Krell Goldenthal,2010-11-08 Some people think that the more mature we get the easier we can bond with new friends Others believe that the older we get the more challenging relationships become With age we might be less flexible and more set in our ways Lonely people often tend to regress to their childhood years They become almost like children that seek their mothers nurturing and love By reaching out to others for attention or love we expect to get this nurturing feeling that we are seeking in return Those who accept and embrace certain realizations have a greater chance for long term success with partners friends and employers For an older person that has a possessive jealous streak could be challenging meeting new friends It is always better to choose compatible friends to communicate and spend quality time with Boring and nosy friends are nothing more than a disaster in a friendship Try to get along with relatives and neighbors If you find it difficult change sceneries meet new people in your community take a walk in a park enjoy nature and meet other nature lovers

Carmina Harr,2014-11-07 I can certainly state that writing can change your life It is one of the therapies I practised and it had very good results That is how I began to write the book Initially out of impulse Afterwards I realized how much it helped me writing everything I felt in my heart The miracle offered by writing is that you get the answers to all your questions Those questions to which only your heart can answer Once you find answers to everything you did not even think you would come up with solutions you are absolutely healed I feel that only a person completely healed can help the others The rest is just dust in the wind The message of the book is practically beyond words If you open yourself the God within you will write with your own hand everything your mind would not even think possible A few words about me Following my inner transformation I have become what I am now What are the fundamental features that define me I am a determined woman very active I relish the experiences full of action I always know what I want and where I want to get I act for what I want I am an expansive woman full of life I attract people around me by the intelligence and refinement I have I am attracted to powerful persons with a sparkling intelligence I have spiritual aspirations and I have the spontaneous quality of leading those around me on the path of self discovery
