Spell Of The Tiger The Man Eaters Of The Sundarbans:

Spell of the Tiger: The Man-eaters of the Sundarbans Sy Montgomery, 2002 *Spell of the Tiger* Sy Montgomery, 2009-01-16 Tigers The Man-Eating Tigers of Sundarbans Sy Montgomery, 2001 The forest around the Bay of Bengal is home to more tigers than anywhere in the world Readers can learn about their habitat and the myths that surround them **Spell of the Tiger** Sy Montgomery, 2009-02-15 From the author of *The Soul of an Octopus* and bestselling memoir *The Good Good Pig* a book that earned Sy Montgomery her status as one of the most celebrated wildlife writers of our time *Spell of the Tiger* brings readers to the Sundarbans a vast tangle of mangrove swamp and tidal delta that lies between India and Bangladesh It is the only spot on earth where tigers routinely eat people swimming silently behind small boats at night to drag away fishermen snatching honey collectors and woodcutters from the forest But unlike in other parts of Asia where tigers are rapidly being hunted to extinction tigers in the Sundarbans are revered With the skill of a naturalist and the spirit of a mystic Montgomery reveals the delicate balance of Sundarbans life explores the mix of worship and fear that offers tigers unique protection there and unlocks some surprising answers about why people at risk of becoming prey might consider their predator a god **On Active Grounds** Robert Boschman, Mario Trono, 2019-04-17 *On Active Grounds* considers the themes of agency and time through the burgeoning interdisciplinary field of the environmental humanities Fourteen essays and a photo album cover topics such as environmental practices and history temporal literacy graphic novels ecocinema ecomusicology animal studies Indigeneity wolf reintroduction environmental history green conservatism and social ecological systems change The book also speaks to the growing concern regarding environmental issues in the aftermath of the 2015 Paris Climate Conference COP21 and the election of Donald Trump in the United States This collection is organized as a written and visual appeal to issues such as time how much is left and agency who is active what can be done what does and does not work It describes problems and suggests solutions *On Active Grounds* is unique in its explicit and twinned emphasis on time and agency in the context of the Environmental Humanities and a requisite interdisciplinarity **Three Ways to Disappear** Katy Yocom, 2019-07-16 Leaving behind a nomadic and dangerous career as a journalist Sarah DeVaughan returns to India the country of her childhood and a place of unspeakable family tragedy to help preserve the endangered Bengal tigers Meanwhile at home in Kentucky her sister Quinn also deeply scarred by the past and herself a keeper of secrets tries to support her sister even as she fears that India will be Sarah's undoing As Sarah faces challenges in her new job made complicated by complex local politics and a forbidden love Quinn copes with their mother's refusal to talk about the past her son's life threatening illness and her own increasingly troubled marriage When Sarah asks Quinn to join her in India Quinn realizes that the only way to overcome the past is to return to it and it is in this place of stunning natural beauty and hidden danger that the sisters can finally understand the ways in which their family has disappeared from their shared history from one another and recognize that they may need to risk everything to find themselves again With dramatic

urgency a powerful sense of place and a beautifully rendered cast of characters revealing a deep understanding of human nature in all its flawed glory Katy Yocom has created an unforgettable novel about saving all that is precious from endangered species to the indelible bonds among family

Tiger Bone & Rhino Horn Richard Ellis, 2013-02-22 In parts of Korea and China moon bears black but for the crescent shaped patch of white on their chests are captured in the wild and brought to bear farms where they are imprisoned in squeeze cages and a steel catheter is inserted into their gall bladders The dripping bile is collected as a cure for ailments ranging from an upset stomach to skin burns The bear may live as long as fifteen years in this state Rhinos are being illegally poached for their horns as are tigers for their bones thought to improve virility Booming economies and growing wealth in parts of Asia are increasing demand for these precious medicinals Already endangered species are being sacrificed for temporary treatments for nausea and erectile dysfunction Richard Ellis one of the world's foremost experts in wildlife extinction brings his alarm to the pages of *Tiger Bone Rhino Horn* in the hope that through an exposure of this drug trade something can be done to save the animals most direly threatened Trade in animal parts for traditional Chinese medicine is a leading cause of species endangerment in Asia and poaching is increasing at an alarming rate Most of traditional Chinese medicine relies on herbs and other plants and is not a cause for concern Ellis illuminates those aspects of traditional medicine but as wildlife habitats are shrinking for the hunted large species the situation is becoming ever more critical One hundred years ago there were probably 100 000 tigers in India South China Sumatra Bali Java and the Russian Far East The South Chinese Caspian Balinese and Javan species are extinct There are now fewer than 5 000 tigers in all of India and the numbers are dropping fast There are five species of rhinoceros three in Asia and two in Africa and all have been hunted to near extinction so their horns can be ground into powder not for aphrodisiacs as commonly thought but for ailments ranging from arthritis to depression In 1930 there were 80 000 black rhinos in Africa Now there are fewer than 2 500 Tigers bears and rhinos are not the only animals pursued for the sake of alleviating human ills the list includes musk deer sharks saiga antelope seahorses porcupines monkeys beavers and sea lions but the dwindling numbers of those rare species call us to attention Ellis tells us what has been done successfully and contemplates what can and must be done to save these animals or sadly our children will witness the extinction of tigers rhinos and moon bears in their lifetime

Living with Disasters Amites Mukhopadhyay, 2016-02-25 This book is a critical account of the disconnected nature of governance conservation and livelihood initiatives in the Indian Sundarbans an active delta that spreads over 25 500 sq km across India and Bangladesh and lies in the Bay of Bengal It draws a holistic picture of the disaster prone delta in eastern India which is a UNESCO World Heritage Site and also one of the largest tracts of mangrove forests in the world The author juxtaposes the vulnerable lives and frequently displaced existence of the islanders against the dominant strategies of conservation and development followed by the state

