## **Spell Broken Exploding The Myth Of Japanese Invincibility:**

*The Spell Broken* Peter Brune, 1997 A sequel to *Those Ragged Bloody Heroes* this tells the story of the 1942 defeat of the Japanese at Milne Bay     **The Spell Broken** Peter Brune, 1998 Tells the story of how the Australian 18th brigade inflicted the first defeat on land of the Japanese army in World War 2     *The Ghost Mountain Boys* James Campbell, 2008-09-30 A harrowing portrait of a largely forgotten campaign that pushed one battalion to the limits of human suffering Despite their lack of jungle training the 32nd Division's Ghost Mountain Boys were assigned the most grueling mission of the entire Pacific campaign in World War II to march over the 10 000 foot Owen Stanley Mountains to protect the right flank of the Australian army during the battle for New Guinea Reminiscent of the classics like *Band of Brothers* and *The Things They Carried* *The Ghost Mountain Boys* is part war diary part extreme adventure tale and through letters journals and interviews part biography of a group of men who fought to survive in an environment every bit as fierce as the enemy they faced *Theirs* is one of the great untold stories of the war Superb *Chicago Sun Times* Campbell started out with history but in the end he has written a tale of survival and courage of near mythic proportions *America in WWII* magazine In this compelling and sprightly written account Campbell shines a long overdue light on the equally deserving heroes of the Red Arrow Division Military com

**The Battle of the Bismarck Sea** Michael Veitch, 2021-07-28 Readers look for and admire good writers and great writing They will find it in spades in *The Battle of the Bismarck Sea* *The Canberra Times* In the thick of World War II during the first week of March 1943 Japan made a final desperate lunge for control of the South West Pacific In the ensuing Battle of the Bismarck Sea a force of land based Australian and American planes attacked a massive convoy of Japanese warships The odds were against them But a devastating victory was won and Japan's hopes of regaining the initiative in New Guinea destroyed More importantly for Australians the victory decisively removed any possibility that Australia might be invaded by Japanese forces It was for us one of the most significant times in our history a week when our future was profoundly in the balance Bestselling author Michael Veitch tells the riveting story of this crucial moment in history how the bravery of young men and experienced fighters renegades and rule followers overcame some of the darkest days of World War II     *Descent into Hell* Peter Brune, 2014-08-01 No man has the command of words needed for conveying the courage and the cowardice the loyalty and the treachery the dedication and the dereliction the strengths and the frailties the kindness and the brutality the integrity and depravity the magnificence and the enormities of men as revealed by and to those fated to pass through the entrails of hell in Thailand Burma during and after the Railway was built *Descent into Hell* is a scrupulously researched and groundbreaking account of one of the most traumatic calamities in Australian history the Malayan Campaign the fall of Singapore and the subsequent horrors of the Thai Burma Railway Unpicking the myths and legends of the war Peter Brune goes to the heart of the Australian experience He describes the shambolic planning by the British in Singapore and the failures and incompetence of some of the Australian command He debunks the claims about Australian deserters in

Singapore and we learn of the black market in Changi and the beatings torture and murder on the Thai Burma Railway Here too are stories of the war s many heroes and villains of officers who looked after their men and optimised their chances of survival and others who looked after themselves at their men s expense the heroes of battle who became ineffectual and lost in the camps and on the Railway and the least liked and least respected battlefield officers who came to be great leaders And then there are countless acts of kindness and decency performed by one POW for another in the most cruel of circumstances Impressive compelling and rich in human spirit Descent into Hell is an unprecedented chronicle by one of Australia s finest military historians *The Battle of Milne Bay 1942* Nicholas Anderson,2018-08-05 By 1942 the formidable Japanese military had conquered swathes of territory across south east Asia and the Pacific Ocean Despite its defeat at the Battle of Midway Japan remained a potent enemy committed to the creation of a defensive arc to shield its captured possessions in the Pacific The capture of Port Moresby would cement the southern border of this defensive arc and sever the vital lines of communication between Australia and the United States It was the Japanese plan to seize Moresby that would set the course for the Battle of Milne Bay Situated on the eastern tip of New Guinea Milne Bay was a wretched hell hole swamp riddled a haven for malaria and cursed with torrential rain It was here that General Douglas MacArthur ordered the secret construction of an Allied base with airfields to protect the maritime approach to Port Moresby But the Japanese soon discovered the base at Milne Bay and despatched a task force to destroy its garrison and occupy the base All that stood between the Japanese and their prize was a brigade of regular Australian soldiers untrained in tropical warfare and a brigade of Australian militia with no combat experience whatsoever While the Kokoda campaign is etched in public memory its sister battle at Milne Bay has long been neglected However the bitter fighting over this isolated harbour played an equally important role in protecting Port Moresby and made a valuable contribution to shifting Allied fortunes in the Pacific War

