Migration Mirjana Lozanovska, 2015-12-22 *Ethno Architecture and the Politics of Migration* explores the interface between migration and architecture. Cities have been substantially affected by transnational migration but the physical manifestations of migration in architecture and its effect on streetscape, neighbourhood and city have so far been understudied. This contributed volume examines how migrants interact with and adapt and construct new architecture. Looking at the physical urban and cultural impact of these changes on a variety of sites, the authors explore architecture as an identity category and investigate what buildings and places associated with migration tell us about central questions of belonging, culture, community and home in regions such as North America, Australia and the UK. An important contribution to debates on place, identity and the transformation of places as a result of mobility and globalised economies in the 21st century.

Selling EthniCity Olaf Kaltmeier, 2016-04-01 Bringing together a multidisciplinary team of scholars, this book explores the importance of ethnicity and cultural economy in the post-Fordist city in the Americas. It argues that cultural, political and economic elites make use of cultural and ethnic elements in city planning and architecture in order to construct a unique image of a particular city and demonstrates how the use of ethnicized cultural production such as urban branding based on local identities by the economic elite raises issues of considerable concern in terms of local identities as it deploys a practical logic of capital exchange that can overcome forms of cultural resistance and strengthen the hegemonic colonization of everyday life. At the same time, it shows how ethnic communities are able to use ethnic labelling of cultural production, ethnic economy or ethno tourism facilities in order to change living conditions and to empower its members in ways previously impossible. Of wide-ranging interest across academic disciplines, this book will be a useful contribution to Inter-American studies.

Performance, Space, Utopia S. Jestrovic, 2012-11-13 Over 20 years after the war in Yugoslavia, this book looks back at its two most iconic cities and the phenomenon of exile emerging as a consequence of living in them in the 1990s. It uses examples ranging from street interventions to theatre performances to explore the making of urban counter sites through theatricality and utopian performatives.

Temporary Cities Yasser Elsheshtawy, 2019-03-28 Are Arab Gulf cities the likes of Dubai, Abu Dhabi or Doha on their way to extinction? Is their fate obsolescence? Or are they the model for our urban future? Can a city whose very existence is predicated on an imported labour force who build and operate these gleaming urban centres remain a viable urban entity? Could the transient nature of this urban model, its temporariness and precariousness also be its doom? In this wide-ranging book, Yasser Elsheshtawy takes on these tough but necessary questions, aiming to examine the very nature of the Arab Gulf city and whether it can sustain its existence throughout the twenty-first century. Having lived in the region for more than two decades, he researched its marginalized and forgotten urban settings, trying to understand how a temporary people can live in a place that inherently refuses to give them the possibility of becoming citizens. By being embedded in these spaces and reconciling their presence with his own personal encounters with transience, he discovered a resilience and defiance against the forces of the hegemonic city. Using subtle acts of resistance, these

temporary inhabitants have found a way to sustain and create a home to set down roots in the midst of a fast changing and transient urbanity Their stories recounted in this book through case studies and in depth analysis give hope to cities everywhere Transience is not a fait accompli rather the actions of citizens residents and migrants even in the highly restrictive spaces of the Gulf show us that the future metropolis may very well not turn out to be a utopia of the few and a dystopia of the many This could be an illusion but it is a necessary illusion because the alternative is irrelevance The Changing Role of the Korean State Hong Yung Lee, Sunil Kim, 2016-10-20 How and why has the Korean state changed its way of handling the society and its markets over the past two decades The Changing Role of the Korean State finds that the explosion of contentious civil society after democratization coeval with the outbreak of the financial crisis following rapid economic growth are closely associated with the decline of developmentalism Despite these profound changes however the Korean state has not totally relinquished its control over the society and the market Rather although its methods have been altered it remains to be highly interventionist and regulatory in nature The state continues to use its influence to restructure the socio economic system and rationally manage spatial arrangements The book amply demonstrates the residual legacy of the developmental state in Korea and it is unlikely that Korea will ever accept the western liberalist concept of a state which limits its function to that of a referee for the spontaneous operation of the civil society and the market The contributors of this edited volume delineate the shifting role of the Korean state from the developmental state which led economic development by guiding investment in strategic industries through various means to a slightly subtler role as a regulator supervising the operation of the market in the changing economic environment Individual chapters presented here address this changing but nonetheless vital role that the state plays in managing the variety of modern socio economic life in South Korea Hong Yung Lee is Professor Emeritus of Political Science at University of California Berkeley Sunil Kim is Assistant Professor of International Studies at Kyung Hee University A Paradise of Small Houses Max Podemski, 2024-03-26 From the Haitian style shotgun houses of the 19th century to the lavish high rises of the 21st century a walk through the streets of America's neighborhoods that reveals the rich history and future of urban housing The Philadelphia row house The New York tenement The Boston triple decker Every American city has its own iconic housing style structures that have been home to generations of families and are symbols of identity and pride Max Podemski an urban planner for the city of Los Angeles and lifelong architecture buff has spent his career in and around these buildings Deftly combining his years of experience with extensive research Podemski walks the reader through the history of our dwelling spaces and offers a blueprint for how time tested urban planning models can help us build the homes the United States so desperately needs In A Paradise of Small Houses Podemski charts how these dwellings have evolved over the centuries according to the geography climate population and culture of each city He introduces the reader to styles like Chicago's prefabricated workers cottages and LA's car friendly dingbats illuminating the human stories behind each city's iconic

