## **Speer The Final Verdict:**

**Speer** Joachim C. Fest, 2001 A portrait of Germany's World War II Armaments Minister considers his rise from unemployed architect to designer of the Third Reich's most important buildings personal relationship with Hitler and considerable ambition

**Speer** Joachim C. Fest, 2003-11-10 Albert Speer was an unemployed architect when Hitler came to power in 1933 Soon he was designing the Third Reich's most important buildings In 1942 Hitler appointed him Armaments Minister and he quadrupled production an astonishing achievement that kept the German Army in the field and prolonged the war Yet Speer's life was full of contradictions The only member of the Nazi elite with whom Hitler developed more than a purely functional relationship he has even been called Hitler's unrequited love Speer was always an outsider in Hitler's inner circle He saw himself as an artist above the crass power struggles of the roughnecks around him But his enormous ambition blinded him to the crimes in which he played a leading role Brilliantly illustrated this gripping account of one man's rise and fall helps explain how Germany descended so far into crime and barbarism

*From Chattel Slavery to Modern Slavery* Stuart Casey-Maslen, Loren Persi Vicentic, 2025-04-30 Chattel slavery in which people were considered as objects to be bought sold and destroyed dates back to the dawn of civilisation This work documents the legal basis for slavery and its many abuses across the ages by some of the main enslavers The voices of the victims and those who observed their plight are given prominence as personal histories in each chapter Slavery in the modern era includes enslavement by the Nazi regime and most recently of the Yazidis in Iraq and Syria by Islamic State Slave like practices often termed modern slavery are also included in a chapter of this volume The book ends with consideration of whether reparations for historic slavery should be made

**The Broken Voice** Robert Eaglestone, 2017-05-26 Which writer today is not a writer of the Holocaust asked the late Imre Kertsz Hungarian survivor and novelist in his Nobel acceptance speech one does not have to choose the Holocaust as one's subject to detect the broken voice that has dominated modern European art for decades Robert Eaglestone attends to this broken voice in literature in order to explore the meaning of the Holocaust in the contemporary world arguing again following Kertsz that the Holocaust will remain through culture which is really the vessel of memory Drawing on the thought of Hannah Arendt Eaglestone identifies and develops five concepts the public secret evil stasis disorientation and kitsch in a range of texts by significant writers including Kazuo Ishiguro Jonathan Littell Imre Kertsz W G Sebald and Joseph Conrad as well as in work by victims and perpetrators of the Holocaust and of atrocities in Africa He explores the interweaving of complicity responsibility temporality and the often problematic powers of narrative which make up some part of the legacy of the Holocaust

**Children of Nazis** Tania Crasnianski, 2018-02-06 The Fascinating Story of Eight Children of Third Reich Leaders and their Journey from Descendants of Heroes to Descendants of Criminals In 1940 the German sons and daughters of great Nazi dignitaries Himmler Goering Hess Frank Bormann Heide Speer and Mengele were children of privilege at four five or ten years old surrounded by affectionate all powerful parents Although innocent and unaware of what was happening at

the time they eventually discovered the extent of their father's occupations. These men, their fathers, who were capable of loving their children and receiving love in return, were leaders of the Third Reich and would later be convicted as monstrous war criminals. For these children, the German defeat was an earth-shattering source of family rupture, the end of opulence and the jarring discovery of Hitler's atrocities. How did the offspring of these leaders deal with the aftermath of the war and the skeletons that would haunt them forever? Some chose to disown their past. Others did not. Some condemned their fathers; others worshiped them unconditionally to the end. In this enlightening book, which has been translated into eleven languages, Tania Crasnianski examines the responsibility of eight descendants of Nazi notables caught somewhere between stigmatization, worship, and amnesia. By tracing the unique experiences of these children, she probes the relationship between them and their fathers and examines the idea of how responsibility for the fault is continually borne by the descendants.

