The Flavour Of Hong Kong:

Between Mumbai and Manila Manfred Hutter,2013-07-17 The volume offers a diversity of facets of Jewry between Mumbai and Manila While some of its papers make references to the important factor how politics and religions are often intertwined other papers are arranged along the lines of area studies from South Asia via Southeast Asia to China and the Far East Even if these articles at first glance concentrate on local minority communities they always take into account that the Jewish communities in Asia take part in interactions of religions which can help to foster mutual understanding The studies presented at the conference refer to an extended approach always bringing Jewish Studies into international links and crossing borders thus opening comparative perspectives to broaden our knowledge of Jewish history So we have to reconsider aspects of Jewish studies for the future which would include Asian and religious studies in a qualitative comparative and interdisciplinary way and thus can shift away from the Euro American centric point of view regarding Jewish Studies

[Tasting Cultures: Thoughts for Food](#) Maria José Pires,2019-01-04 This volume was first published by Inter Disciplinary Press in 2015 A myriad of fresh possibilities is offered when researching in food studies Just like any other area of knowledge researchers here breathe the present because they have already absorbed the past and can easily try to devise the future As the question of authenticity and adaptability rises urgently we gain knowledge of the specificities where cultural heritage faces assimilation from other lifestyles in an effort to save and reshape the community and its cultural identity Food researchers have also struggled with the constructions and measuring of tastes within diverse communities by comparison to other references even though it has become harder to discern matters from expert advice and controlled mediation Therefore we invariably come across the power of representations in deep association with culture and the society that produces them for there are increasingly complex food systems bearing diverse layers of meaning

The Oxford Handbook of Chinese Cinemas Carlos Rojas,Eileen Chow,2013-03-13 What does it mean for a cinematic work to be Chinese Does it refer specifically to a work s subject or does it also reflect considerations of language ethnicity nationality

ideology or political orientation Such questions make any single approach to a vast field like Chinese cinema difficult at best Accordingly The Oxford Handbook of Chinese Cinemas situates the term more broadly among various different phases genres and distinct national configurations while taking care to address the consequences of grouping together so many disparate histories under a single banner Offering both a platform for cross disciplinary dialogue and a mapping of Chinese cinema as an expanded field this Handbook presents thirty three essays by leading researchers and scholars intent on yielding new insights and new analyses using three different methodologies Chapters in Part I investigate the historical periodizations of the field through changing notions of national and political identity all the way from the industry s beginnings in the 1920s up to its current forms in contemporary Hong Kong Taiwan and the global diaspora Chapters in Part II feature studies centered on the field s taxonomical formalities including such topics as the role of the Chinese opera in technological innovation the political logic of the Maoist film and the psychoanalytic formula of the kung fu action film Finally in Part III focus is given to the structural elements that comprise a work s production distribution and reception to reveal the broader cinematic apparatuses within which these works are positioned Taken together the multipronged approach supports a wider platform beyond the geopolitical and linguistic limitations in existing scholarship Expertly edited to illustrate a representative set of up to date topics and approaches The Oxford Handbook of Chinese Cinemas provides a vital addition to a burgeoning field still in its formative stages