housing type Through it all Podemski interrogates the American values that have equated home ownership with success and led to the US housing crisis asking How can we look to the past to build the homes neighborhoods and cities of the future that our communities deserve Magical Realism and the History of the Emotions in Latin America Jerónimo Arellano,2015-05-21 Iconoclastic in spirit Magical Realism and the History of the Emotions in Latin America is the first study of affect and emotion in magical realist literature Against the grain of a vast body of scholarship it argues that magical realism is neither exotic commodity nor postcolonial resistance but an art form fueled by a search for spaces of wonder in a disenchanted world Linking the rise and fall of magical realism and kindred narrative forms to the shifting value of wonder as an emotional experience this thought provoking study proposes a radical new approach to canonical novels such as One Hundred Years of Solitude Received as one of the most convincing manifestations of the turn to affect in contemporary Latin American critical thought Magical Realism and the History of the Emotions draws on affect theory the history of emotions and new materialism to reframe key questions in Latin American literature and culture *The Comprehensive Greece Travel Guide 2025* Rowan Miles,2025-03-03 The Comprehensive Greece Travel Guide 2025 Must See Ancient Sites Hidden Gems Insider Tips for an Unforgettable Adventure Discover the Greece that tourists miss and locals treasure in this definitive 2025 travel companion Dreaming of standing where ancient philosophers once debated swimming in secret coves known only to locals or savoring authentic Greek cuisine at family run tavernas This meticulously researched guide transforms your Greek adventure from ordinary to extraordinary Perfect for travelers who want to Explore beyond the typical tourist traps and Instagram hotspots Discover both iconic landmarks and hidden treasures most visitors never see Navigate Greece confidently with practical up to date information for 2025 Experience authentic Greek culture through meaningful local interactions Plan the perfect itinerary whether you have 7 days or 3 weeks Inside you ll find comprehensive coverage of Athens Santorini Mykonos Crete and dozens more destinations with insider knowledge that only comes from decades of exploration From the whitewashed villages of the Cyclades to the rugged mountains of Zagori this guide reveals Greece in all its magnificent diversity Detailed sections cover ancient archaeological sites pristine beaches mountain villages culinary experiences and practical matters like transportation accommodations for every budget and essential Greek phrases The themed itineraries section helps you craft the perfect trip based on your interests whether you re seeking history romance family fun or adventure Written by seasoned traveler Rowan Miles whose passion for authentic Greek experiences shines through every page this isn t just another travel guide it s your passport to the real Greece that lies beyond the tourist facade Don t settle for an ordinary Greek vacation when extraordinary adventures await Get a copy to begin your unforgettable Greek odyssey today Kristeva Stacey Keltner,2013-05-03 Julia Kristeva is one of the most creative and prolific writers to address the personal social and political trials of our times Linguist psychoanalyst social and cultural theorist and novelist Kristeva s broad interdisciplinary appeal has impacted areas across the humanities and social sciences S K Keltner s book

provides the first comprehensive introduction to the breadth of Kristeva's work. In an original and insightful analysis, Keltner presents Kristeva's thought as the coherent development and elaboration of a complex multidimensional threshold constitutive of meaning and subjectivity. The threshold indicates Kristeva's primary sphere of concern: the relationship between the speaking being and its particular social and historical conditions, and Kristeva's interdisciplinary approach to Kristeva's vision. Keltner argues that this opens a unique perspective within contemporary discourses attentive to issues of meaning, subjectivity, and social and political life. By emphasizing Kristeva's attention to the permeable borders of psychic and social life, Keltner offers innovative readings of the concepts most widely discussed in Kristeva scholarship: the semiotic and symbolic, abjection, love, and loss. She also provides new interpretations of some of the most controversial issues surrounding Kristeva's work, including Kristeva's conceptions of intimacy, social and cultural difference, and Oedipal subjectivity, by contextualizing them within her methodological approach and oeuvre as a whole. *Julia Kristeva: Thresholds* is an engaging and accessible introduction to Kristeva's theoretical and fictional works that will be of interest to both students and scholars across the humanities and social sciences.