Reading Contemporary South Asian Literature Bidhu Chand Murmu, Somjeeta Pandey, 2022-04-12 As a school of criticism the central argument in Postcolonial studies revolves around

dismantling the dominant narrative of colonial or imperial history A colonization process not only captures the native people and culture but their lands too Proper reading of postcolonial theory would be by understanding the epistemology of colonized environment or vice versa Even after decolonization the ideology of imperialism is persistent in native memory and thought An embeddedness in native psyche not only nurtures imperialism but manifests them with the footprints of colonial masters In postcolonial countries the discourse of social and economic justice is deeply rooted in ecology As a consequence environmental activists from postcolonial nations tend to see any modern policy as a disguised form of neocolonialism or imperial dominance globalization and modernization Since the shocks of imperialism and globalization are most strongly felt in the third world countries most of them being former colonies this edited volume intends to explore texts by South Asian writers examining how these writers and their characters cope with the destruction of the environment This edited volume plans to seek out the writings of epistemological understanding of our environment Moreover the volume would also see a critical entanglement of race class gender culture modernization globalization nation and trans nation etc Furthermore this book will attempt to show how different genres of literature ranging from fiction to non fiction can bring out inimitable insights into varied understanding of postcolonial and ecocritical studies *Walking with the Great Apes* Sy

and it also responds to the paradigm shift in Asian Studies Discussing how local conditions shape and create expectations of how we read historical fiction and working with the theme of fictionality and locality the volume provides an alternative framework for the study of world literature *Journey of the Pink Dolphins* Sy Montgomery, 2009-02-15 By the acclaimed author of *The Soul of an Octopus* and the bestselling memoir *The Good Good Pig* When Sy Montgomery ventured into the Amazon to unlock the mysteries of the littleknown pink dolphins she found ancient whales that plied the Amazon River at dawn and dusk swam through treetops in flooded forests and performed underwater ballets with their flexible bodies But she soon found out that to know the botos as the dolphins are locally called you must also know the people who live among them And so in *Journey of the Pink Dolphins* Montgomery part naturalist part poet part Indiana Jones winds her way through watery tributaries and riverside villages searching for botos and hearing the tales of locals who believe these ethereal dolphins are shape shifters creatures that emerge from the water as splendidly dressed men or women only to enchant their human onlookers capture their souls and then carry them away to the Encante an underwater world Montgomery takes readers on four separate journeys exploring the river dwelling dolphins natural history chronicling their conservation pressures unraveling their prehistoric roots and visiting with shamans who delve into the Encante *There Is Room for You* Charlotte Bacon, 2005-04-01 In a braided narrative that unites the stories of two striking women Charlotte Bacon explores the emotional and psychological turbulence of suppressed family histories the bravery needed to renew broken lives and the difficulties we all have in responding to the pain of others Anna Singer a charmingly independent young New Yorker feels derailed after losing her father to a car accident and her husband to a younger woman She books a trip to India hoping that there she will be able to put her grief into perspective Though this is her first visit India has always tantalized her her English mother Rose was raised in Calcutta during the twilight of the British Raj but seldom spoke of her childhood Then as Anna departs Rose gives her a manuscript in which she has recorded her Indian memories growing up with a Hindu ayah and a widower father torn between two cultures and belonging completely to neither Anna s sense of how she fits into the world is unexpectedly challenged by the daunting complexity of modern India but even greater surprises are in store when she turns the pages of her mother s memoir *There is Room for You* brilliantly traces the experience of India from the dual perspectives of Anna who flees to the country and Rose who fled from it The unexpected parallels in the lives of mother and daughter become a nuanced contemplation of the nature of family in a world of profound suffering *Birdology* Sy Montgomery, 2010-04-06 Meet the ladies a flock of smart affectionate highly individualistic chickens who visit their favorite neighbors devise different ways to hide from foxes and mob the author like she s a rock star In these pages you ll also meet Maya and Zuni two orphaned baby hummingbirds who hatched from eggs the size of navy beans and who are little more than air bubbles fringed with feathers Their lives hang precariously in the balance but with human help they may one day conquer the sky Snowball is a cockatoo whose dance video went viral on YouTube and who s now teaching schoolchildren how to

Trout,2011-11-15 In this illuminating and evocative exploration of the origin and function of storytelling the author goes beyond the work of mythologist Joseph Campbell arguing that mythmaking evolved as a cultural survival strategy for coping with the constant fear of being killed and eaten by predators Beginning nearly two million years ago in the Pleistocene era the first stories Trout argues functioned as alarm calls warning fellow group members about the carnivores lurking in the surroundings At the earliest period before the development of language these rudimentary stories would have been acted out When language appeared with the evolution of the ancestral human brain stories were recited memorized and much later written down as the often bone chilling myths that have survived to this day This book takes the reader through the landscape of world mythology to show how our more recent ancestors created myths that portrayed animal predators in four basic ways as monsters as gods as benefactors and as role models Each incarnation is a variation of the fear management technique that enabled early humans not only to survive but to overcome their potentially incapacitating fear of predators In the final chapter Trout explores the ways in which our visceral fear of predators is played out in the movies where both animal and human predators serve to probe and revitalize our capacity to detect and survive danger Anyone with an interest in mythology archaeology folk tales and the origins of contemporary storytelling will find this book an exciting and provocative exploration into the natural and psychological forces that shaped human culture and gave rise to storytelling and mythmaking
