) Elaine Hall, Diane Isaacs, 2011-09-13 The acclaimed approach to helping children with autism profiled in the award winning documentary Autism The Musical This groundbreaking book outlines seven integrated keys for educators and parents to make meaningful connections with children on the autism spectrum The book is based on the unique approach used by Elaine Hall and Diane Isaacs of The Miracle Project a musical theater program for children with autism and their peers and