**Killing Hitler** Roger Moorhouse, 2006-03-28 For the first time in one enthralling book, here is the incredible true story of the numerous attempts to assassinate Adolf Hitler and change the course of history. Disraeli once declared that assassination never changed anything, and yet the idea that World War II and the horrors of the Holocaust might have been averted with a single bullet or bomb has remained a tantalizing one for half a century. What historian Roger Moorhouse reveals in *Killing Hitler* is just how close and how often history came to taking a radically different path between Adolf Hitler's rise to power and his ignominious suicide. Few leaders in any century can have been the target of so many assassination attempts with such momentous consequences in the balance. Hitler's almost fifty would-be assassins ranged from simple craftsmen to high-ranking soldiers from the apolitical to the ideologically obsessed, from Polish Resistance fighters to patriotic Wehrmacht officers and from enemy agents to his closest associates. And yet up to now, their exploits have remained virtually unknown, buried in dusty official archives and obscure memoirs. This, then, for the first time in a single volume, is their story. A story of courage and ingenuity and ultimately failure, ranging from spectacular train derailments to the world's first known suicide bomber, explaining along the way why the British at one time declared that assassinating Hitler would be unsporting and why the ruthless murderer Joseph Stalin was unwilling to order his death. It is also the remarkable, terrible story of the survival of a tyrant against all the odds, an evil dictator whose repeated escapes from almost certain death convinced him that he was literally invincible, a conviction that had appalling consequences for millions.

**The Holocaust and the Revival of Psychological History** Judith M. Hughes, 2015 Why did men and women in one of the best-educated countries in the Western world set out to get rid of Jews? In this book, Judith M. Hughes focuses on how historians' efforts to grapple anew with matters of actors' meanings, intentions, and purposes have prompted a return to psychoanalytically informed ways of thinking. Hughes makes her case with fine-grained analyses of books by Hugh Trevor Roper, Ian Kershaw, Daniel Goldhagen, Saul Friedländer, Christopher Browning, Jan Gross, Hannah Arendt, and Gitta Sereny. All of the authors pose psychological questions; the more astute among them shed fresh light on the Holocaust without making the past any less

disturbing **Fire and Fury** Randall Hansen, 2025-05-08 Insightful rigorously researched and splendidly written Donald L Miller author of *Masters of the Air* During World War II Allied bombing obliterated every major German and Japanese city Before the dropping of the atomic bombs conventional bombing had killed approximately 400 000 Germans and 330 00 Japanese the vast majority civilians Two thirds of Germans who died under the bombs did so in 1944 and 1945 and in the last year of the war cities with little military were obliterated In Japan American bombers destroyed all but three major Japanese cities and the people in them after March 1945 These raids occurred in other words when Allied victory was assured and when precision bombing techniques were far more advanced than they were earlier in the war *Fire and Fury* asks why Based on extensive archival sources interviews with bombing survivors airmen and published first hand accounts the book looks at the bombing campaign from an avowedly human perspective Allied German and Japanese It recreates the experience of living through the death of a city It presents the complex personalities of the senior airmen and explores why bombing campaigns that seem so excessive seventy five years later seemed reasonable to many at the time It explains why those campaigns became so murderous so late in the war And it asks with the full benefits of time s fullness whether it was all worth it Perfect for fans of Max Hastings James Holland and Antony Beevor Outstanding Margaret MacMillan author of *Paris 1919 Six Months that Changed the World* Clear well argued and grippingly told Keith Lowe author of *Inferno The Fiery Destruction of Hamburg 1943*

Smith,2006-05-25 Faced with America s military superiority many countries are turning to weapons of mass destruction WMD as a means to deter United States intervention However the events of September 11 awakened America to a degree of vulnerability it had never experienced before making it increasingly unwilling to tolerate such weapons in the hands of unstable and unpredictable regimes Through theoretical historical and prescriptive lenses this book explores the modern security dilemma created by the twin fears of American encroachment and vulnerability which form a vicious cycle of insecurity that challenges traditional notions of deterrence Using Iraq and North Korea as case studies Smith argues that the United States may need to re evaluate its foreign policy strategies against WMD proliferation giving renewed attention to defensive measures negotiated disarmament interdiction and perhaps preemption     Of Mind and Murder George R.
