Inventing the Renaissance Ada Palmer,2025-03-28 An irreverent new take on the Renaissance which reveals it as anything but Europe s golden age From the darkness of a plagued and war torn Middle Ages the Renaissance we re told heralds the dawning of a new world a halcyon age of art prosperity and rebirth Hogwash or so says award winning novelist and historian Ada Palmer In Inventing the Renaissance Palmer turns her witty and irreverent eye on the fantasies we ve told ourselves about Europe s not so golden age myths she sets right with sharp clarity Palmer s Renaissance is altogether desperate Troubled by centuries of conflict she argues Europe looked to a long lost Roman Empire even its education practices to save it from unending war Later historians met their own political challenges with a similarly nostalgic vision only now they looked to the Renaissance and told a partial story To right this wrong Palmer offers fifteen provocative portraits of Renaissance men and women some famous some obscure whose lives reveal a far more diverse fragile and wild Renaissance than its glowing reputation suggests

Building the Italian Renaissance Paula Kay Lazrus,2019-07-01 Building the Italian Renaissance focuses on the competition to select a team to execute the final architectural challenge of the cathedral of Santa Maria del Fiore the erection of its dome Although the model for the dome was widely known the question of how this was to be accomplished was the great challenge of the age This dome would be the largest ever built This is foremost a technical challenge but it is also a philosophical one The project takes place at an important time for Florence The city is transitioning from a High Medieval world view into the new dynamics and ideas and will lead to the full flowering of what we know as the Renaissance Thus the competition at the heart of this game plays out against the background of new ideas about citizenship aesthetics history and its application to the present and new technology The central challenge is to expose players to complex and multifaceted situations and to individuals that animated life in Florence in the early 1400s Humanism as a guiding philosophy is taking root and scholars are looking for ways to link the mercantile city to the glories of Rome and to the wisdom of the ancients across many fields The aesthetics of the classical world buildings plastic arts and intellectual pursuits inspired wonder perhaps even envy but the new approaches to the past by scholars such as Petrarch suggested that perhaps the creative

classes are not simply crafts people but men of ideas Three teams compete for the honor to construct the dome a project overseen by the Arte Della Lana wool workers guild and judged by them and a group of Florentine citizens who are merchants aristocrats learned men and laborers Their goal is to make the case for the building to live up to the ideals of Florence The game gives students a chance to enter into the world of Florence in the early 1400s to develop an understanding of the challenges and complexity of such a major artistic and technical undertaking while providing an opportunity to grasp the interdisciplinary nature of major public works

Research Handbook

on Art and Law Jani McCutcheon,Fiona McGaughey,2020-01-31 Featuring international contributions from leading and emerging scholars this innovative Research Handbook presents a panoramic view of how law sees visual art and how visual art sees law It resists the conventional approach to art and law as inherently dissonant one a discipline preoccupied with rationality certainty and objectivity the other a creative enterprise ensconced in the imaginary and inviting multiple unique and subjective interpretations Blending these two distinct disciplines this unique Research Handbook bridges the gap between art and law

Italy's Renaissance in Buildings and Gardens

Frederick Kiefer,2024-10-08 Palaces villas and churches These were the highlights of my first visit to Italy I took a lot of photos and looked forward to sharing them with friends and family Back home though I found that I didn't recall much about the places that impressed me Although I had the benefit of a half day guide in Rome Florence and Venice I sometimes had difficulty hearing what was said on crowded streets and busy interiors The guides were capable but had only enough time to mention a few major features As a rule they skimmed on actually describing buildings that intrigued me And so they were not especially helpful in providing the insights I wanted Upon my return I found myself wondering Where did the architects actually find their ideas What did they want to accomplish And what do their choices tell us about their time My sojourn in Italy would have been more satisfying if I had come away with a fuller account of what I had seen What I most needed was context This book supplies that context Contemplation of antiquity and the exchange of views among architects released a surge of intellectual energy not seen for a millennium a development that would never have happened so quickly were it not for Johannes Gutenberg's invention of printing with movable type This development in turn led to architects heightened self awareness of their collective enterprise

They read what their fellow architects wrote and thereby gained in sophistication They were no longer merely masons They became architects in the modern sense They took pride in their achievements and shared a conviction that the visual culture they created was far superior to that of the previous thousand years Their embrace of classical civilisation had a visceral urgency Rome after all was a culture with a storied past peopled by larger than life figures To learn what the ancients had created in word or stone could supply a shortcut to wisdom And emulating the Romans would provide new models of aesthetic excellence This endeavour became known as the Renaissance or rebirth The Reformation however changed everything Martin Luther brought to issue a quandary How exactly was Christianity to be reconciled with the pagan past if at all Could one source of inspiration be sustained without compromising the other Religious reform questioned the aesthetic achievements of the previous hundred years The story of Renaissance architecture represents the effort to find an accommodation

Florence, Chianti, Siena & Surroundings Emma Jones, 2009-08-13 Visitors have been drawn to Florence's architectural and artistic treasures for centuries and for good reason But with an historical center of only half a square mile it can be hard to see the sights through the crowds The throng on the Duomo steps the lines for the Uffizi and the jostling for photos on Piazzale Michelangelo all require a good dose of patience especially under the blistering summer heat Fortunately early evening offers a respite the quieter streets and softer lighting at that time bring out the colors of the marble clad cathedral topped by Filippo Brunelleschi's archetypal dome the sheer immensity of the Palazzo Vecchio and the charm of the medieval Ponte Vecchio with its shops latched shut for the night But avoiding the lines when you enter the buildings and museums takes some preparation especially if you arrive in the busiest and hottest summer months when the only option is to drag yourself out of bed at sunrise to beat the crowds to the 8 15 am openings Not to be missed Piazza del Duomo Famous address of the Duomo Campanile and Battistero Galleria degli Uffizi The most select picture gallery in the world and potent symbol of Medici power Palazzo Vecchio Medieval town hall architecture at its most forceful Galleria dell'Accademia Home to Michelangelo's David Via dei Tornabuoni Even if you can't afford to buy you'll enjoy the window shopping on this luxury laden street Piazza Repubblica The 19th century makes its mark Museo Nazionale del Bargello Florence's national sculpture museum Giardino di Boboli Sculpture packed gardens behind the museum packed Palazzo Pitti The Oltrarno A warren of narrow streets filled with artisan workshops and some great restaurants Piazzale Michelangelo The classic Florentine view The churches Santa Maria Novella San Lorenzo Orsanmichele Santa Croce Santo Spirito and San Miniato al Monte are just some of the delights on offer The markets Shopping the Florentine way Ponte Vecchio Medieval bridge architecture at its most splendid Le Murate Atmospheric ex convent and ex prison now the venue for Firenze Estate events This guide focuses on Florence and the surrounding region including San Gimignano Chianti Mugello Upper Valdarno Val d'Elsa Fiesole Pistoia and Prato all easily reached in day trips This history rich region offers some of Italy's classic landscapes pole straight cypress trees lining dusty farm roads rolling hills that stretch as far as the eye can see fields of vibrant sunflowers medieval villages