**Naval Warfare 1919-45** Malcolm H. Murfett,2008-11-04 Naval Warfare 1919 45 is a comprehensive history of the war at sea from the end of the Great War to the end of World War Two Showing the bewildering nature and complexity of the war facing those charged with fighting it around the world this book ranges far and wide sweeping across all naval theatres and those powers performing major as well as minor roles within them Armed with the latest material from an extensive set of sources Malcolm H Murfett has written an absorbing as well as a comprehensive reference work He demonstrates that superior equipment and the best intelligence ominous power and systematic planning vast finance and suitable training are often simply not enough in themselves to guarantee the successful outcome of a particular encounter at sea Sometimes the narrow difference between victory and defeat hinges on those infinite variables the individual s performance under acute pressure and sheer luck Naval Warfare 1919 45 is an analytical and interpretive study which is an accessible and fascinating read both for students and for interested members of the general public Fighting the Enemy Mark Johnston,2000-04-16 Fighting The Enemy first published in 2000 is about men with the job of killing each other Based on the wartime writings of

hundreds of Australian front line soldiers during World War II this powerful and resonant book contains many moving descriptions of high emotion and drama Soldiers interactions with their enemies are central to war and their attitudes to their adversaries are crucial to the way wars are fought Yet few books look in detail at how enemies interpret each other This book is an unprecedented and thorough examination of the way Australian combat soldiers interacted with troops from the four powers engaged in World War II Germany Italy Vichy France and Japan Each opponent has themes peculiar to it the Italians were much ridiculed the Germans were the most respected of enemies the Vichy French were regarded with ambivalence while the Japanese were the subject of much hostility intensified by the real threat of occupation

The Kokoda Campaign 1942 Peter Williams, 2012-04-23 The fighting on the Kokoda Track in World War II is second only to Gallipoli in the Australian national consciousness The Kokoda campaign of 1942 has taken on mythical status in Australian military history According to the legend Australian soldiers were vastly outnumbered by the Japanese who suffered great losses in battle and as a result of the harsh conditions of the Kokoda Track In this important book Peter Williams seeks to dispel the Kokoda myth Using extensive research and Japanese sources he explains what really happened on the Kokoda Track in 1942 Unlike most other books written from an Australian perspective The Kokoda Campaign 1942 Myth and reality focuses on the strategies tactics and battle plans of the Japanese and shows that the Australians were in fact rarely outnumbered For the first time this book combines narrative with careful analysis to present an undistorted picture of the events of the campaign It is a must read for anyone who is interested in the truth of the Kokoda campaign of 1942

**The Eastern Fleet and the Indian Ocean, 1942-1944** Charles Stephenson, 2022-04-06 A study of the British Royal Navy's activities in the Indian Ocean during World War II led by Admiral Sir James Somerville The story of the British Eastern Fleet which operated in the Indian Ocean against Japan has rarely been told Although it was the largest fleet deployed by the Royal Navy prior to 1945 and played a vital part in the theatre it was sent to protect it has no place in the popular consciousness of the naval history of the Second World War So Charles Stephenson's deeply researched and absorbing narrative gives this forgotten fleet the recognition it deserves British pre war naval planning for the Far East is part of the story as is the disastrous loss of the battleship Prince of Wales and battlecruiser Repulse in 1941 but the body of the book focuses on the new fleet commanded by Admiral Sir James Somerville and its operations against the Japanese navy and aircraft as well as Japanese and German submarines Later in the war once the fleet had been reinforced with an American aircraft carrier it was strong enough to take more aggressive actions against the Japanese and these are described in vivid detail Charles Stephenson's authoritative study should appeal to readers who have a special interest in the war with Japan in naval history more generally and Royal Navy in particular Praise for The Eastern Fleet and the Indian Ocean 1942 1944 This meticulously researched outstandingly clear well written and absorbing account is long overdue and will most likely become a standard work The text is most helpfully supported by over 80 pages of detailed end notes referenced to each chapter and a detailed

index This is not only a book for naval historians but also for anyone with an interest in the War in the Indian Ocean region Highly recommended Military Historical Society I enjoyed this book it gives us an account of an often neglected part of the war at sea and of the achievements of Admiral Somerville who kept his fleet intact in the face of a potentially overwhelming opponent then was willing to acknowledge that his fleet needed to improve massively before it could take on the Japanese Dr John Rickard author and webmaster of the Military History Encyclopedia on the Web **The Hard Slog** Karl

