Central Intelligence Agency, 1962 **The Great American Speech** Stephen Fender, 2015-08-15 The land of the free and home of the brave America is also the country in which this truth is supposedly self evident that we are all equal

It may not seem so at first but there is a startling gap between these two visions of America one more evident in today's fiercely partisan politics that pit free enterprise against social justice In this fascinating look at America's most memorable speeches which have become monuments in national memory Stephen Fender explores the ways American speechcraft has kept alive a dream of equality and cooperation in the face of economic forces that have favored competition and the pursuit to get ahead Beginning with the early American settlers and the two contrasting visions they set out one competitive the other cooperative Fender traces the development of the latter through a series of dramatic addresses He examines the inaugural speeches of early presidents such as John Adams and Thomas Jefferson moving to Abraham Lincoln's arguments at once logical and passionate for maintaining the Union and then on to the twentieth century's great orators such as John F Kennedy and Martin Luther King Jr He also looks at the notion of the great American speech in popular culture exploring both the usual places such as movie courtroom scenes where it pops up as well as its unexpected ubiquity in adventure films thrillers or any story where equality and justice come under threat Through his exploration of great speeches Fender paints the picture of two simultaneous and free standing visions of American identity offering a sophisticated look at American ideological history

America in Quotations Bahman Dehgan, 2015-08-31 America is a land of wonders in which everything is in constant motion and every change seems an improvement No natural boundary seems to be set to the efforts of man and in his eyes what is not yet done is only what he has not yet attempted to do Alexis de Tocqueville Democracy in America 1835 Americans will pay a big price for an invention that will help them save time they don't know what to do with Anonymous This collection of quotations both serious and humorous about America is divided into 19 main topics The Nation The American People Places Nature Mind The Individual Human Relations Social Life Culture and Media Literature and Language Religion and Belief Past and Future History War and the Military International Relations Politics and Government Law and Order Business and Economy and Food Each main topic is divided into subtopics for example Culture and Media has these Architecture Art Charlie Chaplin Dance Fashion Intellectuals Marilyn Monroe Movies Music Elvis Presley and Television The author attributes each quote to its speaker author or composer and wherever possible provides the date of the quote and the name of the work in which it was published In the case of uncertainty about the exact date of a quote the author provides the birth and death dates of the person to whom the quote is attributed Also included are a keyword and subject index and a speaker index

Freedom of Speech Harry M. Bracken, 1994-02-23 This work provides a philosophical framework within which the free speech clause of the Constitution's First Amendment may be understood While much has been written on the First Amendment this work is unique in offering an historically based thesis illuminating a point virtually ignored in the literature the absolutist quality of the free speech clause and the philosophical dualism words deeds on which it is based Given the increasingly powerful forces favoring group rights in order to generate laws which would silence offensive speech this book provides a radical challenge to the frameworks within which many such contemporary arguments

are cast It also reminds putative censors of the very special role free speech plays in any democratic community which aims to be self governing

It's not all in the delivery Here's expert guidance on how to write a dynamic speech **The First Modern Campaign** Gary A. Donaldson, 2007-06-15 The presidential campaign that pitted Richard M Nixon against John F Kennedy was the most significant political campaign since World War II With Eisenhower's tenure at an end American society broke with the culture of the war years This social shift was reflected in and provoked by new trends in American political life and political campaigning all of which made 1960 a landmark year in American politics In this engaging book Gary A Donaldson tells the story of Kennedy versus Nixon with a sharp eye for the salient political developments and a keen sense of the drama of an election that was unlike any other the nation had experienced The election of 1960 was also an orchestrated political drama organized as a sweeping campaign from coast to coast and staged for a national television audience This made it the first modern campaign in which the television media changed the dynamics of presidential politics and in which photographs charisma and direct appeals to voters counted as they had never done before It was also an election of intense personal rivalry made all the more spirited by the prejudice against Kennedy's Catholicism and his intention to widen the American political arena Ideological shifts within the parties as they combined with innovations in campaigning would mark a clear divide in politics as it was practiced and politics as it would have to be practiced in the future Yet not since Theodore White's journalistic account *The Making of the President* has attention been paid to the full 1960 campaign as it played out in the early primaries and then culminated in the November election Donaldson shows why the whole political season is critical to understanding American politics today *The First Modern Campaign* is essential and engaging reading for anyone interested in contemporary politics in the United States
