An examination of this question is the basis of this volume. Building on a model for evaluating the relationships between families, schools, and children, the contributors analyze how school achievement is influenced by parent-child interactions, how early adolescents are affected by the overlapping spheres of influence of school, family, community, and peer group, and how family environment influences educational attainment. Other issues discussed include education for children with learning difficulties, school truancy, and the effects of parental discord and divorce on children's learning. In conclusion, the book offers examples of prevention. *Building LGBTQ+ Resilience: Tools for Stronger Relationships, Family Connection, Mental Health, and Effective Parenting* Horacio Fuentes, Unleash the transformative power of resilience within the LGBTQ community with this comprehensive guidebook. Defining the Family Law Technology and Reproduction in an Uneasy Age provides a sweeping portrait of the family in American law from the nineteenth century to the present The family today has come to be defined by individuality and choice Pre nuptial agreements non marital cohabitation gay and lesbian marriages have all profoundly altered our ideas about marriage and family In the last few years reproductive technology and surrogacy have accelerated this process of change at a breathtaking rate Once simple questions have taken on a dizzying complexity Who are the real parents of a child What are the relationships and responsibilities between a child the woman who carried it to term and the egg donor Between viable sperm and the wife of a dead donor The courts and the law have been wildly inconsistent and indecisive when grappling with these questions Should these cases be decided in light of laws governing contracts and property Or it is more appropriate to act in the best interests of the child even if that child is unborn or even unconceived No longer merely settling disputes among family members the law is now seeing its own role expand to the point where it is asked to regulate situations unprecedented in human history Janet L Dolgin charts the response of the law to modern reproductive technology both as it transforms our image of the family and is itself transformed by the tide of social forces **Widening the Family Circle**