James,2012-04-05 The first major study since 1963 to examine the historic Australian military campaign of 1944 1945 at Bougainville in the South Pacific **Defending Whose Country?** Noah Riseman,2012-12-01 In the campaign against Japan in the Pacific during the Second World War the armed forces of the United States Australia and the Australian colonies of Papua and New Guinea made use of indigenous peoples in new capacities The United States had long used American Indians as soldiers and scouts in frontier conflicts and in wars with other nations With the advent of the Navajo Code Talkers in the Pacific theater Native servicemen were now being employed for contributions that were unique to their Native cultures In contrast Australia Papua and New Guinea had long attempted to keep indigenous peoples out of the armed forces altogether With the threat of Japanese invasion however they began to bring indigenous peoples into the military as guerilla patrollers coastwatchers and regular soldiers *Defending Whose Country* is a comparative study of the military participation of Papua New Guineans Yolngu and Navajos in the Pacific War In examining the decisions of state and military leaders to bring indigenous peoples into military service as well as the decisions of indigenous individuals to serve in the armed forces Noah Riseman reconsiders the impact of the largely forgotten contributions of indigenous soldiers in the Second World War

*Give the Bastards Hell* David W. Cameron,2025-03-05 In New Guinea s jungles a fierce battle turned the tide of the Pacific War the first major land defeat for the unstoppable Japanese forces By mid August 1942 Imperial Japanese forces dominated the Southeast Asian and Pacific theatres seemingly unstoppable in their advance While the Japanese South Seas Force pushed north toward Port Moresby along the Kokoda Track they launched an operation against Milne Bay at the eastern tip of New Guinea Their objective to seize the crucial Allied airfields under construction which would pave the way for capturing Port Moresby and consolidating their hold on the region For two intense weeks Japanese marines supported by tanks and naval bombardments battled through the jungle covered strip of land between the beaches and mountains Facing them was a determined and diverse Allied force Australian militia 2nd AIF troops American engineers and critically Australian fighter pilots who fought the Japanese to a standstill near the partially completed Air Strip No 3 Despite desperate human wave attacks by the Japanese the Allies held their ground When the smoke cleared the Japanese had suffered their first significant land defeat since Pearl Harbor The Battle of Milne Bay marked a turning point in the Pacific War signalling the beginning of the end for the Imperial Japanese Empire *Historical Dictionary of World War II* Anne Sharp Wells,2023-12-15 World War II was the largest and most costly conflict in history the first true global war Fought on land on

sea and in the air it involved numerous countries and killed maimed or displaced millions of people both civilian and military around the world In spite of the alliances that bound many of the same participants the war was essentially two separate but simultaneous conflicts one involved Japan as the major antagonist and took place mostly in Asia and the Pacific and the other initiated by Germany and Italy was contested mainly in Europe North Africa the Mediterranean and the Atlantic This book focuses on the lesser known war the war with Japan It begins with Japan s seizure of Manchuria from China in 1931 and covers Japan s ambitious attacks on Pearl Harbor and other territories ten years later the use of atomic bombs on Japan s cities and the end of the Allied occupation of Japan in 1952 Although Japan renounced war in its 1947 constitution conflict continued across Asia as former colonies fought for independence and civil war engulfed other areas Historical Dictionary of World War II The War Against Japan Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 500 cross referenced entries on the military diplomatic political social economic and scientific aspects of the war in addition to the lives of the people who participated in and directed the war This book is an excellent resource for students researchers and anyone wanting to know more about the war against Japan during World War II

*Sword and Baton Volume 1: 1900 to 1939* Justin Chadwick, 2017-02-05 *Sword and Baton* is a collection of 86 biographies representing every Australian Army officer to reach the rank of major general from Federation to the outbreak of World War II This is the first of two volumes and its scope is broad including chaplains general surgeons general and British Army officers who served with the AIF or the permanent forces Author Justin Chadwick portrayal of these officers careers provides a lens through which he examines trends such as the development of military skills which ensured that by the commencement of hostilities in 1914 Australia boasted a pool of well trained albeit inexperienced officers The effects of command under pressure of war and the enormous physical impact of combat are likewise portrayed in these comprehensive biographies By the end of hostilities Australian officers had garnered immense experience and were among the best in the Allied forces Ironically this hard won skill base was to be all but lost in the interwar period *Sword and Baton* offers its readers more than a series of biographies Rather it describes a crucial period in Australian military history through the lives of the extraordinary men at its head

