*Mathematical Subjects* Fiona Walls, 2009-08-10 Teaching and learning mathematics is a political act in which children teachers parents and policy makers

are made visible as subjects As they learn about mathematics children are also learning about themselves who they are who they might become We can choose to listen or not to what children have to say about learning mathematics Such choices constitute us in relations of power Mathematical know how is widely regarded as essential not only to the life chances of individuals but also to the health of communities and the economic well being of nations With the globalisation of education in an increasingly market oriented world mathematics has received intensified attention in the first decade of the twenty first century with a shifting emphasis on utilitarian aspects of mathematics This is reflected in the reconceptualisation of mathematical competence as mathematical literacy loosely conceived as those ways of thinking reasoning and working mathematically that allow us to engage effectively in everyday situations in many occupations and the cut and thrust of world economies as active empowered and participatory citizens It is no surprise then that mathematics has become one of the most politically charged subjects in primary school curricula worldwide We are experiencing an unprecedented proliferation of regional and national strategies to establish benchmarks raise standards enhance achievement close gaps and leave no child behind in mathematics education Industries have sprung up around the design administration and monitoring of standardised assessment to measure and compare children s mathematical achievement against identified benchmarks and each other

200 Super - Fun, Super - Fast Math Story Problems Dan Greenberg, 2002-09 Math is mega fun with these hilarious math story problems one for each day of the school year Students will jump at the chance to solve these math problems that give practice in addition subtraction multiplication division estimation time money geometry and so much more A witty way to meet the NCTM standards For use with Grades 3 6
