The Family in Search of a Future Herbert Arthur Otto, 1970 *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1973 *Books in Series*, 1985 Vols for 1980 issued in three parts Series Authors and Titles

Handbook of Marriage and the Family Suzanne K. Steinmetz, Marvin B. Sussman, 2013-11-11 The lucid straightforward Preface of this Handbook by the two editors and the comprehensive perspectives offered in the Introduction by one of them leave little for a Foreword to add. It is therefore limited to two relevant but not intrinsically related points: a review of research on marriage and the family in the interval since the first Handbook Christensen 1964 appeared, namely the impact on this research of the politicization of the New Right and of the Feminist Enlightenment beginning in the mid sixties about the time of the first Handbook. In the late 1930s Willard Waller noted: Fifty years or more ago about 1890 most people had the greatest respect for the institution called the family and wished to learn nothing whatever about it. Everything that concerned the life of men and women and their children was shrouded from the light. Today much of that has been changed. Gone is the concealment of the way in which life begins, gone the irrational sanctity of the home. The aura of sentiment which once protected the family from discussion clings to it no more. We want to learn as much about it as we can and to understand it as thoroughly as possible for there is a rising recognition in America that vast numbers of its families are sick from internal frustrations and from external buffeting. We are engaged in the process of reconstructing our family institutions through criticism and discussion. 1938 pp 3-4

□□□□□□□□, 1971 *Handbook of Contemporary Families* Marilyn Coleman, Lawrence H. Ganong, 2004 Coleman and Ganong recruited an outstanding group of scholars to contribute to the Handbook of Contemporary Families. Authors represent a wide array of disciplines and the topics touch on every aspect of family life. The organization of the book is excellent and the writing of high quality. Scholars and students alike will find the book a valuable resource. Alan Booth Penn State University. Marilyn Coleman and Larry Ganong have produced a comprehensive handbook exploring the changes and challenges confronting contemporary families. The chapters written by some of the most distinguished social scientists studying families give a balanced research-based analysis of some of the most contentious issues of our time. E. Mavis Hetherington University of Virginia. This useful handbook brings together many of the most important new findings and

provocative ideas about America's diverse and changing families. An excellent resource. Stephanie Coontz, author of *The Way We Really Are: Coming to Terms with America's Changing Families*. What has happened to marriage and families? What is the current state of families? Where are families headed? Where is family scholarship headed? As families face challenges today brought on by events that have changed their perception of the world, there is a need for a clear assessment of what has happened to families in the past and an examination of some data-based theories about what is likely to happen in the future. *The Handbook of Contemporary Families* explores how families have changed in the last 30 years and speculates about future trends. Editors Marilyn Coleman and Lawrence H. Ganong, along with a multidisciplinary group of contributors, critique the approaches used to study relationships and families while suggesting modern approaches for the new millennium. The Handbook looks at how changes within the contemporary family have been reflected in family law, family education, and family therapy. Features of this Handbook: Examines a diverse array of families and relationships in which people live, including chapters on alternative lifestyles, gay and lesbian relationships, economically distressed families, religion, and families; racial and ethnic diversity; a feminist vision for families; older families; and the effect of computers and other technology on family relationships. Includes both a historical review and future speculation on the subjects covered in each chapter. Interdisciplinary contributors representing a variety of fields such as history, family studies, sociology, law, therapy, social work, psychology, nursing, and human development. *The Handbook of Contemporary Families* is an excellent resource for advanced undergraduate and graduate students, researchers, educators, and practitioners who study and work with families in several disciplines, including Family Science, Human Development and Family Studies, Sociology, Marriage, Family Therapy, and Social Work.