**The Battle of Brisbane** Robert Macklin, 2011-10-25 *A History of Modern Wars of Attrition* Carter Malkasian, 2002-01-30 A war of attrition is usually conceptualized as a bloody slogging match epitomized by imagery of futile frontal assaults on the Western Front of the First World War As such many academics politicians and military officers currently consider attrition to be a wholly undesirable method of warfare This first book length study of wars of attrition challenges this viewpoint A historical analysis of the strategic thought behind attrition demonstrates that it was often implemented to conserve casualties not to engage in a bloody senseless assault Moreover attrition frequently proved an effective means of attaining a state s political aims in warfare particularly in serving as a preliminary to decisive warfare reducing risk of escalation and coercing an opponent in negotiations Malkasian analyzes the thought of commanders who

implemented policies of attrition from 1789 to the present His study includes figures central to the study of war such as the Duke of Wellington Carl von Clausewitz B H Liddell Hart General William Slim General Douglas MacArthur General Matthew Ridgeway and General William Westmoreland While special attention is devoted to the Second World War in the Pacific and the Korean War this study notes the utility of attrition during the Cold War as the risk of a Third World War rendered more aggressive strategies unattractive Increasingly the United States finds itself facing conflicts that are not amenable to a decisive military solution in which opponents seek prolonged war that will inflict as many casualties as possible on American forces

*Turning Point* Michael Veitch, 2019-07-23 The Battle for Milne Bay Japan's first defeat on land in the Second World War was a defining moment in the evolution of the indomitable Australian fighting spirit For the men of the AIF the militia and the RAAF it was the turning point in the Pacific and their finest though now largely forgotten hour Forgotten until now In August 1942 Japan's forces were unstoppable Having conquered vast swathes of south east Asia Malaya Singapore the Dutch East Indies and now invading New Guinea many feared the Empire of the Rising Sun stood poised to knock down Australia's northern door But first they needed Port Moresby In the still of an August night Japanese marines sailed quietly into Milne Bay a long malaria ridden dead end at the far eastern tip of Papua to unleash an audacious pincer movement Unbeknown to them however a secret airstrip had been carved out of a coconut plantation by US Engineers and a garrison of Australian troops had been established supported by two locally based squadrons of RAAF Kittyhawks including the men of the famed 75 Squadron The scene was set for one of the most decisive and vicious battles of the war For ten days and nights Australia's soldiers and airmen fought the elite of Japan's forces along a sodden jungle track and forced them back step by muddy bloody step In *Turning Point* bestselling author Michael Veitch brings to life the incredible exploits and tragic sacrifices of these Australian heroes

The A to Z of Australia James C. Docherty, 2010-04-01 The last continent to be claimed by Europeans Australia began to be settled by the British in 1788 in the form of a jail for its convicts While British culture has had the largest influence on the country and its presence can be seen everywhere the British were not Australia's original populace The first inhabitants of Australia the Aborigines are believed to have migrated from Southeast Asia into northern Australia as early as 60 000 years ago This distinctive blend of vastly different cultures contributed to the ease with which Australia has become one of the world's most successful immigrant nations The A to Z of Australia relates the history of this unique and beautiful land which is home to an amazing range of flora and fauna a climate that ranges from tropical forests to arid deserts and the largest single collection of coral reefs and islands in the world Through a detailed chronology an introduction appendixes a bibliography and cross referenced dictionary entries on some of the more significant persons places and events institutions and organizations and political economic social cultural and religious facets author James Docherty provides a much needed single volume reference on Australia from its most unpromising of beginnings as a British jail to the liberal tolerant democracy it is today

Bloody Buna David W. Cameron, 2024-01-03 With the Australian troops

crossing of the Kumusi River in mid November after pushing the Japanese back along the Kokoda Track the time had come to face the entrenched Japanese at their beachhead at Gona Sanananda and Buna The end of the Kokoda Campaign in mid November 1942 marked a turning point for the Australians but the fighting was far from over Within days the battles for the three Japanese beachheads would commence These battles where the first combined large scale operation between Australian and American troops against the Japanese and would prove to be among the fiercest of the Pacific War At Buna the final battles to take New and Old air strips by the Australians along with the ongoing American attacks to take the infamous Triangle proved to be a brutal and deadly bloodbath for all concerned Amidst the crocodile infested swamps and lowland jungle with dozens of Japanese bunkers and pillboxes with supporting artillery the Australians who fought at all three beachheads faced an unprecedented toll suffering more killed or wounded than in any other campaign of the Pacific war In the face of relentless combat the Allied forces at Buna suffered staggering casualties with 2817 men lost at Buna The American 32nd Division sustained 1954 casualties including 353 killed 1508 wounded and 93 missing amounting to around 40 per cent casualties over a six week period The Australian 18th Infantry Brigade and supporting elements suffered 863 casualties with 267 killed 557 wounded and 39 missing amounting to around 60 per cent casualties over just three weeks of fighting As the battle raged on the Japanese suffered significant losses with a minimum of 1390 men killed at Buna The true number of their dead lost in history is likely much higher with conservative estimates suggesting around 3000 fatalities Bloody Buna sheds light on the untold sacrifices and heroism displayed by the Australian and American troops as they clashed with the Japanese in one of the most vicious chapters of the Pacific War
